To carry this determination into effect, we have placed our whole city list in the hands of Mr. WILLIAM GILL, who will make the collections, and also attend to the delivery of the Papers, and see that subscribers are served punctually. We hope this arrangement will be satisfactory to all parties. Those who may desire to save them selves the necessity of making four payments during the year, can, if they prefer it, pay in advance for the whole year.

THE NORTH AMERICAN REVIEW.—This periodical passed into the hands of Messrs. CROSBY, NICHOLS & Co. something more than a year ago, and since then has manifested a newness of life, and a freshness and vigor of being and substance, that make it the representative of its class of American periodical literature. Its articles are prepared with great ability and care, and are uniformly entertaining. We present below its table of contents for October, each article of which is excellent, and together constitute a most valuable number.

1. Sir Walter Scott.
2. Gray's Botanical Text-Books.
3. The New Crime of Austria.
4. Michael de Montaigne.
5. Buckle's History of Civilization.
6. Recent French Literature.
7. The First Stages of the American Revolution.
8. The Early Days of Hellas.
9. Climatology.
10. Life and Labors of Thomas H. Gallaudet.
11. The Oceanic Telegraph.
12. Critical Notices.

The work may be had of W. T. BERRY & Co., Public Square.

THE THEATRE.—Mr. MURDOCH received a substantial Benefit on Friday night, which is acknowledged in suitable terms at the end of the first play. The play of the "Stranger" is eminently addressed to the sympathies, and when rendered correctly never fails to produce manifest effect on the audience. On the occasion the leading characters were so present d as to produce the most marked proof of their faithfulness. The last scene brought the heart into the throats and tears into the eyes of hundreds. The after piece, the "Honey Moon," was very well played and equally well received.

Our citizens and the numerous strangers who will be in the city during the Fair, will be gratified to learn that the engagement of Mr. MURDOCH continues for the present week. To-night they will have an opportunity of seeing him in two fine pieces, the *Inconstant*, and *My Aunt*.

THE NEW COURT-HOUSE IN FRANKLIN is now nearly finished. It is a large and very handsome building, all of the work on it being well done and in beautiful style. The room for the County Court is on the first floor, whilst that for the Circuit Court is on the second. Both of these are large, well-ventilated, and admirably adapted to the purposes for which they are intended. The County Court of Williamson deserves great credit for ordering the erection of such an edifice, and the mechanics who constructed it may justly pride themselves upon the excellence of the job.

☞ The closing day of the Williamson county Fair was brilliant. The weather after 11 o'clock was magnificent, and the audience was very large. Not a seat in the vast circle was without an occupant, whilst hundreds stood. The greater number of those present were of the "gentler sex." Rutherford, Maury, Sumner, and Davidson, having representatives there to show their fair sisters of Williamson their appreciation of the occasion.—May we not hope that our Fair this week may be similarly represented.

EQUESTRIANSHIP.—If there is a better or more graceful rider, on horseback, in the State, than Mr. R. R. OWEN, who took the premium Friday at the Williamson County Fair, he ought to let himself be seen. The competition Friday was unusually spirited, and gave to the immense crowd assembled on the occasion great pleasure. It was worth a trip of a hundred miles to see.

☞ On Saturday last 26 feet of the vacant lot on Market street, between High McCREA & Co.'s and PILCHER'S salt shed, were sold at auction, and brought $220 per foot. A lot on the corner of Summer and Gay—197 feet—sold, at private sale, for $85 p r foot. Both sales were on one, two and three years time, with int rest from date, and were made under the auspices of Mr. E. R. GLASCOCK.

☞ The City Council held an informal meeting, Saturday evening, and accepted an invitation from the Agricultural Bureau, to attend the State Fair, this morning in a body. The Board will meet at the city Hall this morning at 9 o'clock for that purpose.

TENNESSEE BONDS.—Our State bonds have ranged from 90 to 90½ for the past two weeks in New York. On the 5th inst., there was a slight advance. In the morning of that day $15,000 were sold at 91; and in the evening $20,000 more at 91¼.

☞ J. McLEOD KEATING, Esq., has, we learn, been elected President of St. Patrick's Club, of this city, to fill out the unexpired term of the late R. O'KANE.

A Two-Headed Girl—A Living Wonder!

During the Fair this week, the wonderful *lusus naturæ*, CHRISTIAN MILLY, will be exhibited. She is a negro child, with two distinct heads, chests, necks, and four arms and legs. The remaining portion of the body, below the stomach, is that of one person alone. This little creature, who is under the care of her owner, at whose residence, in Alabama, she was born, is a much greater curiosity than the far-famed Siamese Twins. Wherever she is exhibited thousands avail themselves of the opportunity to see her; whilst, to the Medical Profession, she is an object of peculiar interest. Every body in Nashville and Davidson county ought to see her. —tw.

☞ We learn from Mr. FISHER, the gentlemanly operator at this place, that the Telegraph Cable across the Ohio river at Cairo, was laid Saturday, and dispatches were sent direct from Cairo via Memphis and this city This will be a more direct route than the one by which dispatches have heretofore been sent.

☞ It will be seen by reference to our advertising column that Mr. JO. EDWARDS has associated with him in the wholesale Grocery Business. Mr. J. K. GILKESON and Mr. EDWARDS.

APPROPRIATE.—The Shelby Life Guards will be on Parade to-day for the purpose of attending the opening exercises of the State Fair at 10 o'clock A. M.

☞ Mr. J. H. MCGILL, corner of the Square and College streets, has just received large additions to his stock of Fancy articles. Give Mc. a call.

☞ The cars on the Nashville & Chattanooga Railroad leave the Depot every fifteen minutes for the Fair grounds—Fare ten cents

☞ N. P. WILLIS gives the following impression of a recent trip from Boston to Springfield: "The collections of tidy pill-boxes on the way—each town with its sprinkling of painfully clean and square houses set up like stools of repentance in the middle of the close shaven farms—looked as agonizingly virtuous as they used to do when I saw them from the windows of the stage coach on my way to college. The worldly railroad, as yet, had let in no corruptions of milder paint and more varied architecture. To go over the same pious ground so much faster was the only wonder. How is it that the held up forefingers of Massachusetts, those awfully white meeting-house steeples, give no monitory shake as sinners go by at such a profane, whipped-up-itude of speed—thirty headlong miles an hour instead of the well-considered five?

A gentleman, now in Paris, writes as follows:—"The greatest of living French sculptors, Lequesne, the pupil and successor of Pradie, has asked Morphy to sit to him for his bust in marble. Morphy gave him the first sitting yesterday. The bust will be exhibited at the Exposition des Beaux Arts. This is, I think, the highest honor Morphy has yet received. But I can assure you they treat him here like a god. He dines with his royal Highness the Duke of Brunswick on Sunday. The other night, at the Theatre Francais, half the audience stood up and look d at him—he perfectly unconscious until it was pointed out to him. Everybody seeks introductions to him, and the old players of the time of Louis Quatorze are treat him with the greatest reverence."

THE HAVANA, FLORIDA & MACON TELEGRAPH.—The Tallahassee *Floridian* of the 2d inst. says: "The long contemplated line of Telegraph, from Havana via Key West, St. Marks and Tallahassee to Macon, Ga., we are happy to announce, will soon be constructed. Mr Samuel A. Kennedy, of New York, is now in this place making arrangements for an immediate commencement of the work. That portion extending from St. Marks to Havana, will trace the Florida coast in the form of a marine cable. Tallahassee will thus be put in telegraphic communication with all the Atlantic and Western cities, and with the important city of Havana, and at a time not distant, with Central America. This grand enterprise has received every encouragement from the civil authorities of this State and its citizens of Cuba."

Watson L. wis, the one of the two brothers who succeeded in marrying his master's daughter after the elopement of last week, has been arrested in Cleveland for bigamy, it being alleged that he has a wife—with better claims to the title than poor Miss Lloyd—residing in that city.

☞ A German or Irish girl may find a good situation, as a house servant, by applying, with proper recommendations, at this office. oct11-tf

SORE AND INFLAMED EYES.—These disagreeable complaints are generally very prevalent at this season of the year, and it is therefore a matter of some interest to the public to know that they may be cured most effectually. The best remedy yet discovered is BRAGG'S ARCTIC LINIMENT, as the following certificate will show:

WEBSTER CITY, Iowa, Nov. 9, 1857.

DR. BRAGG:—Dear Sir:—For more than three years myself and daughter have been afflicted with inflamed eyes in an aggravated degree, and tried various physicians and nostrums to no effect. At length I was induced to try the Arctic Liniment, and in 2 months I was nearly cured and my daughter was entirely well, although part of the time she had been totally blind. I also used the Liniment for rheumatism in my back, and was cured by part of a bottle. I would not be without your invaluable remedy in my house.

Yours truly, WILLIAM RUSSELL.

J. J. Wadsworth, Post Master of Iowa City, confirms the above statement.

The Wheat Crop.

The New York Economist, in a somewhat lengthy array of figures, then *lost*, and estimates, arrives at the following conclusion regarding the supply of Wheat in the United States just now:

Grain on hand—estimated	bush.	16,000,000
Crop of 1858 coming in		140,000,000
Supply		156,000,000
Seed	15,000,000	
Consumption	105,000,000	
		120,000,000
Excess for export	bush.	36,000,000

The consumption is taken at 3½ bush, for 30 million of people. This quantity for export is larger than was ever needed, and crops are now good abroad, with little chance of a large demand.

ANNUAL FAIR, 1858,

OF THE

TENNESSEE STATE AGRICULTURAL BUREAU

TO BE HELD

ON THE FAIR GROUNDS, NEAR NASHVILLE,

October 11, 12, 13, 14, 15 and 16.

THE premiums this year are very liberal, and cover every branch of Agricultural, Manufacturing, Mechanical and Household Industry. Competition from all parts of the State is invited.

More time will thus be allowed for the exhibition of stock, of which various classes will be shown each day, and the interest of the fair will be diffused through the whole week, instead of being concentrated in one or two days.

On Tuesday, the 12th, the Annual Address will be delivered by Hon. ALEXR W. BROWN.

Arrangements have been made with the Nashville and Chattanooga, the Tennessee and Alabama, and the Nashville and Louisville Railroads, by which passengers attending the fair will be carried over those roads at half price, and stock exhibited will be returned free. The Nashville and Chattanooga road will run trains hourly from its depot to the fair grounds during the week of the fair. Tickets each way 10 cents.

We would call the particular attention of every reader to the advertisement of McLEAN'S STRENGTHENING CORDIAL and VOLCANIC OIL LINIMENT. They are too well known in this community to require recommendations. But there are many of our readers who are suffering from a derangement of the digestive organs, without the slightest idea of the real cause, giving rise to symptoms such as despondency, nervous unpleasant feeling, indecision, lack of energy, making existence a burden. To all who may be so afflicted, try this Cordial; it will give immediate relief. To all who may be afflicted with Sores or Pains of any kind, try the Liniment. See the advertisement in another column.

The "Elixir."

Prepared by Dr. JAS. WILLIAMS, for the cure of DYSPEPSY, and nothing but DYSPEPSY, (as advertised in another column,) has, by its own merits, obtained for itself so high a reputation in Philadelphia, that Physicians acquainted with its properties, are using it themselves and prescribing it to their patients, convinced, by observation, of its great efficacy in restoring the disordered digestive organs to a healthy function. Numerous cases of Dyspepsy, of the most aggravated character, which were abandoned as incurable by some of the Medical Faculty, have, by the use of this Elixir, been restored to perfect health, as attested by certificates testify.
