THE WATER WORKS.

Still Another Side.

MR. EDITOR: In your issues of the 22nd and 24th inst. appear two communications on the subject of water works. As neither article is signed we will designate them as Nos. "One" and "Two." In order to present still another view of the question, and yet to be short, shall only say of article No. "One" that it assumes that we can only secure water works by accepting one of the two propositions made, and just in the shape as proposed, while in the article but little is said, except as to the financial condition of the city for building and owning the water works. It can certainly be regretted that this "cool, clear-headed business man who looks at the matter in a business way" should not have went beyond the mere objecting to any one or more plans suggested or proposition made, and himself made some suggestions as the means by which the "comfort and convenience" of water works shall be secured, and then to have put to the credit of the yearly indebtedness of the city on this account property saved from destruction by fire, reduced rates of insurance, reduced expense of the fire department, saving of individual expense for sprinkling your streets, savings to both city and individuals in erecting repairing and cleaning cisterns, etc., etc., to say nothing of the great sanitary purpose secured through this enterprise, or the "comfort and convenience" so "desirable." We agree with the writer, that the city is in no condition to, herself, construct water works, and the fact that such short-sighted policy has of late been adopted of fixing our corporation tax below what will meet current expenses, rather than, as it should be, sufficient to reduce yearly our outstanding floating indebtedness, is one reason which prompts the writer to so contract in this matter as to not place it in the power of future Boards of Mayor and Aldermen to incur large indebtedness by the erection of fire plugs at public expense for private benefit of some favored constituency as is now too often done in the erection of lamp-posts.

As to article No. "Two," it is enough to say that, although 'tis true that the number of fire plugs (fifty) is as little as the city would want to start with, and the price ($75 each) is a reasonable price, if the cities referred to are to be a proper criterian to judge by. Yet, even as to this, we would suggest that in nearly all these cities these works were built and contracts made when prices for labor and materials were very much higher than now. Those of Danville, Virginia, we believe were constructed about 1873, when pipe was worth about $46.00 as compared with $36.00 now, but however this may be the objection to this proposition of taking fifty fire plugs at $75.00 each is patent upon its face, and is because the expense to the city would be more than 6 per cent. interest on the entire capital required to construct the water works. Now by some who have investigated the matter very closely, it is thought that the entire expense of constructing these water works, embracing seven miles of suitable sized pipe, being laid and fifty fire plugs erected will fall below sixty thousand dollars, but assuming this sum to be the cost and to agree with the writer of article "No. Two" that the actual cost of a fire plug is $25.00 (this is so as to a two way fire plug, but a little above the actual cost of a one-way fire plug as we understand), let us suggest still another proposition for the consideration of the committee now investigating this matter. On the part of the city, she shall grant the right of way through the three exempt (so far as our Board can bind another to this) from taxation for five years. Agree to now purchase and pay for fifty fire plugs, paying therefor their actual cost only and lastly, and for the water privilege to pay two per cent. on the cost or $1,200 annually.

On the part of the Water Works Company they shall bind themselves; first, to a proper location and construction of a reservoir and engine house, securing an ample supply of pure and well-filtered water and with height sufficient to answer in cases of fire any where within the city; second, upon a maximum rate of charges for supply of citizens; and thirdly, to erect fire plugs in the future when and where directed by the Board upon the latter, *first* paying the actual cost of such fire plug and its erection, which shall be first agreed on.

Whether the $1,200 annually for the water privilege should be limited in time or graduated as the income upon the capital invested should reach a certain per cent. we will not now discuss, as this is mere matter of detail, and we have not space to consider. Certain it is the city can well afford to pay this sum, while the company can not well decline a proposition which by one consumer contributes $1,200 to the construction, and after that secures at least two per cent. upon the investment. New Market Board of Health.

NEW MARKET, April 23 '79

MR EDITOR: In obedience to a call from the State Medical Board of Health, the citizens of our town assembled this evening to organize a Board of Health to act in connection with the State Board. Col. H. T. Dick was called to the chair and Will. F. Dick elected Secretary. A committee was appointed on permanent organization, consisting of the following named gentlemen: Rev. J. H. Jennings, Col. W. B. Cochran, J. H. Griffin, Esq., and Hon. S. M. Dyer.

The committee retired and after an absence of ten minutes submitted the following report: Dr. J. W. Thornburgh, President; Dr. H. P. Coile, Secretary; Dr. R. E. T. Brazelton, Dr. J. M. Bumett, R. J. Anderson, Esq., Vice President; Col. H. T. Dick.

The report was received and adopted. On motion the following named gentlemen were added to said Board of Health: Dr. J. M. McPherson, Rev. L. R. Janes, Rev. J. H. Jennings and Col. W. B. Cochran. Appropriate addresses were delivered showing the importance of such an organization in every town in the State. The following preamble and resolutions were offered and unanimously adopted:

Remembering as we do the fearful ravages of yellow fever in the borders of our State during the summer and fall of 1878 and of the epidemic cholera in the summer of 1873, and considering the importance of using all precautionary measures to prevent a return of the same, and looking to the general good health of our people; therefore

Resolved, That we endorse the wisdom of the Legislature in enlarging the powers of the State Board of Health.

Resolved, That we endorse the action of our citizens in their prompt response to the call of the State Board to organize.

Resolved, That we, as citizens, pledge a hearty support and co-operation in all sanitary measures our Board may suggest.

Resolved, That we recognize the Board of Health previously appointed by our Board of Aldermen, and promise them a hearty co-operation in all their efforts looking to the health of our town and vicinity.

Resolved, That the proceedings of this meeting be offered for publication in the Dandridge *Watchman*, Knoxville *Tribune*, Knoxville CHRONICLE and the *Republican*.

The meeting then adjourned to meet at the office of Dr. Coile, Wednesday, April 30th, 7:30 p. m., at which time it is proposed to discuss an important question relating to Hygiene. The citizens of the town and vicinity are cordially invited attend.

H. P. COILE, M. D.,
Secretary.

LIVER

STILLINGIA. GLOBE FLOWER SYRUP. HEPATINE.

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. The GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book—free to all at the drug stores—and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA OR QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. $10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

Execution Sale.

Criminal Court for the District of Knox County, Tennessee.

R. Knaffl vs. A. J. Day.

BY VIRTUE OF AN EXECUTION ISSUED in the above entitled case from the Criminal Court of Knox county, Tennessee, and a levy made by me thereunder, I will proceed on Saturday, the 3rd day of May, 1879, in front of the court house of Knox county in Knoxville, Tennessee, at two o'clock p. m., to sell at public outcry for cash in hand to the highest bidder all the right, claim, title, interest and demand which the defendant, A. J. Day, has in and to a certain lot of land situated in Swan, Mabry and Nelson's addition to Knoxville, being lot No. 91 on the south side of Mabry street, adjoining the lots of Lake Wilds and the lot of Gilbert, having a front on Mabry street of 41 feet, and running back 150 feet, being the same lot conveyed to A. J. Day by D. A. Deadrick, Clerk and Master, on the 12th of March, 1877, and registered in the Register's office of Knox county, in book E, volume 3rd page 48. This sale is made to satisfy a judgment and cost which said R. Knaffl recovered against A. J. Day in the Criminal Court of Knox county, Tennessee, and subject to the homestead right of said Day. C. THE KNOXVILLE CHRONICLE FOR 1879.

Subscribe for a Good, Reliable News paper.

The DAILY CHRONICLE, and WEEKLY WHIG AND CHRONICLE, will be kept up during the year 1879 to their usual high standard. By enterprise, accurateness, and close attention to the wants of our readers, we hope to merit a continuation of the liberal patronage heretofore extended these journals.

Nearly nine years ago, when there was not a Republican daily in the State, and only two or three in the South, we commenced the publication of the CHRONICLE. In all these years we have battled for Republican principles, and see no reason to change our course now. Hence we shall continue to publish a truthful, reliable Republican journal, not the organ of any man or clique, but the outspoken and fearless advocate of principles, measures and men, best calculated to promote the welfare of the country and the Republican party

We will endeavor to make our agricultural columns worth more to farmers than our subscription price.

As a newspaper our publications shall not be excelled in the State. In addition to our telegraphic dispatches from all parts of the world, our readers shall have the benefit of correspondence and every other means through which reliable information is obtained,

Each number of the paper will contain selections made with special reference to the home circle. We will continue to avoid everything calculated to contaminate, and will publish a paper that may be taken without question within the sacred precints of the family circle.

Our market reports shall have close attention, and be made entirely correct and reliable.

We call upon all persons interested in the publication of our independent, fearless, reliable Republican journal to come to our aid and assist in extending the circulation of the DAILY CHRONICLE and WEEKLY WHIG AND CHRONICLE.

In view of the financial pressure upon the country and the general reduction of values, we have decided to reduce the price of the WEEKLY WHIG AND CHRONICLE to suit the times. In the future we will send our weekly paper to subscribers on the following.

TERMS:

One copy one year..... $1 50
" " six months..... 1.00

To any person who will send us a club of ten subscribers with the cash, $15.00, we will send one copy extra. Payment will be required *invariably in advance.*
