Wednes. Jan. 30 : : 1895

The name "Democrat" no longer conjures here.—B. R. T. Letter.

We trust "together" an unname should not divide us.—B. R. Tillman to the West.

Dr. Pope petitions the United States Senate to investigate election frauds in this State.

Fairfield raised the famous Gamble hog, which weighed as much as 1100 pounds, we believe. It can do the same thing again, and pocket the News and Courier's \$100.

Mr. Tillman desires a new party, we believe now is the time to organize it. The Democratic majority in Congress is doing nothing, and the people are disgusted.

Will the "Forty" let the Ring run rough-shod over them, as it did last year at the primaries? We do not like to fight an organization with its own organization.

Tillman should not say another word about Independents. He acknowledged in his recent letter to the Iowa paper, that the West should join the South and organize a new party.

The Greenville News is working hard for good roads and has been for quite awhile. They have an editorial on the subject.

The Columbia Journal has been purchased by Mr. W. T. Martin, of Columbia, for the purpose of turning it over to five printers who were out of business in Columbia.

"THE FORTY" have spoken at last. The executive committee request that meetings be held at the several county seats to elect delegates to a general conference to meet in Columbia on the 6th of March.

The call is a disappointment to us, because it proposes nothing practical, but we hope that something good will come from it.

The News and Courier has become very much interested in the "Hog." It will pay \$100 in gold to the farmer or other persons who shall see the two heaviest hogs in South Carolina during the year 1895.

APPROX, the call of the "Forty," the Register says: "THE NEWS AND HERALD expresses a sentiment which has found a little utterance elsewhere, when it, though endorsing the call, says, it is a disappointment to us, because it proposes nothing practical."

The Register wants to know why the plan of the "Forty" is not practical. We do not think that the plan is practical because the delegates are to be elected by mass meetings.

The negro preachers have issued a very strong address to their fellow-ministers to meet in a State Convention on the 14th of February to arrange for a campaign in reference to the election of delegates to the constitutional convention.

It is true that they cannot vote for Populist principles under the disguise of Democracy. This is a cordial invitation to the farmers of the South to leave the Democratic party.

The Greenville News is working hard for good roads and has been for quite awhile. They have an editorial on the subject.

It is pleasant to know that practical men in several of the upper counties of this State are taking practical interest in the roads.

The people of South Carolina are dumping tens of thousands of dollars every year in the State there are roads which have been known and dreaded by the people of three or four generations who had learned to haul.

We can improve the roads we have by making them over, by changing grades and providing for drainage.

Governor Tillman is disgusted with all the political parties and wants to organize a new one with a new name. He has been inclined this way a very long time, and it will not surprise many people that he is at last prepared to leave the Democratic party.

The ex-Governor, whom Mr. Bryan calls the "Cromwell of South Carolina," says: "I am called a 'Populist' by the Republican papers and by the Cleveland Democrats—God save the mark! Both of these names are being used to sink in the nostrils of good men. As, they are a by-word and a laughing-stock to the Democrats who believe in Jefferson and Jackson and the

Republicans who followed with Lincoln. I see no hope of relief or of saving our institutions, unless the farmers of the South quit voting the Democratic ticket and the farmers of the West quit voting the Republican ticket."

This is the platform which he suggests, and it is very good: "Equal rights, equal opportunities, equal burdens, America for Americans, an asylum for the honest, industrious homeseeker, but a terror to anarchists and lawbreakers—the rich as well as the poor.

He doesn't want any more platform than this. "Any more," he says, "will confuse and divide us on these essentials."

The ex-Governor seems to aspire as a national leader. We shall watch with interest how far he shall succeed. Perhaps he sees his light in the West.

A WORTHY CAUSE. CHARLESTON, S. C., Jan. 21, 1895. Editor of Winnsboro News and Herald.

Dear Sir—We, a committee appointed by "The Young Men's Business League" of this city, to take charge of appeal of Nebraska sufferers and such donation as might be made for this purpose; ask your kind cooperation by circulating through your valued journal, the appeal for aid of the starving farmers of Nebraska, who have had two years complete failure of their crops, and now need assistance from more favored sections of the United States to keep them from starvation.

Thanking you in advance for your kind assistance in spreading this appeal for "humanity sake," we are, Yours truly, R. P. EVANS, A. C. MUSTARD, R. H. SIMONS, J. A. ADGER, JR., I. P. O'NEILL, H. W. THOMAS, Committee.

"Fellow citizens of South Carolina: In consequence of the complete failure of the provision crops of Nebraska hundreds of families are suffering the pangs of starvation. Additional horrors are given to their lot by the fact that the unfortunate are exposed to the severities of a winter unusually arduous even for that section.

"These destitute farmers have appealed to their fellow-citizens of the Southern States for aid. Neighboring States have heard their cry of distress and their citizens are opening their hearts to them in this hour of terrible need."

"The Young Men's Business League of Charleston has undertaken to collect and forward any supplies that the charitable people of South Carolina can spare for this deserving purpose. The contributions which are asked are corn, meal, meat, clothing and money. The farmers of this State have been especially blessed by Providence with a superabundance of corn, and it is believed that they will be glad of an opportunity to contribute to the relief of their fellow farmers of Nebraska. The railroads have generously consented to forward any supplies for this purpose to the headquarters of the League in this city, from which point they will be forwarded in bulk to their final destination. The need of the sufferers is urgent."

All donations should be marked "Y. M. B. L.," Charleston, S. C. For Nebraska sufferers. R. R. ds., will transport free of charge.

This is a worthy cause, and a gift, however small, will amount to a great deal when many give. THE NEWS AND HERALD will take charge of any goods to be shipped. Who will start the good work?

Cotton is not King in Darlington. Darlington County makes a showing in tobacco that any county should be proud of. The News and Courier is advertising every advantage South Carolina has and devotes the entire front page of its Sunday issue to tobacco in Darlington County.

One of the best and strongest features of the tobacco industry can be shown right here by giving the results of an interview with Mr. W. T. Flowers.

The tobacco crop is as well adapted for small farmers as it is for the larger planters, and care and attention always show profitable results. Mr. Flowers planted five acres last year and gave it his personal care and attention. He gathered five thousands pounds from the field, which was not quite five acres, and sold the entire crop for \$748.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used it, sing the same song. It is a powerful tonic to the system, and cures all ailments of the system, and cures all ailments of the system, and cures all ailments of the system.

W. J. Roddey, Manager, Rock Hill, S. C.

WYLLIE VS. ARMOUR. The Charleston News and Courier has pitted Mr. H. S. Wyllie against Mr. Armour for hog raising. It speaks editorially, as follows: Mr. C. W. Kimball, the expert hog raiser of Rock Island, Ill., who is going to Louisiana to raise hogs for the Armour hog units in Chicago, stated in an interview published a few days ago that he proposed to feed his hogs in Louisiana on garden peas, and would be well satisfied if he produced hogs averaging 300 pounds net at 1 year old, as the result of his venture.

But, however this may be, there are no raisers in South Carolina who can raise hogs far more cheaply than Mr. Kimball proposes to raise hogs, whatever his peas may cost him. Mr. H. S. Wyllie, of Fairfield county, reports that he succeeded in raising several last year on "sorghum and potatoes" at a cost not exceeding 3 cents a pound, and other growers in other counties have done nearly or quite as well by feeding cotton seed, buttermilk and such things, "with a little corn or meal" in the winter months.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

A CURIOUS CALCULATION. Around the World 206 Times. An eminent physician has made a curious mathematical calculation in giving the workings of the human heart in a lifetime. He shows that in a lifetime of 84 years the blood as it passes through the heart is thrown a distance of 5,150,880 miles, which, in a continuous stream, would reach around the world 206 times!

Keeping in view this constant strain on the heart, and taking into consideration the abuse it receives from over-exercising, alcoholic and other stimulants, it is not wonder that it finally becomes affected, refuses to perform its work, and causes death. The fact can be readily understood that one in four has a weak heart, also the importance of keeping that organ as soon as its affected condition is in the slightest degree manifested.

Reader, if you have any reason whatever for believing your heart to be affected, you should attend to it at once. Do not hesitate. Many persons who suddenly die of this disorder have never suspected its presence.

Joseph Boody, Pierpont, N. Y., writes: "Three years ago I began to have difficulty in breathing, the heart beat, and my limbs and ankles were badly swollen. Physicians said I could not live a week, and I was told I would die. I bought a bottle of Dr. Williams' Pink Pills for Pale People, and after taking a few bottles, the swelling gradually subsided, and I was able to get about on my feet. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by several physicians, and sent hundreds of dollars away for medicines, all of which failed to do me any good. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by several physicians, and sent hundreds of dollars away for medicines, all of which failed to do me any good. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by several physicians, and sent hundreds of dollars away for medicines, all of which failed to do me any good. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by several physicians, and sent hundreds of dollars away for medicines, all of which failed to do me any good. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by several physicians, and sent hundreds of dollars away for medicines, all of which failed to do me any good. I am now a new man. I cheerfully recommend this medicine to all who are afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side.
