**Lectures on Anatomy, Physiology and Civil Government.**

In addition to the work required in these branches by the course, special lectures will be given before the High and Grammar schools.

**Apparatus—Philosophical and Chemical.**

Arrangements are being made for the purchase of an amount of apparatus sufficient to illustrate the laws of Philosophy and Chemistry, and to place our High School on a level with the *best in the State.*

**Book-Keeping and Penmanship.**

Special attention will be given to these most important studies, and an opportunity provided to pupils to secure the advantages of a commercial education without the necessity of leaving the public schools.

**Rhetorical Exercises.**

A plan has been adopted giving special importance to Rhetorical exercises and at the same time rendering them more enjoyable to teachers and pupils, and of uncommon interest to the patrons of the school.

**French and German.**

Those desiring to study either of these languages will find a most excellent opportunity in our High School, as thoroughly competent teachers are secured.

We would call attention to the Latin studies as provided by the course, which give an excellent preparation for entrance into the University or any college in the State. Strong efforts are being made to enable the graduates of our High School to enter the University on diploma, without examination.

It is the resolute determination of the School Board to place the schools of Paw Paw among the first in the land, and to accomplish this end they will spare neither effort nor expense.

They are happy to announce to the public that they have secured the services of Prof. E. M. Russell, late of Milford, Mich., a gentleman of thirteen years' experience and fine executive ability. The Prof. will be assisted by an able and experienced corps of teachers.

**DR. HENDRICK, Physician and Surgeon.**

Dr. Hendrick is as well educated, as well versed in medicine, as well prepared for his profession, has as good success, and has as good practice, as any other physician in the county No other is more widely or more generally accepted. Nor is there any other who is better to be depended upon in the worst and most difficult cases. He is the quickest and surest in breaking up a fever. He is the SAFEST, for he neither kills nor injures any by overdosing them, and he has saved a large number whom other physicians were losing. He is the best mid-wife. He is also the best in the treatment of female complaints, liver, lung, and kidney diseases, and piles. There are numerous incidents on every hand which stand as incontrovertible facts. And when you call upon him you do not have to pay 50c. or more for a prescription and then go to a drug store and buy your medicine. You can save the price of the prescription every time and get what will answer the purpose better. It is not necessary that you should pay so much for a small piece of paper with something written on it that was probably taken from a book. The most ridiculous thing in medicine is a young practitioner asking such prices simply for a prescription for older men's brains. You want to get your medicines of one who keeps his own medicines on hand and who knows by actual test what they are, then you obtain them at better rates, and can with more certainty depend upon them. You always find Dr. Hendrick fully prepared and ready for what is needed.

☞ Special attention given to diseases of the Lungs, Liver and Kidneys, Private Diseases, Piles, Female Complaints,—to all Chronic Diseases.
