FINANCE AND COMMERCE.

OPERATIONS OF THE NEW YORK STOCK MARKET.

Situation of Tobacco at Richmond and other Important Centres—Quotations of the New York and Liverpool Cotton Markets—Provisions and Grain.

NEW YORK, July 1.—Money closed at 2 per cent., the lowest rate; highest 4 per cent. Exchange closed lower; posted rates, 486½ for sixty days and 488½ for demand; actual rates, 486@486¼ for sixty days, and 487¾@487¾ for demand. Governments closed steady; currency 4s, 124 bid; 4s coupons, 116¼; 4½s, 100.

Sterling exchange was weak again this morning on a very general offering of bills, and before noon all the leading exchange bankers had posted rates for both sight and sixty days at lower rates. London prices came in at material advances, and yesterday's aggressive movement for higher prices continued to-day in the stock market here. Purchases by arbitrage brokers followed by higher prices in London and covering by the shorts sent prices up materially in the first hour. There was a slackening in the pace before noon, and in the middle of the day indications pointed to more or less selling by the professional element to realize profits. The interest of speculators centred chiefly in the Sugar Trust. The price for those certificates fell off slightly in the early dealings, rallied again before noon, broke again and continued the see-saw movement during the remainder of the day. The rumors of past week that an injunction would be obtained against the dividend was realized to-day, but the news was surrounded with a mystery unusually profound. The injunction was obtained yesterday in this State, but there appeared to be no sugar refinery people in New York to-day upon whom it could be served. The story was promptly circulated that the directors were in Jersey City, out of the court's jurisdiction, mailing checks of the dividend before they could be stopped by the court process. Nobody could either affirm or deny this story. The result of these varied bits of news was the curious movement in the certificates, there being apparently no certainty in anybody's mind as to the facts in the case. There was a fairly large trading in silver bullion certificates all day long. The price did not change materially, but yesterday's rally of 1½c. per ounce fixed a level in price, which it might have been difficult to maintain, except for the fact that the Government's purchase began to-day. The announcement of the engagement of $500,000 gold this morning had no effect and was apparently viewed as being of little consequence. The engagement was generally believed to be for the purpose of meeting a contract entered into before the decline of rates of exchange. During the afternoon the market was less active and the tendency of prices downward. In the first hour to-day London houses bought 10,000 shares of Louisville and Nashville. The injunction restraining the payment of the dividend of common stock of sugar refiners was obtained from Judge Barrett yesterday. The closing prices were generally ¼@½ per cent. higher. Total sales, 175,352 shares.

New York.

NEW YORK, July 1.—Messrs. Hubbard, Price & Co. in their cotton circular to-night say: "To-day was the under day upon July contracts in Liverpool. General expectation had been that at least 25,000 bales of cotton would be delivered, but only 8,300 were tendered. The result was a surprised market and an extreme advance of from 5-64 to 9-64, which, however, was not maintained to the close, the final prices being two to three points above last evening's prices. Sales on the spot were 12,000 bales. The conspicuous features of the Liverpool market have been the comparative strength of the near positions and the better demand for the actual articles, which our cables say is an evidence of increased confidence in cotton at present prices on the part of distinctly stronger parties than those who have previously been purchased. Here the market opened at an advance of from seven to eight points, declined three to four and again improved, closing finally quiet but steady at six to seven points advance on the near positions and five to six on the distant."

Futures closed steady. Receipts for the day 1,600 bales, against 1,300 bales last week and 800 bales last year. The spot market is steady at unchanged prices. Middling uplands, 8⅜; sales, 184 bales. Transactions in futures, 46,000 bales.
