SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' To-day I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Geo. A. Gorgas, Harrisburg, Pa. Vinol is sold in Steelton, Pa., by John L. Porr.

Thousands of Fruit Trees Planted in York County

Special to The Telegraph

Dillsburg, Pa., April 29. — Many thousands of peach and other fruit trees are being planted this week in Monaghan township. Levi M. Myers has planted 4,000 peach trees on his farms and he now has 160 acres planted with that fruit. With the exception of the 4,000 trees just planted all are of a bearing age and at the present time the prospects are for an exceptionally large yield this year. Apple trees are being planted in large numbers. A great many of the fruit growers plant the apple and peach trees in alternate rows, as the life of a peach tree is only from four to six years, and when these are removed the apple trees begin to bear, thus saving the use of the same ground for the length of time, and at the same time the apple do not hinder the peach trees.
