RAILROAD MATTERS.

L. L. & G. R. R.—From the following paragraph which we copy from the Holden Enterprise, it appears that the sore-headed malcontents in and about Holden, are still grumbling:

"Railroad Matters.—The suit brought to set aside the election of Directors of the Lexington, Chillicothe & Gulf Railroad, was dismissed by his honor Judge McGaughey, for informality in the notice. There is talk of renewing the suit.

Well, if it shall be renewed, the case will be dismissed for want of merit. Judge McGaughy will speedily learn that the plea set up is a miserable pretext to sustain the claim of a favorite to the presidency of the road that he may build it where the people have three times declared they did not want it.

L. & M. R. R.—See proceeds for work elsewhere. A meeting of the Directors was held in St. Louis on Thursday last. Mr. E. Wilson of this city was in attendance. Business concerning the location of the road in this county was considered.

L. & N. R. R.—At a meeting of the Board of Directors of the Lexington and St. Louis railroad, held in this city, on Tuesday last, Wm. Morrison was elected a Director in said road, and immediately thereafter chosen as the President of the Board and of the road. He is the gentleman who brought about by a petition numerously signed by a number of the leading men in this county, all of whom know and appreciate Mr. Morrison's peculiar adaptation and fitness for the place—his wealth, his care for the well-being of the road and the people, his earnestness and disinterestedness in some matters, his influence with capitalists abroad, and his honesty and energy in the discharge of all duties incumbent upon him, and he will be, we hope, the people's friend in fact. We have not thought Mr. M. should have accepted the place, because of the bad odor which attaches to the company, but if he shall bring order out of chaos, and complete the work, thereby saving the people's investment of $710,000 in the road, he will have done the people a service indeed. Mr. Morrison is one of the St. Louis business men tied with the road, but we think, before much can be accomplished, the Board will yet have to be shaken to its very foundation, nothing of material that is now in and in which the people have no confidence. That time we believe the road can yet be finished, but upon its new, a contract with the Pacific will be efficient of accomplishment.

The appointment gives entire satisfaction, and inspires a goodly hope for the work.

T. M. HACKETT.—That our readers may know something of an ex-Lexingtonian, we give the following, translated by the Republican from the St. Louis Westliche Post:

"Hackett's Bill.—Mr. Hackett, who had the contract of the water reservoir at Bissell's Point, who lost money on it, and who therefore made Mr. Morrison so his well-known bill, has given notice to the water commissioners that he is about to sue the city for damages to amount of $225,000. This proceeding, in our opinion, is only the forerunner of the appearance of the same bill in the next general assembly. These gentlemen know very well that by the action they have taken in the courts they cannot get a single cent. If, on the contrary, Mr. Morrison's bill had passed the legislature last winter, they would have made this $225,000, and probably twice that amount. We are morally convinced that such a bill will make its appearance in the next legislature—the St. Louis representatives will have to divide it, and if we are not much mistaken, we recognize some candidates on the legislative ticket who stand not very far from those principals interested in that bill. We are knowingly to make such allusions when one cannot give some tangible evidence of the facts. But every one knows how difficult it is to procure such evidence, and to receive the hidden ways of this kind of men. But if we are not grossly mistaken there are at least four members on the legislative ticket who owe their nomination to the above mentioned influences. Would it not be wise on the part of our fellow-citizens to inform themselves in time and to make searching interpolations to candidates before election day?"

The highest bid for this work was about $1,000, on while that of Mr. H. was about one-half, at which he got the work. We thought at the time the highest of tenders was expected to make a fortune on the contract, or the lowest bidder had a fine margin upon which to have. The new claim is for deviations from the plans of the work. The Messrs. Metcalfe also filed to sue in court "Bellick Breeches."

1812—The reunion of the soldiers of 1812, convened at Moberly, this state, according to notice, to the number of twenty-nine. Col. W. F. Switzler, of the Missouri State Journal, addressed the old veterans in an eloquent speech. On a count, 26 out of 29 of the old gentlemen were found to be under the banner of the Liberal Hater, which would seem to prove that Bob Johnson was right when he declared "Loyalty the last refuge of a scoundrel." We give names and address: Randolph co., R. H. Wright, age, 78; Mr. Gunn, aged 76; William Bentley, 76; Wm. Haines, 81; Burrett Boore, 81; Elijah Williams, 71; Henry Oungus, 76; Abraham Jones, 76; Robert Boardley, 77. S. C. Davis, 76; Lewis Osborn, 82. Clay co., F. R. Palmer, 82. Macon county, Wm. Salem, 81. Linn co., Wm. Scantlin, 81. Randolph, Grundy co., Abijah Woods, 78. Boone co., Thompson Harden, 81; F. Herndon, 82; Wm. Acton, 77; John Davenport, 77; Gale Parker, 77; Wm. Bowlsby, 85; Martin G. Reader, 81; Rice Edwards, 79; Calloway co., Robt. P. Jones, 79; Monroe co., J. M. Chadley, 122; Thomas Grant, 82; John Adkinson, 81; Geo. L. Naylor, 81.

NOT GENUINE.—On Tuesday last, our good natured friend, Tim Howard, was brought up on a charge of shooting at a neighbor, by the name of Morgan, three bullets out, with intent to hurt him, or something of that sort. He was bound before the Recorder on Wednesday, and fully acquitted.

We interviewed Tim soon after the thing was over, and learn from him the assertion that "never at all at all did I shoot at me nabor Morgan. The shot put before the trial, sure, had never entered the gun, divil the bit, and it is not the likes of I to be shooten at quiet people, as I like."

KANSAS CITY.—A little of street cars were put into operation in Kansas City, on the 1st instant, and much is expected from it in the way of convenience. The road will be "a big thing" in muddy weather, certain.

The papers of the city are growing at the exorbitant rent. They say, houses of say four to five rooms, in a radius of a mile of the courthouse, rent for from $20 to $25 per month, and that high rents, and a scarcity of houses, is driving emigration from the city. We guess there is something in the wholesale prices of real estate, and the speculations, as here, to hold on. The rents, as stated, are very little over what we asked here.

REGISTRATION.—There were many strange things at our registration boards. We are not going to tell but one question asked at them. It was as follows:

Registrar—"What did you think, all the time the war was a-goin on," and one of the party to an applicant.

Citizen—"Well, I thought, all the time, a man ought to be pinsioned for hog-stealing."

He went on.

AN ERROR.—Mr. Sheriff Fleming tells us we were in error in stating that he summoned a posse of men to guard the "John Tolliver" brute, in jail, charged with an attempted rape, in which negress preponderated. We do the sheriff the justice of his denial. We would not knowingly injure him by word or deed, but all with whom we conversed upon the subject stated the case as we had it, and the Africans also said the same, so we were led into the error.

JOHNSON COUNTY.—To his great detriment, the papers of Warrensburg are airing and fanning out the accounts of the keeper of the poorhouse in our neighboring county, and as well as we can make it out from the statements, the Mot forgite has made a nice little thing of the place for himself, but has worried the county considerably. Well, the money belonged to the people, and the keeper was one of them.

Messrs. BRITNOR, B. M. Faulman is elected, will Pinaree E. Hammond be his deputy. Please enlighten us.

X.

Really, it is hard for us to say, with any certainty. Circumstances would seem to indicate as much. Mr. H. is believed to have registered to that end, and we have heard it said he would be the deputy, but we do not know it.

PETTIS.—The trial of Col. Warner for the killing of S. W. Sutter, was continued, owing to the absence of a witness, it is said.

Mr. Mot Gorman was acquitted for the killing of old man Butler, and is now at home.

It is officially announced that Ed. L. King has declined the Congressional race in favor of Gen. Gen. R. Smith, Brown candidate.

MELOTTE.—Platte county has been put in for $8,[illegible] damages to a Mr. Butler, for a hole in the road, by which he had a leg broken. Just the other day, Mr. Calfee had a horse injured by a hole in Pine street, and once came near repeating. Why don't he sue the city? He ought to. It might make Wilson attend to his legitimate business. He can't beat Mitchell, no how, electioneer as he will.

ATTORNEYS—AT LAW.—Read the card of Judge Wood & Son, in this day's paper. The Judge is well known, and has resided among us, with a short intermission, for the last twenty-five years, and is one of our ablest lawyers. His son, T. C. Wood, is a rising young lawyer, and attends also to notarial business. We commend the firm to the public.

HOGS.—Messrs. Gordon & Shelby started a drove of 150 very fine fatted hogs to market, on Wednesday last. The hogs, we thought, would come near an average of 250. These hogs are going forward on a declining market, say 6 to 7c. in St. Louis, on the 1st, and at 7 to 7½, same day in Chicago. It is a reliance if they hit the market right.

STEAMERS.—The W. B. Dance, Capt. Constant, clerk O. Haynes, will be here to-day, and leave for St. Louis to-morrow afternoon. Those wishing to go cannot do better.

Mountaineer due here Tuesday.

JUDGE TUTT.—By card, it will be seen that Judge John A. S. Tutt continues the practice of the law. All know him, for he has been with us a long time; will give close attention to business, and also give it the best talent.

MIXED PARTIES.—We hear that preparations are making to inaugurate the usual mixe parties of the winter season, in the Presbyterian and Methodist churches. A move is also on foot to establish a choir in the latter church.

NEURALGIA.—Russell's Tic Sano cures Neuralgia, Nervous and Sick Headache. Gen. Jo. O. Shelby and Judge John A. S. Tutt recommend it. Sold by druggists generally.

$100,000 WANTED.—We are exchanging all kinds of Dry Goods at the VERY LOWEST prices for greenbacks. Any one having a surplus, can make a splendid investment, at 97 Main street.

LIBERAL TICKET.

ELECTION ON TUESDAY NEXT.

Stick right to the ticket; stick—stick—don't be fooled with the twaddle of Liberal Hater, but vote the straight thing for Liberal Force, and Liberal measures. You'll feel better if you do it. A man always feels down in the mouth when he has taken trouble to scratch a part of his ticket. Fight it out on this line. You can't do better. If you think you don't like some of the candidates on the ticket, just think of what reason you have to like the other—those opposed to Liberal principles, opposed to inveiling the people with the franchise, but radical enough, right to vote for their own officers—to say who shall handle their business and money. Some of the Eternal Haters say they are for the amendments. Says J. Milton Turner, you that he finds pretty much never-body else so badly wants office. But never mind about what these chaps say, for they will say almost anything for the sake of near office, just look at their antecedents, see the company they are in, and judge them by them, and by their protests, not by the solid action, to neither we need of three days. But we have a man in the company he keeps, or at least, one speaks louder than word. They tell us, some of them, they are for the amendments, and are not Liberal Haters.

Well, all right, but what are they doing on that ticket. Why was the platform of Liberal Force so perverted the popular wish. Not one of them have declined, and will not. And hence we much credible that their motive is to defeat the ticket, if they can, else they would not call vote.

Force is not the slightest doubt about the adoption of the amendments, and we are supposing, with the party and the people, and that we were labored for it to outside measure, and not to the disparagement of our State. Force is a reality, and has a place in the hearts of the people, and we want to be counted in the adoption, and we want to be counted in the adoption, and we want to be counted in the adoption
