CLOSING QUOTATIONS OF MONEY.

Offerings and Sales at the Richmond Tobacco Exchange—Internal Revenue Collections—Foreign Advices.

NEW YORK, Jan. 11.—Money closed at 3 per cent; highest, 3; lowest, 2½. Exchange closed steady. Posted rates, 484@486; actual rates, 482@483½ for sixty days and 485@485½ for demand. Governments steady; currency 6's, 101 asked; coupon, 116½ bid; extended 2's registered, 99 bid.

Dealings on the Stock Exchange this morning were on a very large scale. Up to noon a quarter of a million shares had been marketed. The principal trade was in Reading, Atchison, New England, Louisville and Nashville, St. Paul, Whisky Trusts, Colorado, Columbus and Toledo, Ann Arbor and North Michigan. The opening was very weak, with prices generally lower. Whisky Trusts were specially weak and declined 5 per cent. in the first hour. The others strengthened shortly after the opening, but outside of New York and New England, which advanced ½ per cent., the improvement was very slight. In the hour to noon the market was dull and there was a considerable decline in prices. At noon values, except in a very few instances, were only slightly changed from those of Saturday. The dealings continued on a large scale throughout the afternoon, but the course of prices was very irregular. Every advance brought out large offerings and in this way values were kept in a very unsettled state. Toward the close realizing became general and the market closed weak, with prices generally ½ to 2 per cent. lower. Reading was actively held and bought early in the day on its remarkably favorable statement, and on the announcement that the coal settlements for 1892 had been fixed and were very favorable to the road. Boston houses sold all morning during the same hour. Sales, 523,560 shares.

New York Cotton Market.

NEW YORK, Jan. 11.—Messrs. Hubbard, Price & Co., in their circular to-night, say: The Liverpool market declined 3-64 to 4-64 at the opening to-day and had lost another fraction at the close. In New York at 1 o'clock prices were about 3 points lower than on Saturday and spotties lower than the lowest figures previously reached for the March option. The decline in Liverpool as our cables advise is due to the larger estimates called from this side. Here the weakness is ascribed to the disappointment resulting from the continued large receipts. New Orleans failed to rally to-day quite as much cotton as had been expected, but the other ports are much better than last year in most instances and the total for the day promises to be 22,000, against 18,000 last year. Sunday receipts for the half week are 2[illegible]0 against 3[illegible]00 last year, and the weather is generally admitted. The condition of the market during the past few days seems to be a matter of doubt to the period of consideration, the reaction which always follows a case of extreme weakness, although the patient may have passed the crisis of his disease. People who have acted with confidence, at cents a pound, are now apparently afraid to hold it, and we see day to day throwing it over and thereby checking an incipient reaction toward a higher level. Meantime we continue to note a diversion of outside interest and increased speculative purchases on the part of the investing class. At 1 o'clock the market declined 1[illegible] points more and for the liquidation of an important long interest, but toward the close the constant absorption of cotton by a fresh buying element commenced to show its effect, and the market recovered its extreme decline, and is now firm about 2 points below last evening. January contracts have to lay still below a [illegible] and on this basis many are coming forward the article as very reasonable.

Receipts at the ports 8,000 bales against 26,000 last year. The spot market is quiet at 7 1-16 with a decline in quotations. Middling uplands, 7.06 cts. Sales, 100 bales. Transactions in futures, 140,000 bales. Sales by sample, f. o. b.: No. 2, 28½@30c.; No. 3 white, 3[illegible]@30c.; No. 3, 29@30c.; No. 3 white, 30½@32c.

Wheat—Wheat options opened weak and 5@7c. lower. Selling orders by foreign houses and lower cables contributed to the weakness.
