Notice to Transient Advertisers.

All transient advertisements in this paper must be paid for at the time they are handed in—otherwise they will not be inserted. Transient *Job Work* must be paid for on delivery.

The combined circulation of the Daily and Tri-Weekly editions of the PATRIOT in the city, and in the section of country trading with Nashville, is greater than that of any other paper in the city. All advertisements are inserted in both editions—hence the PATRIOT is the best advertising medium.

☞ We are authorized to announce ED. BAXTER as a candidate for Trustee of Davidson county, at the ensuing March election.

☞ We are authorized to announce JOHN B. THERMOND as a candidate for Constable in the Nashville District, at the ensuing March election.

☞ We are authorized to announce R. E. BURNHAM as a candidate for Constable in this District, at the ensuing March election.

☞ We direct attention to the annual statement of the Bridgeport Insurance Company, whose agent for this city is Mr. JOSEPH NASH, with whose gentlemanly manners and fine business capacity the community is familiar.

☞ The fourth edition of Parton's Life of Aaron Burr is going through the press. The demand for this work thus far exceeds the supply. Parton is the man who has been guilty of writing the life of Greeley, and of marrying Fanny Fern.

☞ We are indebted to the polite clerk of the *Sallie West* for late St. Louis papers.

☞ We have been informed that an engagement existed between Mr. Edwin Booth, the eminent tragedian, and Mr. Crisp, the proprietor of several different Gaieties, whereby Mr. Booth was to have appeared in Nashville on Monday night; that Mr. B. failed to comply with the terms of the engagement, and that Mr. Crisp has commenced suit against the young actor for $1,000 damages. Mr. B. is still in this city.—*Mem. Avalanche, Feb. 3.*

For Cash Exclusively.

We have this day concluded to go an exclusive Cash business. By so doing we feel confident we will not only make it advantageous to ourselves, but to our customers also. For it is certain, any Merchant can sell his goods cheaper for cash than he can on twelve months' time and perhaps longer. We will continue to sell our present stock at cost for cash.

All persons indebted to us for past accounts must come up and settle, or we will be compelled to give them to an officer.

VICTORIOUS FOR FAMILY USE!

Opinion of the Judges of the late Mechanics' Fair.

AT the late Mechanic's Fair, held in the City of Nashville, in October, 1857, the Judges appointed to examine articles in Class 43—No. 17, GROVER & BAKER'S Sewing Machines; No. 164, SINGER'S—REPORT upon the PRINCIPAL points and merits of the two machines as follows:

The machines are both two-thread machines, that is, using two separate threads for making the stitch; that of GROVER & BAKER using the thread from COMMON SPOOLS WITH TWO NEEDLES; and that of SINGER'S using one spool and one needle, the other thread working from a BOBBIN INCLOSED IN A SHUTTLE, and, in the opinion of the committee, is best adapted to FINE CLOTHING, SADDLERY, &c.

The GROVER & BAKER as the LEAST COMPLICATED MACHINERY, AND, OF COURSE, EASIER MANAGED; advantage of USING SPOOLS WITHOUT RE-WINDING; and, with the exception of fine clothing, saddlery, &c., in the opinion of the Committee is BEST SUITED FOR FAMILY USE.

☞ The part of this report referring to the Singer Machine as best adapted to fine Clothing was intended to be UNDERSTOOD BY THE COMMITTEE as *best* FOR MANUFACTURING CLOTHING BY TAILORS, IN WORK-SHOPS, &C. THE SAME IN REFERENCE TO SADDLERY, &C.

Special Notices.

Paraffine Cannel Coal Oils for Lubricating Machinery.

IN Scotland the Cannel Coal-Oils have been very favorably known and extensively used in the place of Sperm, for the last few years. Oils of a similar nature and quality are now being made by the Union Coal and Oil Company, and are very highly valued wherever known. This Oil has the same weight and will bear the same temperature, when winter strained, as the best Sperm, and is fully equal to it as a Lubricator; having been subjected to the severest tests upon both heavy and light machinery, and given entire satisfaction. This Oil is peculiarly adapted to Railroads, Cotton Spindles, Machine Shops, and all machinery where a fine Oil is required. It is more economical than ordinary Oils, as it is sold at about the same price, and as half the quantity will do an equal amount of lubrication and do it better.

This Oil being entirely without gum, should be used in the same manner as the finest sperm. The openings of the cans and feeders used for ordinary coarser Oils should be reduced, otherwise, the Oil will be wasted.

These Oils will be furnished to dealers at the factory prices, adding freights, insurance, and exchange, and all Oils sold by this company are fully guarranteed as represented.

For sale by Ewin, Pendleton & Co., of this city, Agents, for the Union Coal and Oil Company, Maysville, Ky.

We call public attention to the following certificates of gentlemen known here and elsewhere.

EWIN, PENDLETON & CO.,
Agents, Nashville.

NASHVILLE AND CHATTANOOGA RAILROAD
MACHINE SHOP, Jan. 28, 1858.

This will certify that we are using the Paraffine Cannel Coal Oil made by the Union Coal and Oil Company, Maysville, Ky., in our Machine Shop and on the locomotives on the road, and have tested the Oil very carefully to discover its qualities; we are entirely convinced it is a very fine Oil for machinery, and that one gallon of this Oil is fully equal to two gallons of the best Lard Oil. It being entirely free from gum, our machinery will run with less power than with any Oil we have used. Although the Oil has a thin appearance, it has a lubricating body superior to any Oil in ordinary use and it is well adapted to Railroads.

C. B. KNOWLES, Master Mechanic,
Nashville and Chattanooga Railroad.

Mr. Knowles is Master of Machinery of our Road, and a reliable man in whose statements we would confide.

V. K. STEVENSON, President,
Nashville and Chattanooga Railroad.
H. I. ANDERSON,
Superintendant of N. & C. R. R.

NASHVILLE, Tenn., Jan. 30, 1858.

We are using the Paraffine Cannel Coal-Oil in our Machine Shop, and take great pleasure in stating that we have never used any Oil equal to it. It makes our very heavy Engines move much more easily than the best quality of Lard or other ordinary oil, is free from gum, and is just such an oil as is needed for machinery. We doubt not it must come into general use. We think this oil fully equal to the best Sperm, and that one gallon is worth more than two of the best Lard Oil.

ANDREW JOHNSON.
J. B. ROMANS.

MASTER MECHANIC'S OFFICE, M. & C. R. R.)
Memphis, January 9, 1858.

This will certify that I am using the PARAFFINE CANNEL-COAL OIL manufactured by the Union Coal and Oil Company of Maysville, Ky., in our machine shops and on the locomotives on the Memphis and Charleston Railroad, and have given it the several tests, in order to prove its qualities as a lubricating oil. I have no hesitation in recommending it as a superior oil for Railroad purposes, both in regard to economy and as a perfect Lubricator. I believe it to be the best oil I have used, and that one gallon will go as far as two gallons of Lard Oil. The machinery is now running in the shops with twenty percent less power than is required for ordinary oil. The fluidity of the oil arises, I am convinced, from the total absence of gum, and that, and its other lubricating properties, but only requires that the orifices in the oil-cups and feeders should be reduced in order to use the oil economically.

WM. R. NICHOLS, Master Machinist.

MAYSVILLE, KY., November 14, 1857.
To the Union Coal and Oil Company.

GENTLEMEN—Having used your Lubricating Oil, made from Cannel Coal, on the machinery of our Cotton Mills (including Engine and Spindles), for the last few weeks, we are prepared to say that we have found it greatly superior to any other, excepting the best Sperm, and fully equal to that article, for which we have been paying from one dollar seventy-five cents to two dollars and twenty-five cents per gallon. The Oil distributes very perfectly over the machinery, wears long, and is free from gum, which causes friction, and consequently heat.

In view of the superior quality of this Oil, we have adopted it for our Mills. From the low price at which it is sold we doubt not it must come into general use. We have been paying from one dollar seventy-five cents to two dollars and twenty-five cents per gallon. The Oil distributes very perfectly over the machinery, wears long, and is free from gum, which causes friction, and consequently heat.

☞ Many other certificates are in the hands of the Agents which can be seen at any time.

Save your Doctor Bills and Time.

Mr. SAVAGE, Md., July 7, 1856.

DEAR SIR:—In consequence of taking cold after a bad attack of the measles, some eleven years since, I have from that time suffered greatly with a disordered liver and stomach. I have been at times so bad that my life was despaired of. I was induced some time ago, through the persuasion of a friend, Mr. Henry Shafer, to try a bottle of Hoofland's German's Bitters, thinking if it done no good it could do no harm, and knowing Mr. Shafer to be a gentleman who would not recommend any thing to me that he did not have confidence in. Before I had taken one-third of the bottle, my bowels became regular and I had a fine appetite. When I had used two-thirds of it I considered my health as good as ever it was, and could eat anything, without its disagreeing with me in the least. I now keep a bottle of the Bitters in the house continually, and in case I take cold, or I feel unwell, I take one or two doses, and it makes a change in my bowels which is all I need, wherefore, for the past eleven years, my doctor bill has been from $10 to $25 per year, besides loss of time and severe illness. Yours, truly,

P. J. THRASHER.

Best Remedy for Tooth-ache.

A drop or two of BRAGG'S ARCTIC LINIMENT, put into the hollow of an aching tooth, will quickly relieve the sufferer's agony. Its penetrative property is so great that it instantly reaches the seat of the pain and drives out the inflammation from the throbbing nerve. If the face be swollen, one or two applications of the Liniment will remove the swelling, by causing the bad humors to be absorbed and driven off. There is no longer any occasion for sufferers of tooth-ache passing sleepless nights of agony; Bragg's Arctic Liniment affords speedy relief, and may be obtained at any respectable Drug-store. LET THERE BE NO SECRETS IN MEDICINE, or rather no pretended secrets. The Medical Faculty published as soon made, all their discoveries, and almost all that is known of real value for the cure of disease, has been discovered by them. *Dr. Ayer* takes the honorable honest course, and right because it is honest. He goes to work and invents the best remedy which medical skill can devise for the cure of certain complaints: then publishes what it is and maintains his monopoly of it solely by making it cheaper, better, more perfect, than anybody else can. If the people would exact this of all who offer medicines, they would have much less trash to swallow. *New Orleans Organ* Feb. 1—1w.

The Cherokee Corn Planter!

PATENTED BY ELLIS & CHARLTON, Sept. 8th, 1857.

THE only cheap, durable and efficient machine for planting corn ever presented to the Planters of Tennessee, is now on exhibition at Messrs. Armstrong & Co's, No. 66 Market street, Nashville.

The Cherokee Corn Planter recommends itself above *all others*, for its durability, cheapness, simplicity, and the *perfect* manner that it performs the following described work.

It furrows out the ground to any required depth—drops the corn, as many kernels as desired, in a space of four inches diameter, mathematically in the hill—covers the hills and presses the earth, (as by the old method with the hoe)—and marks accurately the position of each hill. With a single horse, a man or boy can plant ten to fifteen acres per day with ease.

Planters and others are invited to an examination of this machine, at Messrs. Armstrong & Co's, where it may be seen daily in practical operation.

Persons wishing to purchase COUNTY RIGHTS in this or adjoining states, by applying immediately, (as territory is being disposed of rapidly,) can do so upon such terms as will insure them a large return on the investment. Call at once at No. 66 Market street, Nashville. CHILDS & McDOWELL.

PATRIOT OFFICE,
Nashville, Feb. 5, 1858.

COTTON.—Sale of a small lot yesterday at 9¼c ℔ lb.

TOBACCO.—No sales.

Augusta Market.

AUGUSTA, Feb. 2—P. M.

COTTON—There is little doing to-day. Holders are demanding an advance in prices, which buyers refuse to give. Some sales have been made, however, at about 10¾c for Middling Fair.

Charleston Market.

CHARLESTON, Feb. 2, 1 P. M.

COTTON—The market is firm at yesterday's prices. Sales to-day 900 bales at 10¾c.

New Orleans Market.

NEW ORLEANS, Jan. 30.

COTTON—Our last weekly review closed upon a rather irregular market, and on Saturday we had no change of any moment to report, the sales of the day amounting to about 8500 bales. On Monday some 7,500 bales were sold before the Europa's advices were made public, and on Tuesday holders were asking considerably higher rates but were obliged to reduce their pretensions, and the market closed at an advance of barely ⅛c on the Middling grades, the sales of the day embracing 8500 bales. On Wednesday the demand was active and general, resulting in a business of 17,000 bales at the rates of the preceding day, and on Thursday some 7000 bales were taken at about the same range. Yesterday the sales embraced some 4500 bales at about the range of our quotations as below, making the entire business of the week 53,000 bales. We now quote:

NEW ORLEANS CLASSIFICATION.

Inferior	4 @ 6
Ordinary	6¾@ 7¾
Good Ordinary	7¾@ 8¾
Low Middling	9@ 9¼
Middling	9¾@ 10
Good Middling	10¼@10¾
Middling Fair	11 @—
Fair	@—

TOBACCO—There has been considerable inquiry during the week, and several round lots have changed hands, but nearly all the particulars have been suppressed at the instance of the buyers, and we are unable to state amount with any degree of accuracy. We repeat our last quotations as the probable range:

Lugs (new crop)	4¾@5¾
Leaf, Inferior to Common	6 @7
Fair	7½@8½
Fine	9 @9½
Choice and Selections	10 @11
Fine and selected (old crop)	11 @13

SUGAR—The demand has been fair, and with light receipts prices have improved. The sales of the week have embraced some 3000 hds., the market closing at the range of our quotations, which are now as follows:

QUOTATIONS FOR LOUISIANA SUGAR.

Inferior to Common	2 @4½
Fair to Fully Fair	4¾@5
Prime and Choice	5¼@6
Clarified and Refined	5 @7½

Weeks receipts 5,649 hhds—Exports 3,421.

MOLASSES—The supply of the Prime qualities has fallen short of the demand and the rates have advanced. Some 12,000 bbls have been sold during the week at a range of 12@12½ for Fermenting, and 17@18 and 18½c for Prime and Choice, with a few half bbls at 19@22½c ℔ gallon, according to quality. On plantation about 24,600 gallons have been sold at 13c ℔ gallon in the cistern.

COFFEE—There has been a good demand, with sales during the week of about 14,000 bags at an advance of fully ½c ℔ lb., prices ranging at 8¾@10c for Ordinary to Prime. Yesterday 594 bags sold at 8½c, 50 at 9, 600 at 9¼, and 486 at 10c ℔ lb. The market closes at 8c for Ordinary, 9½@9¾ for Fair to Good Fair, and 10c for Prime.
