A VERY BUSY SESSION

THE STOCK EXCHANGE WAS PHENOMENALLY ACTIVE YESTERDAY.

THE EXCITEMENT TREMENDOUS.

Unusually Large Attendance, Which Threw the Business to the Smaller Brokers—Bullish Enthusiasm Was Violent—Other Markets.

NEW YORK, January 14.—Transactions on the Stock Exchange to-day were the largest for a two-hour session in many years, and had the same volume continued for the usual five hours' trading it would have been within a quarter of a million of two million shares. As it was there were nearly 700,000 shares dealt in, and the average net rise in prices was from 1 to 2 points in the shares which figured most extensively in the dealings. There was a diversion of interest from the Pacific into higher-priced stocks, the Grangers being the gainers.

TREMENDOUS EXCITEMENT.

The excitement on the floor of the Stock Exchange was tremendous. There was an unusually large attendance of brokers for the short session, as the constant influx of outside orders rendered it necessary for the large dealers to transfer considerable of their business to the hands of smaller brokers at the regular commission between members.

Stocks opened buoyant and active. High-priced records passed unnoticed in the confusion. Brokers fought to execute orders, and simultaneous transactions in many shares were widely apart.

London had early received large purchases from this side, and the quotations from that quarter showed general advances. The rapidity of the rise brought out immense blocks of realizing sales, but the sustained buying power of the market absorbed all offerings after a temporary reaction, and prices again mounted upward.

A TEMPORARY HALT.

The market halted momentarily pending the publication of the weekly bank statement, but on its appearance, showing, as it did, increases of $4,732,700 in the surplus reserve, and $3,042,200 loan account, bullish enthusiasm was resumed with violence.

Commission-houses were easily the largest buyers. The extreme gains in the Pacifics were only fractional, while in the Grangers they ranged from 1 in St. Paul to 3 in Burlington, and in the active Coalers from 1 to 2.

The Gould and Vanderbilt stocks were comparatively neglected, except Southern Railway. The greatest strength and activity was shown in the Grangers, Chicago, the Readings, Southern (preferred), Federal Steel, Atchison, and Brooklyn Rapid Transit. Points of heaviness were noticed in Northern (preferred), Illinois Central, Metropolitan, and Laclede Gas.

A RISE IN BURLINGTON.

The market closed with some irregularity, but generally strong and active, with important gains in many cases. A noteworthy feature was a large rise in Burlington on renewed gossip concerning the prospective refunding of their outstanding bonds. This talk, however, was little more definite than usual. New York Air-Brake made an extreme advance of 9 points, while Southern Railway (preferred) and Atchison (preferred) were up over 2 points each, and Federal Steel (common), which has lately been rather neglected, although reacting from top prices, ended with a net gain of 1 5-8.

The largest trading in any specialty was in Brooklyn Rapid Transit, which had an initial rise of 2 points on confirmation of its acquiring control of the Nassau Electric Company.

THE BOND MARKET.

Dealings in the bond market were attended with the usual marked variations in the semi-speculative issues during the week. There was in general a disposition to employ idle capital in the stock trading where the rapid fluctuations gave promise of a speedy profitable return. Investment houses reported that their books were filled up with orders for prime liens, and although issues of this character came to hand through foreign sales, the absorptive power of the market prevented any shading in prices. United States 2's advanced ¼ and the 3's and new 4's ¼ in the bid price. United States 5's, coupon, declined ⅛, do. registered 1-4, and old 4's, registered, 1-8.

TOTAL SALES OF STOCKS.

The total sales of stocks were 708,435 shares, including 21,020 Atchison; 85,620 do., preferred; 7,075 Central Pacific; 7,810 Louisville and Nashville; 15,210 Manhattan; 19,920 Reading, first preferred; 9,000 Missouri Pacific; 5,450 New York Central; 9,577 Northern Pacific; 8,120 Reading; 26,420 Rock Island; 17,120 Union Pacific; 18,620 St. Paul; 11,010 Southern Pacific; 52,820 Southern Railway; 30,910 do., preferred; 7,745 Union Pacific, preferred; 15,500 American Cotton-Oil; 16,420 Bay State Gas; 42,240 Federal Steel; 6,928 People's Gas; 65,520 Brooklyn Transit; 10,670 Sugar.

MONEY AND EXCHANGE.

NEW YORK DRY-GOODS MARKET.

NEW YORK, January 14.—The dry-goods market closed with fairly good results for the week. The jobbing trade has taken hold of new goods with considerable enthusiasm. Staple cottons have shown less satisfactory results. Print cloths still maintain their firm position. The week has shown generally good results in woollen and worsted goods. There have been many buyers in the town, and these have evinced much interest in the newly-opened heavy-weights.

NEW YORK, January 14.—The cotton market opened steady, with prices unchanged to 2 points higher, but soon turned easy under realizing by some of the more nervous traders. Business was spasmodic during the day, with sentiment rather mixed. Selling orders from the South and abroad added to the unsettled feeling. The bear faction, however, were slow to pursue aggressive measures, as private dispatches noted very stiff spot southern markets. No change in the situation at New England milling centres; continued light receipts and bad roads. The Liverpool news averaged up pretty much as expected, and cut little figure as an influence on the market. The weather map showed continued rains over the greater portion of the belt, the Mississippi Valley in particular reporting heavy precipitation. The market closed barely steady, 2 to 4 points net lower.

Estimated receipts at ports for the day, 24,000 bales, against 26,777 bales last week and 38,059 last year. For the week, 210,000 bales, against 209,768 last week and 236,823 last year.
