Crowded Out.

Much interesting matter does not appear this week on account of the crowded state of our columns. We surrender the greater portion of our columns to the Corporation By-Laws of Jonesboro'. They should be read by all in interest. We hope these laws will be impartially and strictly enforced; for a better mode of reform cannot be had than a rigid enforcement of this species of laws.

Church Dedication at Knoxville.

We learn from the Knoxville *Whig* that the new Church built by the Methodist Episcopal Church was dedicated last Sabbath with appropriate ceremonies. The sermon was preached by Rev. N. E. Cobleigh, D. D., President of the East Tennessee Wesleyan University. The Church cost about twenty-eight thousand dollars.

☞ Our old friend, Capt. Geo. S Ruble, of the firm of Ruble & Willford, Chattanooga, paid us a visit Wednesday last. He is prepared to fill all orders for Agricultural Implements.

Steam Fire-Proof Safes.

Special attention is directed to the advertisement of the American Steam Fire-Proof Safe Company, to be found in another column. Much credit is due the manufacturers of these safes for their untiring labors in behalf of the American people in order to provide them with a truly fire-proof safe. They have met with decided success; and we would advise all who have money or valuable documents to preserve to send to the proprietors for a circular and price list, and procure one of them; for it is better to spend a few dimes in securing a safe, than to risk the loss of many thousand dollars, either by the incendiary's brand or the house-breaker's hand.

A Card.

Having some time ago announced myself as a candidate for the office of Chancellor of the first Chancery district, I think it proper and right that I should avail myself of this mode of making known to my many friends in the various portions of the district, the fact that I am no longer a candidate; and as an explanation of this course of action, all I have to say is, that I regard the success of the principles of the Republican party as being of infinitely more importance to the people of this district, than the advancement of my individual interest. I have the consciousness of knowing that I have at no time in the past, neither shall I at any time in the future, allow my name to be associated with a candidacy for any position which might produce the result of a political victory to my enemies. And while I am willing to acknowledge that matters of a purely political character should not, as a general thing, enter into a Judicial contest. Yet, there are circumstances under which it is necessary for the public good that the political character of the candidate should be weighed well before receiving the suffrages of the people.

There are, now, four candidates in the field, from which number the people are to select a Chancellor to serve them for the next eight years.

I have nothing to say in regard to either of the gentlemen; so far as I know they are all high-minded and honorable men; but to the Republican party I would say, vote for no one whom you do not know to be a true and genuine Republican. This is an election of more than ordinary importance to the people of Tennessee, for the reason that, notwithstanding it is judicial in its character, yet upon the result depends our success in each of the other branches or departments of the State government. Already have leaders of the Conservative or Democratic party, boasted that with a Judiciary favorable to their political views they could soon accomplish all they want, all they ask for—the repeal of the Franchise Law.

And there is no doubt they are working faithfully to accomplish that result, and to do so through the Judiciary. Let us defeat them!

And in conclusion, I return my sincere thanks to all my friends, who have shown such a deep interest in my success, in this race.

Newly Improved Water-Wheel.

JONESBORO', April 25, 1869.

W. M. Starr's new style perpendicular gravitation water-wheel, now running at Jonesboro', being the second wheel now running on this continent, is one of the greatest improvements on water-wheels now in existence. We have been running the common breast wheel at this place, we have seven feet fall and eighteen inches head. The old wheel run with ninety-six inches of water; this wheel now running has fifty-six solid inches, with the same head and the same fall. It has, with the amount of water stated above, gained fifty per cent in speed and power on the old breast wheel.

I now keep up with my grinding, and before this wheel was put up, I was crowded day and night, and could not do all the grinding that come in. There need be no doubts nor fears about this wheel, it is far the best now in use.

I have said enough for any person to see what it will do on this small stream and small fall. Anything of a higher fall than this will double the power, perhaps more than do so

E. M. JACKSON, *Miller.*

We take pleasure in recommending this newly improved wheel to all Millers as the best wheel yet invented. It is manufactured by W. M. Starr, Scientific Engineer, of Tyler, Smyth County, Texas. He is now travelling in East Tennessee, and we would recommend him to all in need of a genuine workman.

Colburn's Red Jacket Axe.

This axe is better than the regular shaped axes for these reasons:—

I. It cuts deeper.
II. It don't stick.
III. It don't jar the hand.
IV. No time or strength is wasted in taking the axe out of the cut.
V. With the same labor you do one-third more work.

With all these good qualities it is made of same steel and iron and temper as our regular axes and will not bear rough usage any better than they.

TROY, Iowa, Dec. 21st, 1868.

LIPPINCOTT & BAKEWELL:—The Red Jacket Axe you sent me is a good one. I think it is the best Axe I ever had hold of.

It is a very easy axe to chop with. Any one can see by the shape of it that it does not require so much exertion on the part of the chopper as with the old style axe to make it penetrate the wood. We are much pleased with it. Yours, G. W. CLAYTON.

Miles' Covered Scoop Shovel. For the farmer. Just what you want.

PEORIA, Jan. 26, 1869.

LIPPINCOTT & BAKEWELL:—We have in constant use the Covered Scoop Shovel of Mr. Miles, and find it to be a very useful article. We more than save the cost of it daily in the amount of grain saved, shoveled from wagons. We can also handle grain much faster than we can with the common Scoop.

GREER & Co., Grain Dealers.
E. S. EASTON, Grain Dealer.
S. EASTON & SON, Grain Dealers.
ROBINSON & Co., Freek Mills.
GEO. FIELD & Co., City Mills.

While we make these and recommend them because of their great merit, we are also manufacturers of Spades and Shovels equal to any made in the country East or West.

Our Saws are patent temper and patent ground, and warranted as good as any made.

FREDONIA, Iowa, Feb. 5, 1869.

LIPPINCOTT & BAKEWELL, *Gents*:—The Saw that you sent Henry & Pierce is the best Saw I ever saw. It takes two inch feed in oak and stands up fully. I cut 250 feet of oak fencing in 22 minutes.

I have run saws for 18 years, and that is the best one I ever got hold of. I have run your saws in Michigan for five or six years. ABE DAVIS.

If your hardware dealer does not keep our goods send to us direct with your inquiries for orders, and you shall have immediate attention and realy.

SPECIAL NOTICE.

Without a Good Digestion

All other temporal blessings are comparatively worthless. The dyspeptic millionaire who has tried all the boluses of the medical profession in vain, and believes his complaint to be incurable, would give half his fortune to be freed from the horrors of indigestion, and thus enabled to enjoy the other half. *Of course he would.*

Perhaps HOSTETTER'S STOMACH BITTERS has been recommended to such a sufferer. Possibly he has turned from the friend who made the suggestion with a sneer, intimating that he has no faith in any "patent medicine." If this be the case, so much the worse for him. His incredulity denies him to a life of misery. All the luxuries which wealth can purchase are at his command. Not one of them can give him pleasure. His own irrational obstinacy is his bane.

The misery, happily for themselves, are less skeptical. There is such a thing as bigoted unbelief, as well as bigoted credulity, and a golden mean between the two, which men and women who are gifted with common sense adopt and profit by. There are the class that patronize and recommend HOSTETTER'S BITTERS. Why do they approve this famous anti-dyspeptic and anti-bilious preparation? Simply because they have not been too much the slaves of a modern prejudice to give it a fair trial, and have found that where all other tonics, stimulants and stomachics failed, it produced the desired effect.

"Darkie, hot hear," said the Roman sage, when his ignorant enemies were assailing him. "Doubt, but try," says the man who has been cured of indigestion, or biliousness, or intermittent fever, by the Bitters, as he relates his experience of the medicine to his invalid friends. Whoever is so modest to his own foregone theoretical conclusions, as to decline to test the properties of a medicine endorsed by the testimony of intelligent men in every walk of life, and approved by the people at large, deserves to suffer.

Calisaya or King's Bark was unknown until the middle of the 17th century. Humboldt makes favorable mention of its febrifuge qualities as an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels.

In 1640 it was used by the Jesuits, who alone at that time possessed the secret of its wonderful tonic properties, and it was sold by them for its own weight in silver.

In 1658, eighteen years after, Sir John Talbot employed it with great success in France in the treatment of Fever and Ague. Dyspepsia, Nervous Affections, Loss of Appetite, Weakness and Debility. Palpitation of the Heart, Diarrhœa, etc. In 1679 he sold the secret of its origin to Louis XIV, by whom it was divulged. It is now the all important ingredient in Drake's PLANTATION BITTERS, and preserved as it is in pure St. Croix Rum, makes a tonic of rare merit, and one that should be upon the side-board of every family. Messrs. P. H. Drake & Co., the sole proprietors of the celebrated PLANTATION BITTERS, are the largest importers of Calisaya Bark in America. The Bark is gathered and cured under the immediate supervision of an agent sent out to Brazil, expressly for that purpose, and aside from a few thousand pounds which are sold to the manufacturers of Quinine, is all used in the preparing of these Bitters, to which they are indebted for their wonderful success as a tonic.

The above cut represents the natives in their own native forest gathering the Bark.

Sheriff Sales.

BY virtue of three orders of sale, issued from the Circuit Court of Sullivan county, tested the 4th Monday of March, 1869, and to me directed, I will proceed to sell at the door of the Court House in Blountville, on SATURDAY the 5th of June, 1869, to the highest bidder for cash in hand, all the right, title, claim and interest that John Hull has in and to a certain tract of land in District No. 4, containing 100 acres, more or less, adjoining the lands of Wm.
