If our authorities are in search of a nuisance they can find one not a hundred miles from the City Hall.

SENATOR BECK wants to make a clean sweep of political disabilities. Does he mean Jeff Davis as United States Senator from Mississippi to succeed Bruce?

INDICATIONS: For Tennessee and the Ohio Valley warmer, clear weather, followed by increasing cloudiness and possibly by rain, westerly winds, backing to southerly, and falling barometer.

A NEW phase has been put on the Negro question in the South. Thousands of them are leaving the plantations and going West. The planters have discovered an unusual fondness for them now when they are departing. "Twas ever thus."

TOWN lots are actually cheaper wagons are extremely dear in Fort Collins, Colorado. In a paper published in that place we note an advertisement saying that two of the former will be exchanged for one of the latter.

THE CHRONICLE rooster is fattening up and rejuvenating his appearance generally. We propose to place him on his old perch at the head of our columns when the glorious news shall have reached us that the Legislature has adjourned without day.

THE Dallas *Commercial* (Dem) says:

"The St. Louis *Globe Democrat* says the extra session has been a God-send to the Republican party, and we fear it is right."

If they talk that way what will they say on the 4th of March, 1881, when it ends? The rub of the business is the Democrats find themselves very much in the same predicament that the man did who seized a fierce dog by the ears. He could not let go; and if he held on his dinner would get cold. They thought the Republicans in the last Senate would yield and the Election Law would be repealed. Now they have got the Senate, but Mr. Hayes has mustered up a remarkable quantity of back-bone for which they were totally unprepared and won't give way worth a cent. They must back water or get ready to stay in Washington in continuous session for two years. Washington summers are noted, and the "Brigadiers" will be able to tell all about them. "Let it come."

Personal.

Mr. H. E. Colton left last night on a trip to Southwest Virginia, to make some explorations of minerals, etc., for some parties in New York.

Rheumatism.

This dreadful tormentor, the doctors tell us, is in the blood, and, knowing this to be true, we advise every sufferer to try a bottle of Durang's Rheumatic Remedy. It is taken internally and will *positively cure the worst* case, in the shortest time. Sold by every druggist in Knoxville.

XLVI CONGRESS.

SENATE.

WASHINGTON, March 19.

Mr. Hill, of Georgia, presented the credentials of his colleague, Mr. Gordon. He said the latter was detained from the Senate by sickness.

Numerous bills were introduced: one by Mr. Eaton to revive the Court of Commissioners of Alabama Claims; by Mr. Burnside to reorganize the Army of the United States; by Mr. Beck, to remove all the political disabilities imposed by the 14th article of the Constitution, also, a bill to repeal the act of July, 1862, requiring the test oath.

Mr. Edmunds offered a preamble and resolution with a view to confining the business of the extra session to objects for which it was called. The resolution lies over.

Mr. Wallace submitted a list of the standing committees, which were, under suspension of the rules, agreed to.

The Senate at a quarter to one took an hour's recess, until the message could be received from the President.

HOUSE.

The House has under consideration and discussion the disputed election case from the 2nd Congressional district of Florida.

WASHINGTON.

WASHINGTON, March 19.—The following is the President's message:

Fellow-citizens of the Senate and House of Representatives: The failure of the last Congress to make the requisite appropriations for Legislative and Judicial purposes, for the expenses of the several Executive Departments of the Government, and for the support of the Army, has made it necessary to call a special session of the Forty-sixth Congress. The estimates of the appropriations needed which were sent to Congress by the Secretary of the Treasury at the opening of the last session, are renewed, and are herewith transmitted to both the Senate and the House of Representatives. Regretting the existence of the emergency which requires a special session of Congress at a time when it is the general judgment of the country that the public welfare will be best promoted by permanency in our legislation and by peace and rest, I commend these few necessary measures to your considerate attention.

[Signed] R. B. HAYES.

Accompanying the message are estimates from the Secretary of the money needed for the army, and Legislative, Executive and Judicial branches of the Government. The estimates are the same as those submitted at the opening of the session, with the exception of the items provided for at that session. Under the army the last Congress made provision for the Military Academy at West Point, and for fortifications and armament. This leaves, according to the estimates, $28,340,500 yet to be appropriated for the support and maintenance of that branch. None of the Legislative, Executive and Judicial appropriations were provided for, even in part. The estimate for these expenses is $10,520,601.91. To these appropriations are also to be added the item for court expenses, which is generally placed in the Sundry Civil bill, but which was left out of that bill at the last session. The estimates for these expenses are $3,000,000.

The Republican caucus this morning, after a general interchange of views, agreed unanimously that the legislation of the present session ought to be confined to the passage of two appropriation bills, free from all political legislation, and Mr. Edmunds was authorized to offer in the Senate a resolution to that effect.

The following is a resolution in the Senate by Mr. Edmunds to-day in accordance with the unanimous agreement of the Republican caucus. Its present consideration was objected to by Mr. Saulsbury and therefore went over until to-morrow.

"WHEREAS, As the necessity for the present special session of Congress has been occasioned by the failure of the last Congress to make appropriations for the support of the army and for Legislative, Executive and Judicial expenses of the Government for the next fiscal year; and,

"WHEREAS, This will be best promoted by confining the legislation at this session to making provisions for the objects aforesaid, and by early adjournment; therefore, be it

"*Resolved*, That all bills and joint-resolutions, excepting those for the aforesaid purpose, shall be referred to the appropriate committees and not reported until the next December session."

At a caucus of Republican Senators this morning, the *personnel* of the minority representation on the Senate Committees was arranged and the list returned to the Chairman of the Democratic caucus, by whom it will be offered to the Senate for adoption this afternoon. Three chairmanships of the standing committees are accorded to the Republicans, (viz. Revolutionary Claims, Private Land Claims and Engrossed bills) were assigned by the caucus to Senators Anthony, Edmunds and Conkling respectively.

The following is a list of the committees of the Senate of the Forty sixth Congress, appointed to-day:

Wm. Fitzgerald was appointed overseer of a road in the 12th district.

R. S. Pyland was appointed overseer of a road from Wright's Ferry to McWe's ferry.

Commissioners were appointed to set aside a year's support out of the estate for Mrs. Mary E. Noonan.

In the matter of G. H. Estes, administrator, vs. B. R. Strong and others, there was an order in regard to the money, and the case was continued till the 27th inst.

Seizure of Illicit Stills.

Information was received at Gen. Cooper's office yesterday that Deputy Marion Cooper had captured a still and worm belonging to Charley Duncan, in Anderson county, and shipped it to the city. The seizure was made Tuesday night. Mr. Cooper pounced upon the operator about 11 o'clock, while he was in full blast, arrested him and captured his still. His place of operation was near Cane Creek, just across the river and in sight of the K. & O. R. R. Duncan had a saw mill there and the still was located in a dry-kiln which was used for drying lumber. Rather an ingenious and bold contrivance. From the indications it had been in operation but a short time.

Notification was also made to headquarters by Deputy David Proffit that he had seized a still and barrel of whisky last Sunday night belonging to Andrew Gentry, of Cocke county.

The attention of all our lady readers is especially called to the millinery opening, this day and to-morrow, at the popular millinery store of Mr. and Mrs. A. D. Dunbar, noted elsewhere. They will find on exhibition there one of the largest and most elegant displays of goods in that line ever brought to Knoxville, selected with special care to meet the demands of the spring and summer trade, and a peep at their stock cannot fail of being beneficial to all who have purchases to make.

Campbell County Notes.

JACKSBORO, March 18, 1879.

MR. EDITOR: Circuit Court is in session here this week, Judge Young presiding. Time, so far, has mostly been spent in trying misdemeanor cases, of which there is a considerable number on the docket.

The farmers have been quite busy during the fine weather this month, preparing their ground for the coming crop.

F. P. McNew, Esq., Chairman of the County Court, is having some improvements made about the temple of justice, at the county site, which, when completed, will add very much to the appearance of things at that place.

The Clinton Association of Baptists will hold a Sunday school convention at Macedonia Church, April 3d and 4th.

There is not by the Sunday-school at the Baptist Church at this place on the 4th Sunday, was a grand success, the school performing their respective parts well, and the music, while Mrs. Lloyd at the organ, was indeed very fine.

The school at Franklin Academy is doing well under the charge of Prof. J. E. Johnson. Prof. G. W. Smith, who has been in charge of the music department, left this morning on a tour through Kentucky, intending to visit the Mammoth Cave. He will probably return in time to take charge of the music department at the next term.

CAMPBELL.

FROM ANOTHER CORRESPONDENT.

JACKSBORO', March 18, 1879

MR. EDITOR: Circuit Court is in session at this place this week, Judge D. K. Young holding court. There are a great many cases on the docket for trial, and the business is being pushed. One case that will be of some interest to the merchants of Knoxville, who have drummers in the different counties of this State, is the case against your townsman, I. L. Ford, who was presented for selling goods in this county without paying a license, but after a trial the jury said he was not guilty, and they left him a free man again.

There are two or three rape cases in this county, and some other cases of some interest. There is one that is creating some feeling, that is a slander suit between Mr. Johnson and Dr. Overton. Most all the lawyers that attend this court are on one side or the other in this case. There is a murder case on the docket against Pleasant Johnson, charged with whipping a child that was going to school to him, so that the child died from the effects of the whipping. The case will be called this week for trial.

There is quite a change in the weather in the last few days, and now the cold north winds are playing across the mountain in such a way as to make one feel like being by the fire. There are some improvements going on in this town, the most important one is the building of a rock wall in front of the court house, from the street to the level of the front porch, and steps on each side, a thing long needed. Farmers in the county are most engaged in putting in their oat crop.

A Busy Man

In reply to a friendly warning concerning his health said, "I have no time to rest, or money to doctor." What would you think if a mechanic should say he was *too busy* to keep his tools in order, or replace them when lost. The early symptoms of disease promptly yield to the proper remedy. Neglect confirms and makes disease incurable. Consumption in its early stages is readily cured by the use of Dr. Pierce's Golden Medical Discovery, though if the lungs be half wasted away, no medicine will effect a cure. Yet no known remedy possesses such healing and healing influence over all scrofulous tuberculous, and pulmonary affections, as the Discovery. John Wilms, of Elyria, Ohio, writes under date of December 14th, 1877: "The Golden Medical Discovery does positively cure consumption, as after trying every other medicine in vain, this succeeded." Mr. Z. T. Phelps, of Cuthbert, Ga., writes: "The Golden Medical Discovery has cured my wife of bronchitis and incipient consumption." Hundreds of names of cured are published in Pierce's Memorandum Book, which is given away by druggists.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility, and all nervous complaints, after having tested its wonderful curative power in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering I will send free of charge to all who desire it this recipe with full directions for preparing and using, in German, French and English. Sent by mail by addressing with stamp, naming this paper, W. Wisher, 149 Powers Block, Rochester, New York.
