OFFICE, BULLETIN BUILDING, COR. 12TH STREET AND WASHINGTON AVENUE

JOHN H. OBERLY, PROPRIETOR. CAIRO, ILLINOIS, FRIDAY, MAY 2, 1873. OFFICIAL PAPER OF CITY AND COUNTY.

PERSONAL AND IMPERSONAL.

Mrs. Gov. Beveridge has gone to Europe.

—James H. Raymond has resigned the position of secretary of the board of railroad commissioners.

—Gov. Beveridge has appointed Miss Mary E. Flanders of McHenry county, Illinois, "commissioner" to the Exposition at Vienna. Miss Flanders is in Germany.

—Among other railroads, the Albany and Susquehanna is about to introduce the plan of heating by steam form the locomotive.

—Schuyler Colfax says he is not a candidate for congress. Just so he said before the last Republican National convention that he was not a candidate for vice president.

—A grand promenade concert under the auspices of the Marquis E. DeNosilles, Mrs. Gen. Sherman, Mrs. Senator Cassedy, and the other ladies, both Catholic and Protestant, for the benefit of the Home of the Aged, is arranged for the evening of the 6th prox., in Washington City.

"If the delegates believe I ought to resign for voting for the appropriation bill to which the salary clause was attached; will they follow out the logic and insist that the president ought to resign for signing it? My vote did not make it a law. His signature did."—[Garfield (Radical) to his constituents.

—The last exhibition of greed on the part of the Atlantic cable directors, in attempting to double the rates for messages because of the increased business growing out of the Vienna Exposition, calls to mind the suggestion made in England when the word "cablegram" was under discussion as a proper designation for a cable message. It was proposed that "cablegrab" would be a more appropriate expression.

—The Boston Times relates the following incident of the lost Atlantic: "When about mid-ocean a curious incident occurred, which if true, as related to our reporter, is very unaccountable. The steerage passengers say that about that point on the voyage two or three of the passengers declared, as if gifted with prophecy, that the ship and all on board would be lost. They kept repeating their prediction, packed their carpet-bags and went on deck to watch for chance passing vessels, saying that they were going to leave her, as they were sure they were doomed to destruction. The captain then intervened and locked them up as madmen, and when the prediction they had made in their supposed insanity received its fearful fulfillment, they, it is said, perished in confinement."

—Ex-Congressman James B. McCormick of Missouri, has taken a hint from Congressman George F. Hoar of Massachusetts, and given $5,000 of other people's money to a college—Arcadia college, Iron county, Mo. Recollecting an old saw which affirms that ill-gotten wealth never prospers, we could not congratulate Arcadia college upon this windfall even if it had the $5,000 stowed away in its exchequer. This does not happen to be the case, however. Things are not what they seem, all is not greenback that rustles; though our Missouri salary-grabber was on benefaction bent, he had a frugal mind "The joke of the whole thing is," says the Missouri 'Democrat,' "that by 'donating' $5,000 to the college, the worthy ex-congressman collected a debt which the institution owed him which it is probable he could not have obtained in any other way."—[Springfield Republican.

SPONGES.

The fine, soft Syrian sponge, is distinguished by its lightness, its fine, flaxen color, its form, which is that of a cup, its surface convex, voluted, pierced with innumerable small orifices, the convex part of which presents canals of much greater diameter, which are prolonged to the exterior surface in such a manner that the summit is nearly always pierced throughout in many places. This sponge is sometimes blanched by the aid of caustic alkalies; but this preparation not only helps to destroy its texture, but also changes its color. This sponge is specially employed for the toilet, and its price is high. Specimens which are round-shaped, large and soft, sometimes produce very high prices. The fine sponge of the Grecian Archipelago is scarcely distinguishable from that of Syria either before or after being cleansed; nevertheless, it is weightier, its texture is not so fine, and the holes with which it is pierced are at once larger and less in number. It is nearly of the same country as the former—in fact, the fishing for it extends along the Syrian coast, as well as the littoral zone of the Archipelago and Barbary. The fine, hard sponge, called Greek, is less sought for than either of the preceding; it is, however, most useful for domestic and certain industrial purposes. Its mass is irregular; it is of a yellowish color; it is hard and compact, and pierced with small holes. The white sponge of Syria, called Venetian, is esteemed for its lightness, its regularity of form, and its solidity. In its rough state it is brown, and of a fine texture, compact, and firm. When cleansed it becomes flaxen-cloored and of a looser texture. The orifice of the great channels, which traverse it, are rough and bristly. The brown Barbary spounge when first taken out of the water presents itself as an elongated, flattened body, gelatinous, and charged with blackish mud. It is then hard, heavy, coarse, and of a reddish color. When well washed in water it becomes round in shape, still remaining heavy and reddish. It presents many gaps, the intervals of which are occupied by a sinuous and tenacious net-work. It is valuable for domestic use, because of the facility with which it absorbs water and its great strength. Other sorts of sponges are very abundant. The blonde sponge of the Archipelago, often confounded with the Venetian; the hard Barbary sponge, called gerlina, which only comes by accident into France; the Salonica sponge is of middling quality; finally, the Bahama sponge, from the Antilles, is wanting in flexibility, and is a little harsh, and so is sold at a low price, having a few useful properties to recommend it.—[The Ocean World.

THE DEMOCRATIC STATE CONVENTION IN KENTUCKY.

ENTHUSIASTIC RECEPTION TO THE PRESIDENT AT GALENA.

FOUR THOUSAND PERSONS JOIN IN THE CEREMONIES.

SUPREME COURT PROCEEDINGS.

ETC., ETC., ETC.

[Special dispatch to THE BULLETIN.]

WELCOME TO THE PRESIDENT.

GALENA, May 1.—All the public buildings and many private residences, including the president's old home on the hill, are brilliantly illuminated, and all the bells in the city are ringing for the welcome to President Grant to his old home. Owing to the heavy storm prevailing the formal reception was postponed, and he was met at the depot on the arrival of a special train from the south, by a committee of the common council and citizens, accompanied by Mayor Haser, and escorted to the residence of L. S. Felt, whose guest he will be during his visit. Notwithstanding the heavy rain which poured down, nearly 4,000 people greeted his arrival with prolonged cheers and unbounded enthusiasm.

KENTUCKY STATE CONVENTION.

FRANKFORT, May 1.—The Democratic state convention to nominate a candidate for state treasurer was held in this city today, and was the smallest state convention ever held here, there being only delegates from 31 counties in attendance, and quite a number of these were proxies. James W. Tate, present incumbent, was re-nominated unanimously.

SUPREME COURT MATTERS.

WASHINGTON, May 1.—An argument was heard to-day before the secretary of the interior in behalf of the St. Paul and Pacific and Northern Pacific Railroad, the point in controversy being as to which company is entitled to a large tract of land at the crossing of the two roads.

The supreme court to-day postponed till October the application of the counsel of ex-Governor Warmoth, for allowance of an appeal from the decision of Judge Durell, and gave leave to Phillips, by Warmoth, to file record and papers in the case. Court adjourned sine die. The next meeting of the court is fixed by law for the second Monday in October.

INTERNATIONAL MAIL SERVICE.

LONDON, May 1.—A dispatch from Sydney states that the postmaster general of New South Wales has been authorized to proceed to Washington and make arrangements for a permanent mail service between California and Austria.

INAUGURATION OF THE EXPOSITION AT VIENNA.

THE AMERICAN DEPARTMENT STILL IN CONFUSION.

THE BILL TO CONTROL THE CLERGY PASSED BY THE PRUSSIAN DIET.

THE CARLISTS STILL BURNING RAILROAD.

ETC., ETC., ETC.

THE WORLD'S EXHIBITION.

VIENNA, May 1.—The World's Exhibition was inaugurated this afternoon by the emperor, with imposing ceremonies, in presence of a vast assemblage from all parts of the earth.

The proceedings began with an address from the Arch Duke Charles, congratulating his majesty on the auspicious event and thanking him to pronounce the Exposition open. The Emperor replied briefly by expressing his satisfaction at the completion of the preparations for the great work, and then formally declared the Universal Exhibition of 1873 opened. The American department remains in confusion, but Minister Jay is endeavoring to repair the effects of previous mismanagement.

THE INSURRECTION.

MADRID, May 1.—The Carlists continue to burn railroad stations, tear up tracks and cut down telegraph wires. Their military operations are much restricted by the activity of the troops, and the government is sanguine the insurrection will soon be suppressed. A telegram from Cencure, near Barcelona, announces that the government troops had come up with, and defeated Don Alfronzos' band of Carlists in that vicinity.

PASSED.

BERLIN, May 1.—The upper house of the Prussian diet to-day finally passed the bill for the regulation and control of the clergy by a large majority.

THE ATLANTIC WRECK.

HALIFAX, May 1.—The steamer Lackawana arrived to-day from the scene of the wreck of the Atlantic. The wreck has been almost blown to pieces with gun powder, and large quantities of goods recovered. Fourteen bodies were brought up Tuesday and twenty-seven yesterday, mostly women, were mutilated, and immediately buried. The number of bodies thus far recovered is 349.

INDIAN AFFAIRS.

THE RUMOR OF THE SIOUX MASSACRE NOT CONFIRMED.

NO LATER NEWS FROM THE MODOCS.

ETC., ETC., ETC.

NOTHING NEW FROM THE MODOCS.

WASHINGTON, May 1.—The military authorities are without additional advices from the Modocs. They will leave the conduct of operations against the Modocs to the judgment of the department commander, who has power to employ additional troops if deemed necessary.

GEN. SHERMAN

Denies he favors the taking of scalps, if for no other reason than that he can see no advantage in scalping dead Indians.

THE LATE MASSACRE DISCREDITED.

NEW YORK, May 1.—The Indian commissioners here discredit the Toronto story of the massacre of Americans in the Black Feet country. They had a dispatch yesterday from the military station nearest the Black Feet country, but no mention was made of disturbances.

MISCELLANEOUS.

THE EXPOSITION.

NEW YORK, May 1.—A Vienna special states that the prince of Wales and a distinguished company yesterday visited the Exposition building. Several thousand drays laden with articles for the Exposition are now between the frontiers and Vienna, and only two hundred can be unloaded a day. It will be the end of June before the show is in full blast.

THE LUCKY NUMBER.

MILWAUKEE, May 1.—Number 20,901 drew the capital prize of $10,000 in the German Market association grand gift enterprise.

TENNESSEE EXPOSITION.

NASHVILLE, May 1.—The third annual industrial exposition of Tennessee opened to-day under bright auspices, with a splendid display from various states. The welcoming address was by Gen. W. B. Bates.

CASUALTIES.

MAIL CAR BURNED.

DENISON, TEXAS, May 1.—150 mail which left St. Louis on the Missouri, Kansas and Texas Railroad Tuesday night last, and all that was received up to 3 o'clock this morning, was burned near McAllister, in the Indian nation, at that hour. The car got on fire, but it is not known how, and the mail agent barely had time to escape. It was a large mail from all points east. The baggage of the passenger, 44 pieces, also burned. The mail for all points in Texas, from all the States but the extreme Southern ones, comes on this route. There were 22 sacks of papers for the Texas Central railroad, besides the letter pouches and the paper and letter mail for this place. The express matter was in another car and was not burned.

WEATHER REPORT.

WASHINGTON, May 1.—Probabilities—For Northwest and Upper Lakes and thence to Lower Missouri and Lower Ohio valleys northeast and southeast winds, rain and threatening weather, partly clearing weather with low temperature. For Tennessee and Gulf and South Atlantic states occasional rains, southeast and southwest winds, partly cloudy and clearing weather. For Lower Lakes and Middle states falling barometer, southeast and southwest winds, threatening weather and rain. For Canada and New England increasing cloudiness, followed by rain. Cautionary signals at Chicago, Duluth, Grand Haven, Milwaukee, Detroit and Cleveland, and are ordered for Buffalo, Rochester and Oswego.

STATE CAPITAL.

DODGING ACTION ON THE SALARY GRAB QUESTION.

WHY JOHN A. LOGAN VISITED SPRINGFIELD.

RAILROAD LEGISLATION.

[Special dispatch to the Republican.]

SPRINGFIELD, Ills., April 30.—The legislative proceedings of to-day are of unusual interest, and largely partake of a character betokening an early adjournment, a consummation devoutly to be wished. Both houses had to-day a larger attendance than they have been favored with of late.

SENATE.

The first business in order in the senate to-day was the motion made last evening to suspend the rules to consider the house resolution and senate amendments thereto.

CENSURING THE PRESIDENT AND CONGRESS.

The latter, as far as our senators and representatives in congress are concerned, for participation in the salary steal. It will be remembered that action upon the resolution in the senate was delayed by reason of a motion to adjourn being carried by a strict party vote. This morning when the motion came up the

ADMINISTRATION PARTY WHIP

Was again cracked, and all the Radical senators save two—Messrs. McGrath and Whiting—voted against suspending the rules, thus again by a parliamentary dodge refusing to consider the resolution. It is their purpose to defeat every movement looking toward a direct vote upon this resolution, as party discipline precludes their censuring their own party by voting for the resolution. Yet they dare not vote against resolutions of censure and return to their constituents, a large portion of whom have, in the various farmers' club meetings, denounced the salary grab as a direct theft from the people, with such a record and retain any prospect of future political advancement. It is now said that the resolution was only allowed to pass the house with the understanding that it should be defeated in the senate. The Democrats appear to have no hesitation in condemning those of their own party voting for the grab, as the vote upon the motion in question shows entire unanimity in favor of adoption of the resolutions in question. The following is the test vote upon suspending the rules, Democratic and Liberal Republicans in italics:

Ayes—Messrs. *Archer, Burke, Casey, Cummings, Hinchcliffe, Hundley, Kehoe, Lee,* McGrath, *Starne, Voris, Ware, Warren,* Whiting, *Youngblood.*

Noes—Messrs. Baldwin, Canfield, Castle, Cunningham, Cusey, Donahue, Dow, Ferrel, Hampton, Jacobs, Nicholson, Palmer, Patterson, Reynolds, Sanford, Sheldon, Shepard, Steele, Strong, Thompson, Upton, Waite, Wilcox, Williamson, Yager. Ayes 15, noes 25.

Absent and not voting—*Brooks, Brown,* Burns, Crews, *Glenn,* Green, *Gundlach,* Henry, *Murphy,* Short.

It will be noticed that the Democrats lose, by absence, five votes, while the Republicans lose but four. Several of the absentees are on sick leave, however. Of the Republicans absent, Senator Crews, at least, and probably Senator Green, would have united with the Democrats, and the two Republicans voting with the opposition and the Democratic absentees would have voted solid for suspending the rules. The resolution will be again called up for a direct vote, if possible, and the Republicans placed even more *fully* on record, though, to all intents and purposes, that taken is a test vote.

WHY IT MUST BE BEATEN.

It is strongly hinted that the recent visit here of Senator John A. Logan, and his excessive lobbying was for the express purpose of defeating these resolutions of censure, in the interest of the administration. It is said that he denounced Mr. Speaker Cullom for voting for the resolution in the house, and arranged with Senators Cunningham and Palmer to defeat it in the senate. It is somewhat singular, that while the recent farmers conventions adopted similar resolutions of censure, but one Republican senatorial representative of the agriculturists, Senator Whiting, voted to suspend the rules.

THE DEAD LOCK

Appears a little nearer a satisfactory compromise should the report of the committee be adopted. The committee, in substance recommend that the Springfield papers be substituted for those of Chicago as a medium for advertising the schedule of rates, and report satisfactory upon other points. The compromise should be accepted by both houses. In full the report on hand is as follows:

THE COMMITTEE ON CONFERENCE

Submitted their report as follows:

The committee of conference on the disagreeing votes of the two houses on house bill 564, "An act to prevent extortion and unjust discrimination in the rates charged for transportation on railroads," etc., have agreed to recommend, and do recommend to the respective houses as follows, to-wit: That the senate do recede from their amendment striking out section 8, and to amend the same as follows, "strike out the word any in the 11th line and insert the word 'such.'" Amend line 12 by striking out the word "Chicago," and inserting the word "Springfield." Amend by inserting after the word "state" in the 14th line as follows: provided that the schedules thus prepared shall not be taken as prima facia evidence as herein provided, and published as aforesaid, for all the railroad companies now organized under the laws of the state and until the 15th day of January, A. D. 1874, or until ten days after the next session of the general assembly shall be held previous to the 15th day of January aforesaid; and we further recommend that the house of representatives agree to the amendments [illegible] cede from their refusal to concur with the senate in striking out section nine, and concur in said amendment signed by the committees of both houses.

NEVER KNOWN TO FAI

THOMPSON'S

FEVER & AGUE POWDERS

FOR THE PERMANENT CURE OF

CHILLS AND FEVER, DUMB AGUE OR ANY FORM OF INTERMITTENT FEVER.

THE GREATEST DISCOVERY OF THE AGE!

There are no diseases so debilitating in their effects upon the constitution as those above, and none more difficult to cure by the usual mode of practice. The Fever and Ague Powders will effect a cure in cases of the longest standing as well as prove a preventive in the forming stages of the disease. Being purely vegetable, they act with certainty on the disease, totally eradicating it from the system, and prevent a return at any future period.

Why waste your money and health in trying every medicine you hear of, when Thompson's Fever and Ague Powders have never failed to cure the Chills in any case.

REASONS WHY THEY ONLY SHOULD BE USED.

Their reputation is established. Thousands of testimonials have been received, showing that these powders have performed miracles in curing cases of long standing, many of them considered hopeless.

There is no risk in taking them. They contain nothing injurious, and, therefore, none of the lingering diseases so often the result of the many nostrums of the day. Physicians recommend them as superior to quinine or any other known remedy, for they leave the system in a healthy state, and the patient beyond the probability of a relapse.

BEWARE OF COUNTERFEITS.—The genuine are put up in square tin boxes, with THOMPSON'S FEVER AND AGUE POWDERS stamped on the lid, and the signature of THOMPSON & CRAWFORD on the wrapper. No others can possibly be genuine.

THOMPSON'S

RHEUMATIC

AND

HORSE LINIMENT

THE GREAT EXTERNAL REMEDY FOR

RHEUMATISM, NEURALGIA, SPRAINS, ETC.,

GOOD FOR MAN OR BEAST

This liniment has earned for itself a reputation unequalled in the history of external applications. ☞ Thousands who now suffer from rheumatism, neuralgia, etc., would find immediate relief from all pain by using this certain remedy. It is equally effectual in cuts, burns, scalds, stiffness of the neck, sore throat, swellings, inflamations, frost bites, pains in the side, or back, bites of spiders or stings of insects.

One rubbing will in all cases give immediate relief, and a few applications complete cure.

On account of its powerful penetrating properties it is beyond doubt the surest remedy for the most troublesome diseases to which horses and cattle are liable. It cures scratches, old and fresh cuts or sores, chafes produced by the collar or saddles, injuries caused by nails or splints entering the flesh or hoofs, bruises, sprains, sweeney, spavin thrush, and all diseases which destroy the hoofs or bones of the feet.

☞ Full directions accompany each bottle. The above are prepared only by

An illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the orld. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores.

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last fall, when the Aldine assumed its present noble proportions and representative character, the edition will more than double the past year; proving that the American public appreciate a sincere effort in the cause of Art. The publishers anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the month ly issues, will astonish and delight even the most sanguine friends of the Aldine.

The Aldine will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar, through photograph, or copies of any kind.

The quarterly tinted plates for 1873, will reproduce four of John S. Davis' inimitable child-sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

PREMIUM CHROMOS FOR 1873.

Every subscriber to the Aldine, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures, entitled "The Village Belle," and "Crossing the Moor," are 14x20 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for $30 per pair, in the art stores. As it is the determination of its conductors to keep the Aldine out of the reach of competition in every department, the chromos will be found ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art and, considering the unprecedented cheapness of the price for The Aldine itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of the Aldine.)

THE LITERARY DEPARTMENT will continue under the care of Mr. Richard Henry Stoddard, assisted by the best writers and poets of the day, who will strive to have the literature of the Aldine always in keeping with its artistic attractions.
