WICHITA MARKETS.

Receipts of Live Stock at the Union Stock Yards for 24 hours, 216 cattle; 754 hogs. The cattle receipts were the largest for months. Eastern markets have been recording declines for several days, but this market has ruled strong at the highest prices. The market was active and strong today, but the close noted a weaker feeling and prices will probably be about a dime lower tomorrow. The hog receipts were fair for Friday. About one-third of the receipts came in late and went over the scales after six o'clock. The market was 2 1-2 cents higher than yesterday and closed strong.

Chicago Grain and Produce.

CHICAGO, Ill., March 7.—Wheat trading was of a most restricted character and the market was again a narrow one, more so than yesterday. Some outside business was transacted but most of the trading was local. The close was about ½c lower than yesterday.

Corn received a little more attention than noted for several days past, the market ruling quite active at times within a lower range of prices. The market closed ½@¾c lower than yesterday.

Oats were quiet and easier with fluctuations confined to ⅛c range. May was again the most actively traded in. At 23c the buyers took hold but refused to follow the advance. The market closed firm at ⅛c decline for May but was steady for other futures.

An unusually small trade was reported in mess pork and there were no particular changes to note—scarcely enough doing to establish a market.

The lard market exhibited a little more strength in a general way but the business transacted was light. Prices ruled about 2½c higher and the market closed steady.

In short ribs sides very little business was transacted. The feeling was rather steady with no material change in the market.

The leading futures ranged as follows.
