MARRIED.

At Harlewood, Alexander county, Illinois, by G. W. Short, Esq., Mr. Charles A. Marrill to Miss Maggie Pair. Mr. Merrill has been in the employ of Morris, Rood & Co., at Ullin, for several years, and is known to everybody in that country as "one of the best fellows" in the community. Miss Pair is an excellent lady.

W. P. HALLIDAY.

[From the Duquoin Tribune.]

St. Louis, Chicago and even the village of New York may boast of their Goliaths, but with all their capacity, tact and wealth, we venture the assertion that none of the above named hamlets can trot out a man of greater breadth of business brain, enterprise and genuine American push, than Wm. P. Halliday, whose domicil lies is at the junction of the two mighty rivers that form the great Mississippi valley, known as the "Egyptian Star City, commonly called Cairo.

Heretofore Mr. Halliday's principal interests were centered in his immense commission and banking houses at the latter named place, but if we are not greatly mistaken his principal interests in the future will center in Perry county.

His immense coal interests, just north of the corporate limits of DuQuoin, are assuming proportions that will not only attract the attention of the people througout this state, but that of the world.

The coal works at these mines have been the largest in Southern Illinois for many years, but Mr. Halliday is now building a narrow-gauge railroad running east of the old mines about one mile where a tunnel is to be constructed for the purpose of opening a new coal shaft, into the superior coal vein recently discovered by him, and where he has purchased an extensive tract of land for mining purposes.

Some surmise that Mr. Halliday designs to establish smelting furnaces, coke ovens, rolling mills, &c., at this point. This, however, is mere conjecture, but whatever his ultimate purposes may be, one thing is certain Mr. Halliday will know them before the public does. That he is preparing to carry on the coal mining business on a metropolitan basis is undeniable, and that this section of the country will share in the benefits, is equally true.

In addition to this, his mammoth salt works are being pushed with great vigor, and he expects to have them in full blast before the 1st day of January, 1874. One such as Halliday is worth more than a nation of croakers, or speculating theorizers. Such men build cities, feed the hungry, and clothe the naked.

LEVEE IMPROVEMENT.

MEETING OF THE BOARD OF TRADE YESTERDAY.

MEASURES TAKEN TO "RAISE THE WIND" WHEREWITH TO DO THE WORK.

THIRTY-ONE HUNDRED DOLLARS SUBSCRIBED.

According to previous notice the Board of Trade assembled at their chamber yesterday morning, to take into consideration the proposition to raise and loan to the city a sum of money sufficient to defray the expense of graveling and leveling Levee street, from Fouth to Fourteenth streets. The members of the board were nearly all present and took an active part in the proceedings. Several members of the city council were also present at the meeting. Mayor Wood explained to the board the reasons why it was impossible for the city authorities to provide at this time the means to defray the expense of making the improvements referred to.

He stated that the city could not at this time provide a sufficient amount of money to grade and gravel Levee street, but that if the merchants—who would be most benefitted by the improvement of the levee—would loan to the city a sufficient sum to pay for doing the work, the money would be returned to them as soon as the work was done, and the special assessments for levee improvements could be collected. Other gentlemen made remarks on the subject, and all of them were in favor of the improvement and willing to lend a helping hand to the project. A committee consisting of Wm. H. Thomas, Herman Meyer and Wood Rittenhouse was appointed to draw up a paper and solicit loans for the purpose stated. The committee at once entered upon the work for which they were appointed, and up to four o'clock in the afternoon, the following firms and individuals had subscribed the amounts set opposite their names:

W. H. Thomas	$250 00
J. M. Phillips	250 00
Wood Rittenhouse & Bro	250 00
Peter Cuhl	250 00
E. C. Pace & Co	250 00
Miller & Parker	250 00
Coffy, Harrison & Co	250 00
Thistlewood & Co	250 00
Green & Wood	250 00
J. M. Alden	250 00
Halliday Brothers	250 00
Taylor & Parsons, trustees Cairo city property	250 00
A. B. Safford	100 00
Total subscription	$3,100 00

It is estimated that it will require between five and seven thousand dollars to do the work as contemplated by the ordinance adopted with reference to the improvement. The committee will, we understand, at once negotiate with the Cairo & Vincennes railroad company to haul the gravel to be used in improving the street.

MAGUIRE'S BENNE PLANT.

This extraordinary medicine, the fame of which is spread brilliant throughout the country, is undoubtedly superior to any remedy ever offered to the public, for the complaints for which it is intended. We have in our possession testimonials received voluntarily by Col. Long, late Chief Topographical Engineer Bureau at Washington; Gen. Pitz Henry Warren, div. Pleasanton and others of the army; Father P. J. Dehmet, the celebrated Indian missionary; also officers of the navy, surgeons, hospital stewards, commanders of nearly every steamer plying on the Mississippi and tributary rivers; Western Sanitary and Christian Commissions, army chaplains and others too numerous to mention.
