DON'T DO IT.

From the "Medical Review." "Upon the first symptoms of Liver Complaint the misguided sufferer applies blue pill, calomel and other mineral poisons, in the delusive hope of obtaining relief, whereas these powerful purgatives but aggravate the disease and debilitate the constitution. Dr. Tutt has had the courage to ignore this killing practice of the old school. His remedies, drawn from the vegetable kingdom, are almost miraculous in renovating the broken down body. The letters of cured patients in the Doctor's possession are a tribute of gratitude to his genius and skill which but few can exhibit. His Liver Pills are sent all over the world. They can be found in every town and hamlet in the United States."

Tutt's Liver Pills
ACT MILDLY BUT THOROUGHLY.

Dyspepsia and Indigestion, and healthy activity those organs of the body, which, by disease or over exertion have relinquished. A single bottle will demonstrate its efficacy.

Consumption.

MR. JOHN JOHNSON, 817 St. James st., Richmond, Va., writes:

Last fall I was attacked with hemorrhage from the lungs, was reduced to a skeleton, had constant cough, great emaciation, night sweats and profuse night sweats. I was virtually under medical treatment for consumption, and had lost all hope. A friend persuaded me to try A. B. C. Tonic and Expectorant, and did so in spite of my prejudice against A. B. C. Tonic since I had taken one bottle my cough was left me, and I felt like a new man. I continued the use of the Expectorant, and am today entirely restored, and as I have not taken any other remedy than the A. B. C. Tonic and Expectorant owe my recovery to them.

Bad Blood.

MR. T. W. MARABLE, 317 N. 17th street, Richmond, Va., writes:

I have used "A. B. C. Alterative" with marked benefit to myself, and take pleasure in recommending it to any one wanting the best blood medicine and tonic the market. That it will invigorate the digestive organs, improve the appetite, and is a never-failing remedy for blood diseases I firmly believe.

TOBACCO DEPARTMENT.

RICHMOND, VA., July 14.—Offerings of tobaccos at auction on 'Change Monday, July 14, 1890, were exceedingly light.

Private sales reported to the secretary today: Wrappers, 51 hogsheads; fillers, 26 hogsheads; cutters, 1 hogshead; smokers, 1 hogshead; burleys, 2 hogsheads; dark tobaccos, 88 hogsheads. Total 169 hogsheads.

Office of the tobacco inspector reports today: Inspections—Bright, 254 hogsheads; dark, 9 hogsheads. Reinspections—Bright, 20 hogsheads; dark, 3 hogsheads; western, 6 hogsheads.

Farmer's, Wilson's, Virginia, Alleghany, Old Dominion, Crenshaw's, Neal's, Davenport's, Planters' and Merchants', Shelburne's, Seabrook's and Shockoe warehouses report to-day: Receipts, 138 hogsheads, 3 tierces and boxes; deliveries, 214 hogsheads, 4 tierces and boxes.

Office of the collector of the United States Internal Revenue reports collections for the city of Richmond to-day as follows: Tax paid cigars and cigarettes, $1,252.15; tax paid tobaccos, $5,862.24. Total, $7,114.39.

Registered at the Tobacco Exchange today:—Jos. J. Percevall, Petersburg.

Our Messrs. P. Lightfoot and Worsley, wife and son, and Louis H. Lightfoot, sail on Wednesday next from the port of New York on the magnificent Inman line steamship City of New York, for Liverpool.

Messrs. Walker, Sengstok & Co., in their circular of July 12, 1890, say: "The growing crop is in a critical condition. About two weeks ago there were local rains in a number of sections of the burley district without helping the crops as much as might have been expected. In some sections there have been no rains since the crop was planted, and there farmers have about abandoned hopes for making a crop, as plants are dying out rapidly.

"On the new lands where rains have occurred tobacco looks fairly well, though small for the season, whilst most fields look very poor and uneven. During the busy time of the wheat and hay harvests, many farmers neglected the cultivation of the tobacco fields, and allowed them to overgrow with weeds. Where cultivation has been attempted since, much of the tobacco was killed by the scorching sun and hot winds.

"From the Blue-Grass region there is also much damage by worms reported. At present the burley crop threatens to be a failure, the same as the oats and potato crops in this section, unless rains should come soon. The absence of hard frosty weather last winter and the continuous heavy rains in the spring seem to have left the ground in a condition very unfavorable for any crop."

A letter from Lewisburg, N. C., dated July 11, 1890, says: "The weather has been extremely warm until yesterday and is still very dry, and the crop is beginning to suffer considerably."

A letter to our Mr. W. R. Mallory from our Mr. Jackson Turpin, dated Cincinnati, July 11, 1890, says: "The old part of the 'Globe Warehouse' was totally destroyed by fire last night.

"I don't know what grade of burleys the Globe people had in their old house, but it is thought that they had about 1,300 hogsheads in all, and I rather think that a large proportion of them were common tobaccos."

The Richmond tobacco market was very active and strong to-day, with heavy sales of bright wrappers and dark tobaccos, and good sales of bright fillers. Bright inspections heavy to-day, and the balance of the list light. Reinspections light. Receipts large; deliveries heavy (being about double the receipts). Internal revenue collections on plug tobaccos were very heavy to-day.

C. McL.

Lynchburg, Va.

LYNCHBURG, July 12.—The receipts in our market amounted to 239,600 pounds this week, increasing the total since October 1, 1889, to 13,135,300 pounds, against 18,817,100 pounds during same period last season. Offerings are very inferior, containing little of fine dark tobacco, while the bulk consists of common grades. All grades, however, continue to be in strong demand at outside prices, and the tone of the market is very active. Crop prospects are rather decreasing, owing to the present dry spell, and some good rains soon would be very welcome.

HOLT, SCHAEFER & CO.

Louisville Tobacco Market.

LOUISVILLE, KY., July 12.—Light receipts, active demand and higher prices for burley under very light offerings, good demand for Regie tobaccos, and continued dry, but cooler weather, were the leading features this week.

New burley.—With no general rain for some weeks, we had a regular dry weather market this week, backed by light offerings from sellers, which led to a very active market throughout the week; manufacturers, as well as speculators, taking everything offered very freely. The offerings were not only light, but unusually poor in quality, hence all desirable fillers found ready buyers at higher prices generally. I quote trash fillers ½c., common ¾c. to 1c. Medium 1c. higher, and all better grades nearer outside figures, with less good and fine leaf than for some time. The highest 25½c. this week. Smokers of all grades were also favorably affected, and red trash sold ½c., common ¾c. to ⅞c., medium ⅞c. to 1c., and Good ⅞c. higher. Colory and bright trash 1c., common ½c. higher, with offering very light. Colory and bright cutting leaf very scarce and any offered sold nearer outside figures; the higher grades being entirely nominal from scarcity. Speculation not as general as sometimes, but strong enough to force the market to where it is now. Receipts from the country this week were curtailed somewhat by a strike of railroad hands on the leading road from the upper burley counties. Among the best crops sold this week were: from Green county, Ind., at $8.10 to $25.80, average $14.30; from Owen county, Ky., at $8.00 to $25.50; and Franklin county, Ky., at $18.00 to $23.50 per 100.

Old burley.—Offerings light. Low grades firmer, but all above medium nominal from scarcity.

Darks.—Of old, the offerings were large, but mostly very common and medium. Of new, offerings light. All suitable for French and Italian regies were in good demand, but at unchanged figures, excepting special Green river styles suitable for home trade cutting, as well as for France, were most active and fully higher. Dark old and new nondescript neglected, and only clean, substantial lugs in demand.

Private sales this week embraced 181 hogsheads old and new dark lugs and leaf, and 120 hogsheads supposed to be Owensboro strips, sampled here.

The growing crop.—With only partial rains for some weeks past the crop propects at present are not as favorable as they have been in the dark stemming districts, where estimates of crop are cut down 10 per cent. of what they were a month ago, owing to the crop having had a poorer stand and more dead plants, resulting from excessively hot weather, than thought at one time likely to be the case. One good general rain, however, would undoubtedly improve the situation, not yet too bad to be improved. In the upper burley country the situation is decidedly better, and in some parts all that can be desired by growers, while probably a larger area of country would be greatly benefited by a good general rain, which may come any day.

FINANCE AND COMMERCE

New York Stock Market.

Harriot & Groesbeck telegraph to C. W. Branch & Co., bankers and brokers, No. 1111 Main street, as follows:

NEW YORK, July 14.—If any evidence were necessary to prove how little outside interest was being taken in Wall street at the moment, it was furnished this morning when notwithstanding the announcement over Sunday of the passage of the silver bill by the House, the market opened as quiet as though no bill had been introduced. The tone was generally firm, however, and where there was any business it was at slightly higher prices than Saturday's closing. Final prices showed an advance of ½ to ¾ per cent. Notwithstanding the extreme dullness that exists at present, we firmly believe that the large disbursements by the Treasury Department that are to take place together with the good crop prospects and large railroad earnings must cause higher prices, and that stocks generally are a purchase on any reaction. Money ruled easy at 4 to 4½ per cent.

Chicago Market.

Messrs. S. V. White & Co. telegraph C. W. Branch & Co. as follows:

CHICAGO, July 14.—Wheat—Wheat closes steady after an uninteresting session. The general drift of the foreign news was bullish, but outside trade was so very light it had no effect. The break to 89½ was largely brought about by some liberal selling and hammering by local traders, and the bulge back on their efforts to cover. Aside from these features and a liberal decrease in the visible supply, there was nothing worth of note. Corn—Corn closed steady at 38½ for September. On the early bulge there was free liquidation, and on the ensuing break good buying developed. All reports agree that, in Kansas particularly, the crop is in a critical position, and a few days more hot weather will ruin it. Would buy on all fair declines, and stick to the long side. Oats—Oats sympathized with corn to a certain extent, and closed fairly steady considering the heavy sales by Hutchinson. Provisions very dull, and the little strength they showed was in sympathy with corn.

New York Cotton Market.

[By Telegraph.]

NEW YORK, July 14.—Messrs. Hubbard Price & Co., in their cotton circular to night, says: "Manchester spinners became free buyers in Liverpool to-day when the passage of the Silver bill by the House on Saturday was known to them, taking cotton liberally at previous quotations, and causing an advance in the arrival market of nearly three points. The principal demand was for distant deliveries. So sharp and continued was this demand that the market advanced some 14 points to close easier with a portion of the advance lost, trading in August was restricted to narrow limits, but at advancing prices, as the shorts became alarmed at the reduced stock in New York. A feature of the day was the narrowing of the premium on July over August to prevent the shipping of such interior stocks as remain unsold to this market. A good Liverpool market is expected, and a better market with us unless the weather conditions change."

Transactions in futures 42,000 bales. Futures closed firm and 3 points higher, as follows: July, 11.38@12; August, 11.34@11.35; September, 10.95@10.96; October, 10.66@10.67; November, 10.54@10.55; December, 10.55@10.56; January, 10.60@10.61; February, 10.65@10.66; March, 10.68@10.69.

In Liverpool cotton was firm; middling uplands, 6½d. Sales, 10,000 bales.

New York Financial Market.

[By Telegraph.]

NEW YORK, July 14.—Money closed at 3 per cent.; exchange closed steady; posted rates, 485½@489½; actual rates, 484½@484¾ for sixty days and 488¼@488 for demand. Government's closed barely steady; currency 6's 112½ bid; 4's, coupons 121½; 4½'s, do., 103.

In the stock market to-day first prices were from ¼@¾ per cent. higher than Saturday's closing figures; exceptional advances of 1½ on Central Pacific and 1½ on Pacific Mail. In the first twenty minutes of business there was a further improvement of ½@¾, the highest prices of the forenoon being made. During the rest of the first hour the market was heavy, and prices declined ½@¾, lowest of the forenoon having been made shortly before 11 o'clock. In the next half hour the market was dull and steady, without material change in prices, the net result for the forenoon having been an advance of ½@¾. In the afternoon the market was quiet, but firm. The net result for the day was a general advance of 1¼@1¾ per cent. over Saturday's closing. Total sales, 152,200 shares.

VERITABLE WORDS OF
REV. SAM P. JONES.

The following is an extract from a letter written by the World's Renowned Evangelist "I returned from Tyler, Texas, on the 12th. I find my wife has been taking ROYAL GERMETUER to the great upbuilding of her physical system. She is now almost free from the distressing headaches with which she has been a martyr for twenty years. Surely it has done wonders for her. I wish every poor suffering wife had access to that medicine."

Again, on February 6th, he writes:

"My wife, who has been an invalid from nervous sick headache, has been entirely cured by six weeks' use of Dr. King's ROYAL GERMETUER. Her health is perfect. In three weeks two of my children were cured completely of nasal catarrh. It is truly a great remedy."
