Belmont Chronicle.

St. Clairsville, Ohio, March 1.

STATE NEWS.

THE Cleveland Herald reports that on Friday night the earth in the vicinity of East Cleveland cracked open with a loud dull report, like an earthquake. The fissure was two or three inches wide and extended into the ground several feet. It damaged several houses and alarmed the people generally.

HERR DAIESBACH, the famous lion tamer, whose residence is in Wooster, advertises for the recovery of a lost whip, made of a Hippopotamus.

REV. J. ROBISSON, of the M. E. Church Conneaut, Ohio, was announced by the Reporter to preach in the bar-room of the Tremont House, in that place, on a late Sunday evening.

THE Springfield Republic states that a little girl, while skating upon the ice was caught by a revolving shaft, extending from a machine shop to another building, and whirled round one hundred and fifty times before she was secured. Portions of her body struck the ice every revolution of the shaft, and she is suffering very much from bruises and injuries.

THE Noble County Republican notices the case of Mrs. King, arrested for stealing bread and meat. Investigation showed her to have heretofore borne a good character, to be the widow of a soldier, and to have committed the crime to keep her children from starving.

A SPECIAL election was held in the Marietta (O.) District, on Saturday, to fill the vacancy in the Ohio House of Representatives, made by the death of Hon. A. L. Haskins. Mr. Green, the Republican candidate, was elected by a majority of 400, a gain of thirty eight over the majority for Governor Cox.

AN exchange says, the long talked of sale of the Equescurriculum circus establishment, which was to have taken place on the 14th inst., was a failure. Several Western managers, including Robinson and Lake, were among the bidders, but no Eastern men. The proprietor, Mr. Lent, abandoned the attempt at sale.

THE Zanesville Courier says that oil was struck on Friday last in Salt Creek township, in that county, on the farm of James Elliott, about three miles from Duncan Falls, at a depth of one hundred and three feet. On striking the crevice the oil rose to the top of the well, and the indications are, that it will prove a better paying well than any hitherto discovered in the county.

THE Sandusky Register states that during the Court of Common Pleas, last week, the sale of the Sandusky, Dayton and Cincinnati Railroad made in pursuance of an order issued at the last term, was duly confirmed. The purchasing trustees will, we understand, proceed at once to reorganize the new company, and the contemplated enterprise of an independent line from Dayton to Cincinnati, will be prosecuted without delay.

THE Noble County Republican learns from the Assistant Assessor that from May 1, 1865, to Feb. 1, 1866, there were 1,635 bbls crude oil returned by the different oil companies of that County.

THE Newark American says the Methodists of that city have made arrangements for building a church in the spring at a cost of $17,000.

THE Chardon Democrat says Geauga County produced 4,240,111 lbs. of cheese in 1864—an average of 10,600 pounds per square mile.

THE Democracy of Dayton fired a hundred guns in honor of the President's veto, and C. L. Vallandigham hung out the American flag. That is more than they did for any victory of the Union arms.

IN several counties farmers' clubs are being organized, to meet monthly or semi-monthly, for the purpose of exchanging views and discussing questions of interest pertaining to their interest.

FOREIGN ITEMS.

IT is rumored in Washington that a treaty has been entered into between France and Austria for the immediate withdrawal of the French military forces in Mexico, and their replacement by one hundred thousand Austrian troops.

THE Pall Mall Gazette says that "the passage in the Emperor Napoleon's speech relating to America, it is believed, originally contained an explicit declaration of the period within which the French troops would be withdrawn from Mexico. At the last moment, however, Mr. Seward's dispatches became known to the Emperor, upon which he altered the passage to its present from."

A CORRESPONDENT of the London Morning Post says: "It is reported in diplomatic circles that a private understanding exists between the governments of Great Britain and Washington, by which the claims made by America for the losses at sea will be amicably arranged."

EIGHTY thousand well to do Germans emigrated to this country during the past year, according to the London Times.

ENGLISH papers speak of a boy preacher, thirteen years old, who collects crowded congregations to hear him.

THE Department of State at Washington has received a flag from the people of Lyons, France, dedicated to the people of the United States in memory of Abraham Lincoln. The flag is of the finest fabric, and is inscribed "Popular Subscription. To the Republic of the United States, in memory of Abraham Lincoln. Lyons, 1865."

LOUIS NAPOLEON is said to have sent a dispatch to the government of the United States demanding whether it means to regard a protracted occupation of Mexico as a cause of war.

THE empress of Mexico has purchased at Jerusalem what is said to be the site of the Habitation of the Virgin Mary, and will erect a magnificent chateau on the spot.

EWITCHING little Piccolomini is dying. Rheumatism has sadly distorted her pretty features.

OFFICIAL reports in England show that vaccination has so far proved a certain safeguard to cattle, against the plague which has raged so fearfully in the British Islands.

PERU has joined Chili in her war against Spain; and the United States of Columbia show some disposition to join the fray. The conflict bids fair to become of respectable dimensions.

COLONIES of Swiss are settling in the northern part of Patagonia. The soil is reported as fertile, and well adapted to the raising of cattle.

MAXIMILIAN is said to be in trouble with an empty treasury and no means of replenishing it.

THE rebel colony in Mexico is represented as in a very drooping condition.

Clydesdale Washing Compound

THE great object so long sought after which would make the most laborious of woman's work comparatively easy and combine the

Saving of LABOR with the great saving of CLOTHES,

over the Wash Board or Washing Machine, has at length been accomplished with

Perfect Success.

The great merits of his compound are:

It washes without Rubbing, Bleaches very white, and positively improves the durability of the fabric washed.

RURAL AMERICAN,
The most Elegant, the Cheapest and the Best Agricultural, Horticultural, and General Family Paper in the United States! Gratuities in Choice Grape Vines, Strawberry Plants and Elegant Engravings, to the value of Subscription price sent free to every subscriber!!!

This popular rural paper, published on the 1st and 15th of each month at UTICA, N. Y., at $1 50 a year, is now greatly enlarged and improved, and equal in size and value of contents to any other similar publication in this country. Indeed, no other paper of the kind can be compared with it, in the real value and interest attached to its contents; and it is decidedly ahead of anything of the kind every published.

The RURAL AMERICAN is not a LOCAL paper, but just as valuable in New England, the Western, and other States as in the State of New York. Its circulation is larger than that of any other paper out of the city of New York. Volume X will commence January 1st, 1866.

The form is a very large SIXTEEN PAGE OCTAVO, containing double the reading matter, that can be found in any other similar publication on every subject of interest to farmers, fruit growers, (grape growers in particular) stock raisers, gardeners, bee-keepers, poultry breeders, &c.

This elegant paper is illustrated with some of the most costly ENGRAVINGS that money and art can produce; and its LITERARY department embraces general FAMILY reading, which in interest, has never been equaled in this country. In brief, the RURAL AMERICAN is now admitted, universally, to be the most PRACTICAL and RELIABLE Agricultural and Horticultural publication extant. Every subscriber receives the full value of the paper in choice Grape Vines, Strawberry Plants, or fine Engravings, worth $2 each; and all subscribers for 1866 who remit their money before Dec. 15th receive the volume for 1865

FREE FROM THE TIME THEY SUBSCRIBE to the close of the present year.

The Agricultural editor of the Philadelphia Saturday Evening Post (an entire stranger) in congratulating me on the appearance of my new paper, writes: "My opinion is, that you have issued the best journal—all points considered—for the practical, working farmer, that we have ever had in the United States, or any where else; I like its general make up better than that of any paper I have ever seen. * * * * These are my honest sentiments."

Agents are every where wanted to get up Clubs, who receive magnificent Premiums in Vines, Plants, Engravings, Cash, Gold Pens, Magazines, Weekly Newspapers, &c. Samples of the RURAL AMERICAN sent free to all applicants. Address T. B. MINER, Clinton, Oneida County, New York.

ALL-WHITE RUBBER ROLLER
GENUINE
MONITOR CLOTHES WRINGER
MANUFACTURED BY
JOHN YOUNG, the Original Wringer Man.
Self-Adjusting and Adjustable!
THE BEST WRINGER IN USE.
THE genuine Monitor Clothes Wringer made and invented by John Young, the original inventor of all rubber rollers for Wringers, is better than the "Universal Wringer," because it has no "cog wheels" to make it run hard, to destroy the rollers, or to grind off your finger nails. It is better than the "Amazon Wringer," because the frame is heavier, the rollers longer for the same money, the gearing is all wrought iron, the cog shaft, and more firmly fastened to the shaft the cam roller is better and more durable and the clothes are carried over into a basket without ever falling down into the washtub, or touching the hoops on the tub. It has these advantages over all Wringers. For sale by
D. E. HOWELL & SON, Bridgeport O.

SCALES! SCALES!! SCALES!!!
As agents of the Buffalo Scale Works Company, we keep on hand and furnish to order all kind of Scales, from the large "Railroad Platform Scales" to the smallest "Counter Scales," for sale at manufacturers prices.

FOUTZ'S CELEBRATED Horse and Cattle Powders.
These Powders will strengthen the Stomach and Intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glanders, Yellow Water, Distemper, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.
In poor, low-spirited animals, it has the most beneficial effect.
The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.
FOR MILCH COWS.
The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.
HOGS.
In all Diseases of the Swine, such as Coughs, Ulcers in the Lungs, Liver, &c. By putting from half a paper to a paper of these Powders in a barrel of Swill, the above Diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented.
Price 25 cts. per Paper, or 5 Papers for $1.
