Health Officer's Card.

In order to allay the uneasiness among our people regarding smallpox or varioloid I will briefly suggest the following as proper to observe:

Vaccinate yourself and entire family; avoid intercourse with places or people where the disease has been—either in city or outside; use ordinary sanitary measures as regards cleanliness and proper food; avoid worry, and do not think every individual you meet or see has the contagious disease.

The city health officer will vaccinate any of our people—without exception—who call at his office at the Corner Drug Store Wednesday morning.

No one can will wear fitting coat of arms, as every man has to pay for it. Call and be vaccinated.

SAMUEL HILL.

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduces music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. This it constantly invites new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Maidwell. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.
