Freedom, national; Slavery, sectional!

The Signs of the Times.

However unwilling some men may be to recognize an unpleasant fact, no reasonable, intelligent man, can shut his eyes to the truth that SLAVERY IN AMERICA WILL DEMAND THREE MORE CONCESSIONS IN THE PRESIDENTIAL ELECTION OF 1860. Since the annexation of Texas, that dark power has been steadily advancing, until now it has every department of the Government under its control—Legislative, Executive, and Judicial. It now demands—

FIRST. That the Foreign Slave-Trade be put upon the same footing as the Domestic slave-trade—that the importation of slaves into Georgia, &c., be allowed as well from Cuba and from Africa as from Maryland and Virginia—and that the brand of "piracy" on that very lucrative and respectable business be taken off. The test vote in Congress, at the late session, on that subject, showed more men in favor of African free trade in slaves, than at first advocated the extension of the slave power by stealing Texas. Slaves are constantly imported from Africa, as proved by the "Echo" and the "Wanderer" trials; and Southern Juries—under oath—will not convict the undoubted violators of the plain law against them. The Slave-Power at Washington will not agree to such a mutual right of search for slavers as is required to redeem our plighted faith to the world to put down that infamous traffick. Large associations are formed in the South, for the purpose of nullifying the law against the African Slave Trade in FORM as it now is in FACT. They intend to secure men in power under whom that law will be a dead letter if it is not repealed.

SECOND. They will demand Congressional intervention in FAVOR of Slavery in the TERRITORIES. The delusion of "Popular Sovreignty" having served one end in the election of Buchanan, but having failed of the subjugation of Kansas as was likewise desired by the Dark Power, they now turn about, and will be content with nothing short of a prohibition of any right in any Territory to keep out or to abolish Slavery. Having procured from their Supreme Court, and from their President, an endorsement of the dogma that "the Constitution of the U. S. CARRIES Slavery into the Territories," they now take ANOTHER step, and declare that the same U. S. Constitution PROTECTS Slavery there, in spite of "Popular Sovreignty." Buchanan's new organ, THE CONSTITUTION, occupies this ground distinctly. Its echoes, North and South, are preparing the public mind for the same degradation by cautiously advocating a "SUBMISSION of the WHOLE QUESTION to the SUPREME COURT"—that is, to the five slave-holders, whose opinions in favor of slavery no one doubts! (We might as well "submit the whole question" of Temperance to five inveterate topers, as to "submit the whole question of Slavery" to the five "Dred Scott" men—sooner trust a pack of famishing dogs with our dinners!) Gov. Wise of Va., has lately written a twenty-eight column letter, in which he comes to the honest conclusion that "popular sovreignty" is a humbug, and that the Wilmot Proviso is right in principle, for he argues that CONGRESS should "interfere" in SUPPORT of Slavery in the Territories. The whole South—Administration and Opposition—is running a race to see which can sustain this doctrine most plausibly and forcibly. Douglas himself, it is believed by many, while retaining his own views, will soon announce his willingness to surrender, unreservedly, on the pretext of "submission to the Supreme Court!"

THIRD. The annexation of Cuba will be made a greater "necessity" than ever, since the failure of Buchanan to obtain Thirty Millions of Dollars, to be used by him SECRETLY for that object. Cuba is much nearer ours, now, than Texas was at the first effort. The cunning Southern manipulators of the Democratic wires are actively arranging all their plans, and having the Convention in Charleston, the hot-bed of Pro-Slavery Nullification, are prepared and determined to mould and knead the Dough-faced party into exactly the shape they desire—satisfied that, now, there is nothing too mean or wicked for the word "Democracy" to commend to the votes of "their white slaves at the North!"

—The Republicans of the Union will oppose each of these schemes. They will be the only power to thwart these "rule or ruin" politicians with whom Human Oppression is the one end of existence. Around one of these flags the whole nation must rally. God or Mammon—Right or Wrong—Anti or Pro-Slavery—there is no middle ground. The Cowboy plea of "submission to the Supreme Court" will not avail, for that is merely a branch of the Slave Power, and the People MAKE Presidents and Supreme Courts. It will be for the voters directly to decide whether Slavery shall ADVANCE, or shall RETROGRADE. "Trust in God and keep your powder dry," is our advice for the present.

The Packer paper at Harrisburg, states that Forney and his friends all aided the Democrats in the recent election in Philad., and significantly asks, if the *united* Democracy can not carry Philad., how awful must be their defeat when *divided?*

"Just so!"

FOR THE STAR & CHRONICLE.

An Improvement proposed.

The object of all conventions is to get as near as possible the minds of the masses for whom they act, but who can not all assemble together. As an inevitable consequence, the number of delegates acting should be distributed in as equal a proportion as possible among those for whom they act.

But it has long appeared to many that our county nominating conventions are not founded upon this just and equitable principle. In our State and National Conventions, counties or states are represented in proportion to their constituents, and why should it not be so among us?

Our conventions, comprising only two from every township whether large or small, are little bodies, without much interest or influence, and their fewness in number gives more chance for bargain, intrigue, or corruption, for the fewer men there are to be operated upon, the easier it can be done, and thus the people are often thwarted in their desires.

For these reasons, allow me to urge upon our standing committee the propriety of calling our next convention upon the basis of two delegates from every district, and then giving one additional delegate to each for every fraction of twenty-five or fifty voters over fifty, to be estimated from the last previous State or National vote. This would give us, I suppose, a body of 50, 60, or 75 men. Districts polling 100 or 200 votes would then have what they are entitled to—more votes than those with half the vote. This is the system Lancaster and other counties have adopted, and everywhere they are coming into the same plan. Such a convention would be much larger, more enthusiastic, and more popular. It would spur up each township and borough to get out its whole vote every year, and to increase it, in order to keep or increase their power in county conventions. At the same time, the smaller districts would—as they always do—be able to take good care of themselves. The plan is certainly just and honest, and let us try it one year.

REFORM.

News Items from Other Counties.

Joseph M. Church, Esq., a native of Rhode Island, but a leading member of the last Penn'a Legislature, from Philad., died last week very suddenly in New York city, in the prime of life.

Several families of Mormons passed over the Cattawissa Railroad, last week.

A fire in Pittsburg, Saturday last, destroyed ten steamboats, and it is feared that the steward and two boys perished on one of them.

The Bellefonte papers record the robbery of seven stores in Milesburg, and the stealing of two horses in Centre county. The villains seem to be spreading out from the cities.

Judge Vondersmith, of Lancaster, was last week convicted for forging land warrants to a large extent, some years since. He was sentenced to twenty year's imprisonment, a fine of five thousand dollars, and make restitution to the Government to the amount of thirty thousand dollars. He is forty-six years old. It is a good thing to see even one rich rascal punished.

The Republicans of Bradford county nominated Wm. C. Bogart, G. H. Watkins, and Jas. H. Webb, Delegates to the State Convention, and denounced any attempt to make the State Convention subsidiary to any National Convention or Presidential candidate.

A. M. Coe is appointed Postmaster at Lock Haven, vice T. M. Caller.

The number of merchants and dealers returned to the Treasurer of Chester county this year, as subject to license, is 446. The number last year was 396, showing an increase of 50.

The corner-stone of the new Ger. Ref. church, above Millheim, will be laid on Sunday, 15th of May.

A Wild Cat was killed in Valley township, Montour county, by Peter K. Snyder and Alfred Moyer. It measured four feet in length, and two feet in height. The animal was first discovered near the barn of J. B. Moyer, and being closely pursued by a dog, took refuge up on a tree, when it was shot by Mr. Snyder. It fell to the ground completely stunned, but, after recovering, whipped two large dogs. This is the second wild cat, killed in Valley township this spring.

David Mann, one of the oldest citizens at Bedford, died a few days ago. He was Auditor General of the State under Gov. SHULTZ, and filled other important public stations, and was considered one of the most prominent and talented men of that day.

FUNERAL PROCESSION.—On Monday last, we witnessed a large and solemn funeral procession, pass our office, bearing to its last resting place, the remains of the wife of Edward Crompton, pastor of the Primitive Methodist Church. The procession was headed by the Church Choir, chanting the solemn announcement, that the deceased had departed to "that bourne from whence no traveler has e'er yet returned."—*Danville Intelligencer.*

Charles Gass was removed from the county jail to the residence of his father in Sunbury, by a *habeas corpus.* Recognizance was entered into for $10,000 for his appearance at next Court. On account of the injuries under which he is suffering from the drunken spree in which a knife was used, it was thought proper to remove him.

SPECIAL ELECTION.—On account of a tie vote between Peter Hanselman, Martin Kistner and Wm. R. Dunham, at Northumberland, for Councilman, a special election was held on the 2nd inst., at which Peter Hanselman and Wm. R. Dunham were candidates. The former received 114 votes and the latter 40.

Mrs. Bagiola, the mother of Mrs. Sickles, was formerly a resident of Sunbury. She was born at Croton Falls, West Chester county, N. Y., her maiden name being Cooke. At the age of fourteen she was adopted into the family of Alonza Deponte, in New York, an Italian celebrated for his literary and musical acquirements. Mr. Deponte came from New York to Sunbury, where he resided for several years, in the house at the corner of Market and Deer streets, now occupied by Edward Gass, at which time Miss Cooke resided with him. Upon the return of the Deponte to New York, Miss Cooke married an Italian music teacher by the name of Bagiola.

Rev. D. J. WALLER, Pastor of the first Presbyterian Church of Bloomsburg met with a serious accident on last Sabbath week, at Orangeville. In assisting to unhitch the horses from his carriage, at the Church, whither he had gone to preach, he was severely kicked on the side by one of the horses. We are gratified to learn, that his injuries were not internal, and that he is recovering from his wounds.

DAMAGES.—The suit between Benjamin Hendricks and the Northern Central Railroad Company, for damages done to the property of the former by the construction of the road of the latter, was removed from Northumberland county to the Court of Common Pleas of Schuylkill county. The case was tried before a jury at Sunbury, and damages of $6000 awarded. The case was then removed to Schuylkill county by the Company, and the damages recovered were reduced to $3,200.

Gen. Jno. Potter, formerly of Lewistown, has been elected Mayor of Fon du Lac, Wisconsin.

The Steamboat has run ashore opposite Sunbury, and causes much inconvenience.

A novel proceeding says the Lancaster (Pa.) *Express*—novel at least in this State—took place in the Court of Common Pleas, on Saturday. Catharine Zellers, a German woman, made formal application, and was sworn and admitted as a citizen of the United States. Some think she is one of the "strong-minded," and is getting ready to vote in "the good time coming;" but the more probable supposition is that she wants to sell "redeye," and has taken this preliminary step towards applying for a license.

Dr. Deshler, assisted by Drs. Smith and Hillibish, amputed the leg of Miss Elizabeth Moyer (of Millheim)—spraining above the ankle about 17 years ago, and then again about 7 years ago, made amputation necessary. The patient was put under the influence of chloroform, and when awakened, would not at first believe that amputation had been performed. Dr. D. performed the operation in less than 2 minutes.

The dry weather, last of April and first of May, caused many fires in the woods, which darkened the atmosphere, and in some cases destroyed a large amount of valuable lumber and other property.

A horse, stolen from Michael Sheadle, of Nippenose Valley, was hitched to the roadside for some purpose, when he broke loose and returned home dragging with him a large post.

John Young, the oldest Merchant in Sunbury has sold out his house and storeroom to J. Weiser Bassler, for $3,850, and retires from business.

Gov. Packer has signed the bill passed by the late Legislature, authorizing the Courts of Common Pleas to change the *names* of persons. It is a great pity that some court on earth could not be invested with power to change the *nature* of individuals. There would be work for such a judiciary.

The real estate of ex-Gov. David R. Porter at Harrisburg, consisting of the large furnace, his dwelling house on Market street, and other valuable property, was advertised to be sold last week by the Sheriff. The sale was stayed. The personal property was sold.

A police officer named Cunningham shot a man named M'Crory, a tobaconist in 7th street, below Lombard, Philadelphia, on Friday, for refusing to go with him; the policeman having a warrant for his arrest on the complaint of his wife. The unfortunate man drew a knife with which he cut his tobacco, and threatened the officer, when the latter drew his revolver and shot him dead. The officer was committed.

BODY FOUND.—The body of an unknown man was recently discovered lodged at the head of Boyer's Island in the Susquehanna river below Sunbury. The deceased had no marks of violence about his person. There was nothing about him by which he could be identified; he was apparently from 25 to 35 years of age, about 5 feet 8 inches high, of ordinary build, black hair, and a fine set of teeth, several scars were on his left arm; had on a pair of dark pants, vest, roundabout and a pair of boots; on his person was found a silver lepine watch, 60 cents in silver, and two lock keys.

☞Dr. D. H. B. BROWER, of the late *American*, having returned from Danville to Butler county, was complimented with the public presentation of a gold watch from his personal friends.

SENSIBLE.—The Governor of Louisiana has refused to appoint any Delegates to that annual sectional farce, the "Southern Convention," and the Governor of Georgia it is believed will do the same. These conventions would be pronounced "treasonable" at the North, and will now probably die of self-disgust at the South, which is really not afraid of the North, nor does it want (or dare) to dissolve the Union.

☞Last accounts from Pike's Peak emigrants generally represent great suffering from starvation, and desperate prospects ahead. Others, however, still encourge the movement, probably intending to organize the disappointed and reckless gold-seekers into marauding bands for the invasion of adjacent parts of Mexico.

ANOTHER.—The people of Connecticut having defeated Wm. D. Bishop in his hope of re-election for Congress, James Buchanan has made him his Commissioner of Patents! Thus, for the people to condemn is for the President to honor.

John Doherty, a Dem. member of the State Senate, from New York city, died at Albany on Wednesday the 20th inst., the day after the Legislature adjourned. He was a man of intemperate habits.

ENLISTING FOR CUBA.—We observe by Southern papers that recruiting agents are traveling through the South endeavoring to enlist men for expeditions against Cuba and in many instances with considerable success.

Two Irishmen, M'Namee and Finn, were hung on Friday last, in Chicago for murder

The Cuban Revolutionists Swamped.

A few weeks ago, a journal in New York announced, with a great flourish, that a "band of patriots" had started from this country for Cuba, and that the next news would show that the island was in a state of insurrection. The public have waited patiently for the news of this revolution, but every arrival from Havana showed a most provoking quietude in political affairs. Yesterday, however, a telegraph despatch brought intelligence of the revolutionists, and the result of their patriotic enterprise. A filibuster schooner arrived at one of the ports and attempted to land thirty-five men, but fortune did not favor the brave. The boat was swamped and the heroes returned with wet jackets. The schooner then sailed for Hayti, the expeditionists not meeting with that sympathy from the inhabitants which they expected, and the Spanish steamers of war being quick in persuit. By the last accounts, the "patriots" were in a destitute condition at Hayti, the American Consul having refused them any assistance. We can scarcely imagine any more stupid adventure than such enterprises as this. A well-appointed army would probably find some difficulty in taking Cuba, guarded as it is by sea and land. For a handful of men to make such a venture seems like the highest of foolhardy daring or madness. It is probable, however, that the individuals engaged in it have been deceived by the falsehoods of the Cuban Junta, a band of heroes, who, from their safe and comfortable refuge in New York, are continually putting forth false manifestoes of the progress of the revolutionary feeling in Cuba, and persuading heedless young men, and persons of desperate fortunes or love of adventure, to embark in such crazy undertakings. The unfortunate ending of all these fillibuster expeditions ought to teach a lesson of wisdom and put an end to the folly and crime involved in the undertaking.—*Phil. Ledger.*

KENTUCKY.—The campaign was opened in Kentucky, last week, at Lebanon, where the two candidates for Governor met and addressed the people. Bell, Opposition candidate, took the most ultra pro-slavery ground. He took up these two questions: 1st, Has Congress the constitutional power to protect slavery in the Territories? 2d, Ought Congress to interfere to protect Southern property in slaves in the Territories?—and answered both squarely in the *affirmative*, asserting that it was the bounden duty of Congress to protect, not only against any actual prohibitiom, but against any "unfriendly legislation" on the part of a Territorial Legislature. He, and those who support him, are the men who ask us to give up the Republican organization and unite with them in electing a President of their own kidney in 1860!—*Pittsburg Gazette.*

[Letcher and Goggin, the two candidates for Governor of Virginia, are also both trying to see which can be the hottest in defence of Slavery—and Goggin's friends talk about fooling Republicans into a "Union" in a Presidential Convention!]

☞And Netherland, the Opp. nominee for Governor of Tennessee, "out-Herods Herod" in bragging up Slavery and abuse against its disbelievers. He is the brute that created that great excitement in the Presbyterian church by his barbarous whipping of his slaves behind the meeting house. He deserves a *Nether-land* vote!

KILLING, NO MURDER.—The Sickles trial has resulted in the acquittal of the prisoner, and he is congratulated in the most extravagant terms by counsel, jurors and witnesses, as if he had done a very commendable act. The fact goes to show how little human life is regarded in this fast age. Whether society will be improved by this departure from the strict principles of law and justice, remains to be seen. If every injured husband and wife should, by this sort of encouragement, be induced to take the law into their own hands, there is a fair prospect that the population of our large cities will in a short time be considerably reduced.

Since Herbert and Sickles, each of whom shot down and killed a man in broad day and before several witnesses, in Washington, have been found "not guilty" of the crime of murder, some have inferred that the right to kill any obnoxious individual is among the privileges conferred by the Constitution on *Democratic* Members of Congress. Whether the same rule would apply to a *Republican* Congressman, is not so well settled, such a case not having yet occurred.

A Washington correspondent of the *Tribune*, speaking of the acquittal of Sickles, says, "It may now be regarded as settled that while Mr. Crawford is Judge, no member of Congress can be convicted of a criminal offence."

☞There has been no *harder-worked* man in public life these many years, than WM. H. SEWARD. A journey to Europe, as his only chance for relaxation from crushing personal, political and professional cares, has been long hoped for by him, and last Saturday he entered ship at New York for that purpose. He was honored with an immense and enthusiastic escort, who called him out in a speech, in which he stated that while he should seek for a time to forget all anxieties, his love for the great cause of the good of mankind, at home and abroad, was undiminished, but that he left its defence and advance, here, in good hands. He anticipates returning in the fall, and we trust will come with plenty of healthful vigor for twenty years more of official labors.

A Western writer says the number of persons going to Pike's Peak is "getting to be a serious matter."

STATE CONVENTION.

The citizens of Philadelphia and the several counties of this Commonwealth attached to the People's party, and all others who are opposed to the unwise and extravagant measures of the National Administration, are requested to send delegates, equal in number to their representation in the General Assembly, to a Convention to be held at HARRISBURG ON WEDNESDAY THE 8TH OF JUNE, 1859, to nominate candidates for Auditor General and Surveyor General, to be voted for at the General Election in next October.

HENRY M. FULLER, *Chairman.*
WM. B. MANN, *Secretary.*
