But He Should Keep on Trying.

A well-known editor who was facile in rejections was tested with an early writing of his own, sent under an unknown name. After glancing at the title, which was new, he wrote to the contributor stating that the article was not up to standard, and adding that "it would do the writer no harm to continue writing such articles, but it was clear from his work he did not possess the ability necessary to secure acceptance."—Author Magazine.
