COLONIAL PRAYER-BOOK FOUND.

Mr. Whitty Finds a Rare and Valuable Book in Out-of-Way Place.

The book collector of Virginia, who has been so diligently searching for the past many years for a copy of Poe's Tamerlane, may still have hope. There was found in an out-of-the-way place, where some book collector's search in Richmond this week by Mr. James H. Whitty, the most excessively rare Virginia Colonial prayer-book in existence. Indeed, there is only one other copy in existence, and that strangely turned up very recently, and has been publicly known since the issue of the October No. of the Pennsylvania Magazine, where its biograph is given by Mr. Charles R. Hildebrun.

The first copy was among the books bequeathed to the Historical Society of Pennsylvania by the late John Clement, of Hadonfield, N. J., and up to that time the book was unknown to all bibliographers and literjians. The titles are three in number, and the book was printed and sold by William Parks, in Williamsburg, Va., in 1740. The book was, therefore, printed seven years previous to Stith's History of Virginia, and the volume is a very early Virginia imprint, as printers did not obtain a permanent foothold in this Colony until 1733, the attempt to put up a press about 1682 by John Buckner having no imitator until the arrival of Parks in the year above mentioned.

It may be an interesting fact not generally known in this connection that the Virginia Historical Society has the only early volume of the Virginia Gazette, which was published and commenced by William Park in 1736. The prayer-book is of great importance to the History of Virginia, as its very existence goes to show the thoughts and feelings of the people during the earlier part of the eighteenth century. It would also indicate from these two finds that the books had a fair circulation turning up as they have in remote sections. Mr. Whitty's copy was evidently, as shown by the notations therein, once the property of the well-known family of "Johnsons," of Louisa county, Va., and contains the date of the death of Nicholas Johnson, whose funeral sermon was preached by Rev. Robert Barrett. The death of Mary Anderson is also recorded on the same page, and she was evidently the wife of Nicholas Johnson, as other entries, that of Mary Johnson, &c., indicate that the book belonged originally to that family.

The first edition of the book was published in London in 1705 by "Edmund Bishop, of London." It is not a reprint of the Book of Common Prayer, but appears to be wholly of Bishop Gibson's own composition, and, therefore, no infringement of the patent which protected the publication of the ritual of the Established Church. At the date of its first issue Dr. Gibson was rector of Lambeth, and did not become Bishop of London until 1723. Mr. Whitty has carefully examined the type and press work of the volume, which corresponds with that used in the Virginia Gazette of 1736-'38. It is a different type, and more than likely was printed on another press than that used for the printing of Stith's History of Virginia. The type used is pica and long primer, and the make-up and style that used by Parks in both the Gazette and Stith's History. The press-work and type of Stith's History, however, seems somewhat of an improvement, and it is more than likely that Parks was very successful in his first efforts, and improved his plant right along, and somewhere between 1740 and the date of the publication of Stith's History of Virginia had secured new fonts of type, and improved or put up a new press for his book-work. The book measures 4 by 6 inches, and has an old binding. It is undoubtedly one of the most valuable acquisitions that has ever been made to a Virginia library.

Charged With Intercepting Letters.

Lizzie Brown and Thomas H. Smith, both colored, who were arrested by Post-Office-inspector Irving on the charge of opening and retaining letters sent to guests at the house of Mrs. Hal. H. Mosby, No. 4 west Grace street, were before Commissioner Fiegenheimer yesterday, and were sent on to the grand jury. The bail in each case was fixed at $500. Smith alleges that he opened one letter by mistake, and knows nothing of two others. The charge against the woman is the climax to a long-standing feud between the prisoner and the Davis family.

Marriage on Church Hill.

Mr. G. B. Nichols and Miss Hannah A. Mooney were married last Wednesday night at the residence of the bride, No. 1308 north Twenty-seventh street. Rev. Joel T. Tucker, of East-End Baptist church, performed the ceremony, in the presence of a goodly company of friends. A pleasant reception followed the marriage. Mr. Nichols is a worthy young man, and is associated in business with Messrs. Burkert & Williams, of Manchester. His bride is an attractive young lady, with many friends.

Butter Went to the Gutter.

A Traction car and a delivery-wagon had a collision near Lombardy and Broad streets yesterday morning.

Car No. 62 was rapidly approaching Lombardy street, at the corner of Richmond College campus, when it came into collision with the wagon of W. R. Koeh's Model Butter Stand, in the Second Market.

The contents of the wagon went to the gutter and were spoiled. The driver jumped and was not hurt. The horse had nowhere to jump, and was quite badly cut.

Mr. S. S. P. Patteson, member-elect of the House of Delegates, will aid Rev. D. W. Comstock in getting a charter for the Children's Home Society in Virginia. Mr. Patteson thinks the institution will be a good one for the State.

The November Election Expenses.

The Committee on Elections, called to meet at 5 o'clock yesterday evening to pass upon the November election expenses, failed to get a quorum. Only Messrs. Cutchins and Teefey were present.

STOCK PRICES LOWER

BANK STATEMENT MUCH WORSE THAN WAS EXPECTED.

LOSS IN CASH RESERVES, $5,217,400.

The Result is an Increase of the Deficit Below the Legal Requirement to $2,788,950—The Produce Markets.

NEW YORK, November 11.—To-day's bank statement proved worse than the most extreme estimates had foretold. The loss in cash reserves ran up to $5,217,400, whereas the extreme estimate had been for only $4,500,000. Some sanguine persons had hoped that the cash losses would be offset by a loan contraction as high as $12,000,000. Instead of that, the decrease in loans reached only $7,151,100. As this only reduced the reserve requirements to the extent of $2,760,000, the cash losses have resulted in increasing the deficit below the legal requirement to $2,788,950. It was not to be expected that so formidable an encroachment on the already depleted reserves of the banks should be without effect, and prices gave way all around.

The losses in the railroad list are strikingly small, in spite of a large volume of dealings. This department offered a stubborn resistance to the pressure, and there were evidently heavy buying orders to be executed.

In the specialties, especially those recently active in speculation, the losses were more severe. In Sugar, the Coalers, the local traction stocks, and especially in Manhattan, Tobacco and Tennessee Coal, there were wide breaches in prices. Even in these the bears were eager to cover at the decline, and some sharp rallies were achieved.

MONEY MARKET NOMINAL.

As loans made on Friday on the Stock Exchange carry over till Monday, the day's money market was nominal. Liquidation was in anticipation of Monday's money market, and was not forced by actual calling of loans. Yesterday's large calling of loans is probably not fully reflected in the statement, so that the actual condition of the banks may be slightly better than indicated, but the course of the money movement makes the necessity of further loan contraction a practical certainty. The foreign exchange market, like the money market, is almost wholly nominal on Saturday, but the nominal rates for sterling exchange were marked down an additional ½.

Bonds have moved slightly in sympathy with stocks this week, but changes have been narrow. United States old 4's, registered, advanced ½; do. coupon new 4's and 5's ¼, and the 3's ⅜ in the bid price. The 2's declined.

TOTAL SALES.

The total sales of stocks to-day were 247,900 shares, including Atchison, preferred, 15,610; Chicago, Burlington and Quincy, 7,015; Manhattan, 23,765; Metropolitan, 6,000; Missouri Pacific, 8,100; Reading 1's preferred, 13,565; St. Paul, 12,845; Southern Pacific, 34,650; Union Pacific, 5,200; American Tobacco, 14,400; Brooklyn Rapid Transit, 23,870; Federal Steel, 8,000; Sugar, 39,935; Tennessee Coal and Iron, 6,670; United States Leather, 36,450; People's Gas, 5,275.

Money on call easy at 3@6 per cent.; prime mercantile paper, 5@5¾ per cent.

The cotton market opened easy, with prices 4 to 6 points lower, and continued to sag after the call, under heavy general selling, prompted by weak cables from Liverpool, predictions of an increased movement, and reports of lower prices in southern spot markets. Europe seconded the efforts of the bear crowd to stampede outside holders, by sending large selling orders. Timid investors liberated the bulk of their cotton around the opening, under the fear that further sensational declines might occur in the English market before our opening next Monday. There was no change in the tenor of crop news. All signs pointed to a light yield and a curtailed movement, following the rush scheduled for the next week or ten days of exporters' and American spinners' purchases to the ports. Believing the decline of the past two days has been grounded on sentiment rather than legitimate factors, staunch bull houses absorbed extensive lines of winter and spring months. This demand, however, was not sufficient to arrest the downward course of prices to any considerable degree. There were periods of reaction on profit-taking purchases by room shorts later in the morning. The market for futures closed steady, with prices net 1 to 9 points higher.
