Andrew Co. Republican.

TERMS: $1 50 per year, in advance.

FRIDAY MORNING, NOVEMBER 13, 1874.

TOWNSHIP ORGANIZATION.

This proposition having been adopted by Andrew county last week, the County Court proceeded to divide the county into four districts, in conformity with the law, for the election of Justices of the County Court. The First District comprises the townships of Rochester, Monroe and Jefferson; Second, Empire, Platte and Benton; Third, Nodaway and Washington; Fourth, Lincoln, Jackson and Clay. On the second Tuesday of next April, township officers will have to be elected under this law, with a County Court Justice in each of the above districts, and one (President) by the county at large. The township officers consist, we believe, of one Trustee, one Collector, one Assessor, one Clerk, and a road overseer for each road district in the township. Two Justices of the Peace and one constable, we believe, will also have to be elected in each township. This is something for all who are, and who are not, pleased with the late election, to look forward to. There will be a lively election next spring, or we lose our guess. It will probably be seized upon by the Democrats as a fitting opportunity of reorganizing their shattered battalions, emboldened by their recent successes in the State and country; in which event the Republicans of the county will be nothing loth to meet the issue with them, fairly, squarely, and honorably. Let the contest shape itself as it may, we propose to be ready for it and take a hand in the matter.

COUNTING THE VOTES.

The St. Joseph Herald says the next Legislature ought to consider the propriety of providing improved facilities for counting the votes at elections. As it is now no votes are counted till all are cast, and where the number of votes is large, the counting, following upon an uninterrupted day's labor, becomes a hard and toilsome task, and when men have sat all day on the election board, they are really unfitted for this work, especially when, as is often the case, they are obliged to continue it during the whole night. Voting, and now, as we do, for all officers on the same day, our ticket is very long, and necessarily consumes much time in the counting. It has been suggested, and the suggestion seems to us practicable and valuable, that there be a counting board authorized, who shall commence the count with the first ballot that is cast. Thus when the polls are closed, the count will be nearly finished, the election board can assist, and the whole work will soon be completed, thus insuring greater accuracy, and greater immunity from the perpetration of fraud.

MANY reasons have been given for the "result" of the election. The American Freeman (Gentry county) has its sufficient "reason why," which is as follows:

It has come, and turned out just as we expected, and that is, that the "Bourbon Masonic party," which is the same snake, from its head to the tip of its tail, has carried the day in Gentry county. No man who does not bow down at the feet of Despotism need offer himself as a candidate to represent any office in the county from Representative down to the humble office of Constable. The line is now drawn, which we might as well designate secrecy vs. anti-secrecy. We are glad to see the thing come out on the square. One great imposition has been removed from our land (slavery.) The next giant imposition to be expelled from our land is secret societies.

AMONG the early signs of the times that are coming, says the St. Louis Democrat, is the mention of Fernando Wood—pretty well known in connection with the affairs of New York—as candidate for Speaker. To be sure, he did have something to do with the Credit Mobilier, but what of it? He was, nevertheless, the Democratic caucus nominee nineteen months ago.

PEOPLE of Monroe and Jefferson townships are already grumbling because they have been hitched on to the "tail of the Rochester kite," in the new judicial division. They say the County Judge from that district will be a Rochester man, and they can't help themselves. An indignation meeting is respectfully suggested.

OUR "Independent" neighbor crowed lustily, last week, over the "Democratic victories" elsewhere. How does he like a thousand majority against Bourbonism in Andrew county?

A DISPATCH from Washington yesterday is to the effect that the statement that the President's views on the financial questions have been modified since his last message, is denied on the highest authority. Not only has the President not changed his opinion, but he has freely and repeatedly expressed to all persons who have seen proper to approach him on the subject, the same views contained in his veto message. It is equally certain that the Secretary of the Treasury has not expressed any views antagonistic to the opinions of the President, and his friends confidentially assert that his forthcoming report will urge strongly upon Congress a return to specie at the earliest practicable period.

OUR Rochester correspondent, it seems, don't appreciate the fact that the election is over. Mr. Brayton received 216 more votes in the county than Mr. Booher, and, unfortunately for Rochester township and the latter gentleman, there is no appeal from this decision of the people.

CONGRESS does not meet now on the 4th of March, unless called by the President, but an effort will be made to force through a bill providing that the new Congress shall assemble at that time. The opposition are in a hurry to begin their fight with each other.

FROM the Nodaway County Republican we clip the following:

The Patron of Husbandry (Savannah) comes out with a rooster and rejoiceth loudly over the Democratic victories. The editor can not surely claim to publish an "Independent" paper any more.

THE California Grangers have been robbed by a firm to which they intrusted seventeen cargoes of wheat for sale in Europe. The officers of the State Grange indorsed the firm, and now many farmers want to know how it happened.

THE Worth County Times, which worked for Bourbonism, is now sorry for it, and last week says: "Now the political campaign is over, we intend to devote our paper to the best interests of the county." Better late than never.

THE St. Louis Globe traces the success of the Democracy to the agitation of the liquor question, and is consoled for defeat by the belief that, under the new order of things, drinking whisky will be more respectable.

IF the Democrats in the People's movement had voted for Thompson, their own candidate for Congress, he would have been elected by over 600 majority.

HERE is an editorial item in the Cleveland Herald the morning of the 4th: "Another dam disaster in Massachusetts. See election returns."

ANY man is welcome to be disgusted with this election who pleases. We feel that the Republicans of Missouri can stand it if Massachusetts can.

GENTRY's majority in this Congressional District was over 600.

DAVID REA's majority for Congress is 1,420.

ANDREW county illustrates the manner in which Republican candidates for Congress have been beaten, running almost everywhere behind the State ticket. That county gave 820 majority for Gentry, and only 16 majority for the candidate for Congress. Two years ago that county gave nearly two hundred majority for Henderson.—[St. Louis Democrat.

THE defeat of Butler in Massachusetts is a very good step in the direction of "unloading" the Republican party; and the great point now will be to see that he is not reloaded. We hope he will find it convenient to join the Democracy before the next election.—[Globe.
