On the lake or going through the cool air in a Ford these autumn days makes one long for a good, warm Mackinaw. Even if you are not long on the change, why you will fare well if you buy of Maysville's Foremost Clothiers.

FIGHTING FOR ITS VERY LIFE, KITCHENER'S WORD TO ENGLAND

The battle continues to rage about Lille, nothwithstanding the fact that bombardment by both armies has reduced that town to a mass of debris.

The news from France is received with great gloom but seems likely to prove a greater stimulus to recruiting which has been much more active since Lord Kitchener's address on Monday night. The King's speech from the throne at the convening of parliament carried out the ideas expressed by Kitchener that the nation was fighting for its very life.

MASON COUNTY FEELS EFFECTS OF STOCK QUARANTINE.

Several car loads of stock belonging to Mr. Athelston Owens of this county, were caught by the quarantine order issued yesterday on this state. They were at the East End stock pens of C. & O., ready to be shipped. This stock is entirely free from any disease, and will be taken back to Mr. Owens' place.

Several bunches of infected stock have been shipped into Maysville from distant points, but they have been isolated and the spread of the disease is being carefully guarded against by local authorities.

The story of every child is a story of growth and change—

A change too gradual and subtle for even the watchful eye of a mother to detect, or for memory to recall.

Only in pictures can the story to told, and a record of the childish features and expressions kept for all time.

A good photograph now and then, will mean everything to you—and to them, in after years.

CLEAN UP.

This is the season that every farmer should make on effort to clean up about the premises. All machinery should be cleaned, oiled and placed under shelter. Exposure to the elements is far more injurious to farm implements than well directed use. Therefore, the farmer who takes good care of his implements will have them for use much longer than his neighbor who allows them to remain under the old apple tree all winter. Mow any weeds that may be standing around the homestead and driveways. The dead weeds and rubbish in the orchard should be raked up and burned, as such material affords a fine place for orchard pests to pass the winter.

INTERESTING ADDRESS

Delivered By Prof. W. J. Caplinger Last Night in Fourth of "Win-My-Chum" Week Services.

The League rooms of the Third Street M. E. Church was again crowded last night to hear Prof. Caplinger's excellent address on the subject of "Influence, Voluntary and Involuntary." Prof. Caplinger made his subject clear by getting right at the root of the word, "Influence," and then he very aptly made his own application of the word in connection with the Christian life.

These services are creating an interest far beyond the expectations of those in charge, and now that such success has attended the beginning they are looking for great results for good in the closing meetings.

The speaker for this evening will be Rev. A. F. Stahl, pastor of the Christian Church. The subject: "Coming Out Openly For Christ." There will be special music by a sextette. Service begins at 7:15 and closes at 8:15. Don't miss one of these meetings. Come out and bring a friend with you, for it is the object of the meeting to win friends to Christ.

YOU CAN'T SHOO 'EM OUT.

(Dover News.)

Voting out saloons is like chasing blackbirds. Shoo them out of one tree and they fly to another. Voted out of Mason county and they circled around and lit in Ohio, just across the river. Out of Maysville into Manchester and Ripley. Just seems like the foot things won't go off somewhere and die.

CHARACTER COUNTS.

A few years ago James Stillman, then president of the National City Bank, New York, said to a friend who asked him if there was any minimum required by the bank of which he was then president in order to open an account in that bank, that he might gladly accept the account of the man who had only one dollar with which to start; for the man's character might be worth far more to his bank than a deposit of a good many thousand dollars.

Furthermore, Mr. Stillman said that in his long experience he had learned that there is only one real criterion of success and that is character.—Bank Notes.

The Ford Motor Co., announces that in the month of September there were sold and delivered 21,976 Ford cars. This was a gain of 11,479 cars over September 1913. This is significant not only because it shows that the Ford production is rapidly being increased to meet the stupendous influx of orders, but also because it demonstrates that the Ford Motor Company is maintaining the 300,000 car-schedule necessary to give Ford purchasers between August 1st, 1914 and August 1st, 1915, a share of Ford profits.

We have just received a car-load of the new 1915 models, and can give you immediate delivery. There's nothing to gain by waiting, so order now and enjoy your car this fall and winter.
