THE UNION FLAG.

Jonesboro', Tenn., May 24, 1867.

LOCAL ITEMS.

To Delinquent Subscribers to the "Union Flag."

Many of our subscribers are indebted to us, and as the Third Volume begins with the present number of the *Flag*, we earnestly request all who are indebted to us to send or bring us the money. Should this notice be disregarded, we will be compelled to collect our accounts by legal process.

Schools, &c.

For the last ten months, the Rev. A. R. Bennick, formerly of North Carolina, has had a large and interesting school at Johnson's Depot, and on last Thursday and Friday that community, we have been informed, had the pleasure of witnessing the examination of the classes and the exhibition. The pupils of both sexes acquitted themselves creditably, both in their examination and all through the exhibition. Mr. Bennick has the happy faculty of teaching not only the "young idea how to shoot," but, also, the older pupils how they may become proficient in their studies and ornaments to society.

We trust that the citizens in and around that place may soon build a house for school and other purposes, that may be an honor to the place.

Laurel Hill School.

Henderson Presnell has had charge of the above named school for many months past, and all through the sessions he has had a crowded school. Mr. Presnell is a native Tennessean, and a fine scholar. He ought to be at the head of some of our colleges of learning, as his qualifications as a teacher are second to none in the State. He is a young man of strict morals and very affable in his manners. His present session will close the last week in this month; at which time there will be an examination of the scholars in their studies, commencing on Thursday and close with an exhibition on the following day.

We shall be happy to contribute all we can in our colonns, towards the advancement of all loyal schools.

Take Notice.

The Auxiliary Councils of the U. L. A. in Washington county are earnestly requested to send delegates to the meeting of the Grand Council next Tuesday night, as matters of the highest importance will be under consideration. It is absolutely necessary that there be regular correspondence between the Grand and Auxiliary Councils to secure unanimity of action.

Rail Road Accident.

Last Sunday night the Eastern bound mail train met with an accident at Whitesburg. From the damage done to the cars, it would seem impossible that no one should have been injured or killed, which was most fortunately the case. It is supposed that a disaffected and discharged employee of the Road removed the pin which fastens the switch rod to the rails, so that when the engine struck the rails they moved so as to carry the whole train on to the sideling. The train was going at a good rate, and ran into a number of freight boxes on the sideling, which resulted in "piling up things promiscuously." The boxes were thrown from the track and considerable injury done to the engine.

The atrocious wretch who could thus deliberately execute a plan by which unoffending and unknown persons are jeopardized to take revenge upon a Rail Road Company for a private wrong, should, in the event of conviction, receive the severest penalty the law inflicts. We hope he will be discovered and treated in the manner he deserves.

☞ Lewis Runyon, whose commitment to our Jail we noticed last week, was tried before J. F. Graham, Esq., on last Saturday, and bound to Court in a bond of two thousand dollars, on a charge of concealing and trading a stolen mule.

It is high time that the punishment for horse-stealing should become severe and examplary. In other words, that the hangman's rope should be made a salutary terror to horse-thieves.

☞ Two promising young gentlemen, hailing from that part of Dixie called Sullivan county, were admitted into the Washington county Boarding House last Sunday evening upon a recommendation of a son of Vulcan, living in the above mentioned locality. They demonstrated their claims to their present position by appropriating to their benefit about forty dollars worth of Black-smith tools.

☞ Somebody will lose a watch, if he is not careful. Read Lieutenant Atkinson's advertisement and govern yourself accordingly.

☞ We have been told by a number of farmers in the last few days, that they have never seen a more flattering prospect for an abundant crop of wheat at this stage of its growth. If no accident befalls it, we will have a surplus as large if not larger than any year previous to the war. The Lord is smiling upon us again and we should repent of and abstain from those sins which have provoked his sore displeasure toward us.

Return Them.

I loaned a friend two volumes "Youngs Night Thoughts" one year ago. My said friend will return them if he knows himself for I *have* forgotten who he is.

may17w3 SAM. J. KIRKPATRICK.

☞ Attention is called to the advertisement in another column, of Madame H. A. Perrigo, of Buffalo, N. Y., the great Astrologist and Clairvoyant. Madame P. can be consulted by letter, on all affairs of life, past, present and future.

☞ Read the advertisement of Messrs. Berger, Shutts & Co., in another column, headed, "Afflicted, suffer no more."

☞ Deficient appetite arises from a disordered stomach, and is best improved by plenty of exercise and mild purgatives of *Roback's* Sugar Coated Blood Pills.—Roback's Stomach Bitters will also prove very beneficial.

The Economy of Health.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at $2 a day, and their annual loss by sickness at an average of ten days each in the year. This gives a total loss of $240,000,000, a sum three times as large as the whole cost of the General Government, including the Army, Navy, Post Offices, Legislators, Foreign Ministers and all. The amount weighs over six hundred tons in pure gold.

A large proportion of this costly suffering might be averted by attention to diet, cleanliness, and above all, by the proper use of the right remedy in season.—When a 25 cent box of Ayer's Pills will avert an attack of illness which it would take several days to recover from, or a dollar bottle of Ayer's Sarsaparilla, will expel a lurking disorder that would bring the sufferer to his bark for weeks or months, does it take any figures to show the good economy of the investment? When Fever and Ague is rankling in your veins, and shaking your life out of you, is it worth the dollar it costs for his Aguecure to have the villainous disorder expelled, which it does surely and quickly? When you have taken a cold, is it prudent to wait until it has settled on the lungs, when days, or weeks, or months must be spent in trying to cure it, even if it can be cured at all, or is it cheaper to take Ayer's Cherry Pectoral, costing a few shillings, and remove the trouble before it is serious? It takes no wisdom to decide.

DIED,

Near Washington College, in this County, on the 10th of this month, Mr. W. L. Payne, son of John H. and Maria A. Payne, from the effect of a hurt received while in the United States Army, aged 24 years.

Another soldier of the grand army of the Republic is gone. Blessed with the fortune of returning home, after the perils of the war were over, he enjoyed, for a brief season, the safety and protection of the "Flag" for which he fought vouchsafed, and has joined the almost countless numbers of comrades in the "land of the enemy," who fell victims to the exposures of the camp, the dangers of the field, and the tortures and cruelties of the rebellion. He left East Tennessee, made his way to Kentucky, and enlisted in the First East Tennessee Cavalry at an early stage of the war. Obedient to the commands of his superiors, faithful in the performance of his duties and as brave as the bravest in battle, he won the proud and exalted honor of the *true soldier*. Over the graves of such heroes, generations unborn, grateful for the liberties and blessings which they secured to them by their valor, will delight to ponder; and the memory of their deeds will be an amaranthine garland girdling the heart of every patriot as long as the Republic shall stand.

Know Thyself.

Madame E. F. Thornton, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight as to enable her to impart knowledge of the greatest importance to the single or married of either sex.—While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life like picture of the future husband or wife of the applicant together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, Madame E. F. Thornton, P. O Box 223, Hudson, N. Y. [Feb15y1CFSCo

A Card to Invalids.

A Clergyman, while riding in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Disease of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please enclose a post-paid envelope, addressed to yourself. Address, JOSEPH T. INMAN,

☞ A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse rustic, flush face, she had a soft, ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the **Circassian Balm**, and considered it an invaluable acquisition to any Lady's toilet.—By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle, it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smoothe and beautiful. This is no imposition, as test nonials without number can assert. And all kinds of CASTINGS for REPAIRS constantly on hand.

I would call the attention of the Farmers, in general, to a few facts. Having been in this business for over 23 years, (as well as farming), I consider myself thoroughly posted in all kinds of Agricultural Implements, and having selected my stock from the best manufactories in the United States, I am prepared to give better satisfaction than any other establishment in Tennessee. First, my Threshing Machine (Russell's) will do more work and save more grain, with a lesser amount of team and labor, than *any other in use*. My Reaper will harvest Wheat, Rye, Oats, Barley, &c., in the most perfect manner, on any farm land in Tennessee, no matter how rolling. It will cut around stumps with almost the ease of a cradle.

All that is necessary to convince the farmer of Tennessee that my statements are correct, is to allow me to prove my assertion by a trial of my Machines. My Mowers are second to none in the market. My Plows, wherever they have been used, are giving better satisfaction than any Plow in Tennessee. My Stafford Wheel Cultivator will cultivate from 8 to 10 acres of Corn or Cotton per day, and makes it easy on the farmer, as he rides on the machine and does the work as well as can be done with any common shed plow.

I also can furnish Mill owners with the best Water Wheel in the world, which I can safely say, as I know it by experience.

My machinery and Impiements will perform all that I claim for them.

☞ All persons wishing information in regard to any of my machinery will receive a Printed Pamphlet, and all necessary information, by applying to George S. Ruble at Chattanooga, Tennessee, or to Ez. S. Mathes, Agent, Jonesborough, Tennessee.

After the Original Pictures in Possession of Rev. Gorham D. Abbot, of New York.

Many regard this series of paintings as the chef d'œuvre of American art. Collectors rarely only nothing in the department of Engraving yet produced in this country excels the work of Smillie in their copying.

The Engravings were published nearly ten years since, and in the few and limited channels through which they have been offered, a ready demand has been found. It is now proposed to enlarge their sale, and Mr. Abbott has placed the plates with us for that purpose. Believing that, as in the case of every great and worthy composition, they cannot be too common, we have undertaken to meet his wishes.

The Trade, Canvassers and Clubs will therefore have more liberal terms. Clergymen and teachers will also be entitled to a special discount, and all persons disposed to aid in their sale in any way will find a generous reward for effort.

The prints will hereafter be issued on better plate paper and with more care as to printing.

Price $12 per set, on receipt of which they will be sent to any address.
