YAVAPAI BULLION OUTPUT INCREASING

Mine Tax Roll Show That Taxable Properties Produced $285,726.65 More Than Last Year

Although the average prices of copper and silver during the year 1910 were lower than those of 1909, and the further fact that the bullion output reports of the Mount Elliott Consolidated Mines company, the United Gold Mines company and the Griffin property at Walker have not been received by the County Assessor, the total of the mine tax roll up to yesterday shows an increase of $285,726.65 over that of last year.

The total for this year, which represents the 1910 product, is $6,369,057.75, against $6,083,331.10 for last year.

The output of the United Verde mine, the largest producer in the county, for the year 1910, was $5,624,449.24, as against $5,370,766.10 for the preceding year. In the returns to the assessor the United Verde Copper company gives its copper product at $4,925,005.03; gold, $398,247.14, and silver, $301,197.07.

The output of the other mines follow:

Blue Bell—Consolidated Arizona Smelting company, lessee: Copper, $223,871.01; gold, $26,352.18; silver, $19,011.01; total, $269,234.20.

Cleopatra Copper company: Copper, $13,334.90.

Congress Consolidated Mines company, Ltd.: Copper, $1,274.82; gold, $164,719.23; silver, $9,179.26; lead, $46.77; total, $175,220.08.

Grand Canyon Lime and Cement company: Lime, $85,319.35.

Lelan Gold and Copper company: Gold, $22,530.30; silver, $754.68; total, $23,284.98.

West Brooklyn Silica Quarry: Silica, $10,400.

Puntenney Lime company: Lime, $43,500.

Penn-Arizona Mining company (ore milled from development only; systematic mining has not begun): Gold, $31,515.96; silver, $2,745.71; lead, $2,981.40; total, $36,137.91.

Tiger Gold company: Copper, $1,920.67; gold, $60,310.19; silver, $4,168.93; iron, $908.10; total, $67,307.87.

Yavapai Consolidated Gold, Silver and Copper Mining company: Gold, $241.17; silver, $17,823.67; lead, $109.96; iron, $32.88; total, $18,207.67.

Venezia Gold Mines: Gold, $1,436.79; silver, $9.62; iron, $100; total, $1,546.39.

These returns are based on the following metal prices: Gold, $20.67; silver, 53.486; copper, 12.738; lead, 4.416; iron, 5 cents a unit, or .25 cents a pound; lime, $5 a ton.

Under the Arizona statute all mines with a gross annual output of $3,750 or over are required to pay as a bullion tax 4 per cent on 25 per cent of the gross product. Mines producing less than $3,750, of which there are many in the county, are not required to submit an annual bullion report to the county assesor.

WOODMEN MEET IN TRIENNIAL SESSION

(From Thursday's Daily.)

What is considered as the most successful session of the Arizona jurisdiction of the Modern Woodmen of America closed here last night with a banquet at the Hotel St. Michael. During the day the twenty visiting delegates were entertained by their local neighbors with an automobile ride over the Territorial highway and to other points of interest in the city and vicinity. Every town of any importance in the Territory was represented.

The next session of the State Camp will be held in Mesa.

The following officers were elected and installed for the ensuing year: E. F. Honn of Flagstaff, consul; A. L. Harper of Globe, adviser; F. G. Brown of Prescott, banker; W. C. R. Hoover of Bisbee, clerk; H. Q. Robertson of Mesa, escort; A. E. Loscher of Phoenix, watchman; J. W. Strouse of Phoenix, sentry; A. D. Leyhe of Phoenix, J. W. Arnold of Tempe and H. L. Tolen of Naco, trustees; J. W. Arnold and F. G. Brown, delegates to Head Camp, which meets in Buffalo, N. Y., in June.

Last evening a banquet was given at the Hotel St. Michael in honor of the visiting delegates. Harry Harter was the caterer, and the menu he served was all that could be desired. There were over a hundred who sat at the festal board, which was graced with bouquets of American Beauty roses, while an orchestra composed of Messrs. Landenslager, Engle and Paul discoursed excellent and inspiring music during the evening. N. A. Vyne officiated as toastmaster, and in his introductory remarks paid a eulogy to the sterling qualities of the Woodmen. E. F. Honn of Flagstaff, instructor of mathematics in the Normal school, was the opening speaker, and he wittily voiced his appreciation of the hospitality that had been extended during the day to the delegates.

LeRoy Anderson devoted his remarks to showing the growth of the order, the membership of which in Arizona has increased from 352 in 1909 to 762 in 1911. He dwelt upon the benefits of its insurance feature, showing that a member paid less for protection than in any of the old line companies. Mr. Anderson illustrated his points with several pertinent stories which evoked much laughter.

J. S. Acker was particularly happy in his remarks and took occasion to point out the advantages of Prescott as a place of residence.

The closing speaker was A. D. Leyhe of Phoenix, the State Lecturer, who emphasized the value of the fraternalism of the Modern Woodmen of America and closed with a stirring quotation from John Temple Graves.

Mr. Vyne again expressed, in behalf of Prescott Camp the pleasure experienced in entertaining the delegates, and after a selection by the orchestra, the enjoyable occasion closed by all singing one of the odes of the order.

JEFFRIES SAILS FOR EUROPE.

NEW YORK, May 4.—James J. Jeffries, the former champion heavyweight pugilist, was among the passengers sailing for Europe today on board the steamship George Washington. He is accompanied on his trip aboard by Mrs. Jeffries and several friends. The party will spend the summer in making a pleasure tour of the continent.

TERRITORIAL ROAD TO CAMP VERDE ASSURED

(From Thursday's Daily)

That the construction of the Territorial highway from this city to Camp Verde will be commenced at an early date, was learned yesterday from J. B. Girand, Territorial engineer, who arrived from Phoenix. Mr. Girand is accompanied by J. S. Barlow, his assistant. Governor Sloan arrived on the midnight train, and will go over the proposed routes today with Mr. Girand. They will be accompanied by the members of the Board of Supervisors and a committee of the Chamber of Commerce. In going to the Verde Valley, the Cherry Creek route will be selected, while on the return trip the Copper Canyon road will be inspected. This will give the party an opportunity to make a complete circuit and decide the route. When a final selection is made, which will be announced after the return of the party, Mr. Barlow will begin his duties as locating engineer.

Mr. Girand stated yesterday that he will make a strenuous effort to have the road available during the present year, and with the advantage of having a considerable part of the route already built, believes that the work can be accomplished in that time. The same energy in good road building will be maintained on this project as at other points in Arizona.

Coincident with the beginning of work from this city to the Verde Valley, operations will be started on June 1 between Flagstaff and Camp Verde. Repair work on the established road will be started with the exception that the steep hill leading out of Beaver Creek to the Mogollon Mountain plateau will be reduced to a lesser percentage. Bids for this work are to be opened on May 20th.

Speaking of the probability of Prescott and Phoenix being connected during the present year, Mr. Girand says that the Supervisors of Maricopa and Yavapai county will meet on the invitation of the Territorial Good Roads Association, and with the assistance of the Territory, an effort will be made to have the great project under way before snow flies. He estimate sthat a fairly good road can be built this year between the two cities, and is enthusiastic in endorsing the movement.

In Southern Arizona enthusiasm is shown everywhere over the Territorial road movement, and the public is beginning to appreciate what better traveling conditions mean in attracting tourists and establishing better commercial relations. With a through north and south Arizona road, such as is projected, Prescott will be the Mecca of many during the warmer months, in the southland.
