BIG CROWD AT SHEEPSHEAD BAY.

Tidal Stakes the Feature—Race Won by McMeekin.

NEW YORK, June 26.—An unusually big crowd attended the races at Sheepshead Bay to-day. The Tidal Stakes, for 3-year-olds, at one mile, was the feature, and it resulted in a stirring struggle, McMeekin, the favorite, winning in a hard drive, by a neck, from David Garrick. Summary:

CONDITION OF THE CROPS.

Heavy Rains in the South—Wheat Region Drought Unbroken.

WASHINGTON, June 26.—The Weather Bureau's weekly summary of crop conditions says:

The South Atlantic and the Central and Eastern portions of the Gulf States, including portions of the Central Mississippi and lower Ohio valleys, have suffered much from heavy rains, while the severe drought over the northern portion of the spring-wheat region continues unbroken, only light showers having fallen over limited areas.

Corn has made favorable progress in the corn States of the central valleys, and is in a good state of cultivation, except in portions of the Central Mississippi and Ohio valleys, where many fields are weedy.

In the Southern States east of the Mississippi river corn has suffered seriously from excessive rains, and is badly in need of cultivation.

Except in Texas and Oklahoma cotton has experienced very unfavorable weather conditions, and the crop is generally very grassy, rust and lice being extensively reported throughout the central and eastern portions of the cotton belt. Too rapid growth is also reported from the central portion, which growth has been checked by low temperatures in North Carolina. Some fields in bottom lands in Mississippi and Tennessee have been abandoned. In Texas, the bulk of the crop is clean, and a general improvement has been reported, except in some of the central and eastern portions of the State, where fields have been abandoned, owing to grass. Bole weevil is causing damage in Southern Texas. In the uplands of Tennessee and portions of South Carolina cotton is generally in good condition.

The week has been generally favorable to tobacco, except over portions of Western Kentucky and Tennessee, where it has suffered from heavy rains.

WILLIAM AND MARY.

The Senior Club Celebration—A Pretty German.

WILLIAMSBURG, VA., June 26.—(Special.)—The feature of to-day's exercises at William and Mary was the celebration by the Senior Club, composed of sixteen graduates. An innovation was the appearance of the senior men in Oxford cap and gown.

The following programme was carried out in the presence of a tremendous crowd, who, notwithstanding the intense heat, remained till its close: Address by the president, Mr. James Hurst; Class Oration, Mr. J. T. Thompson; Poem, Mr. J. M. Coles; History, Mr. G. L. Stevens; Prophecy, Mr. C. N. Williams.

The college chapel was the scene to-night of the final celebration of the Philomathean Literary Society. The opening address was made by the president, Mr. J. Howard Bonneville. Mr. George W. Guy represented the affirmative of the question, "Resolved, That trusts are beneficial to the United States." The negative side was debated by Mr. Floyd T. Holland.

Orations by Mr. Meek H. Copenhaver on "Our American Union To-day," and "The Parting," by Mr. Charles Nash Williams, completed the programme for the evening.

The Board of Directors of William and Mary were in session to-day, and transacted considerable business of importance. A committee was appointed to consider the advisability of selling a number of vacant lots in the rear of the Motly School building, the property of the college. The committee will recommend that these lots be sold as soon as possible. Bids for the gymnasium building will be advertised for at once, and an effort made to have it completed by the 1st of October. Resolutions were adopted looking to securing plans for a light, heat, and water system, which is to be put in during the summer. An artesian well will be driven and a large tank built to furnish pressure to force the water to the top floors of the dormitories. For lighting purposes acetylene will be used.

Among the members of the board present are Dr. Joseph W. Southall, Drs. Lawson, Barnes, and Booth, and Hon. R. Walton Moore.

Major Crocker, on behalf of the judges, delivered the debater's medal to Mr. F. T. Holland, and the orator's medal to Mr. M. H. Copenhaver.

Dr. Breckinridge Wilmer presented the following improvement medals: Improvement in oratory, to Mr. P. W. Garland; debater, to Mr. C. L. Collier; declamation, to Mr. S. J. Williams.

Cameron Hall was ablaze with beauty on Monday evening, when Alpha Zeta Chapter of Kappa Alpha gave its final german, which was perfect in every appointment.

The german was gracefully led by Messrs. Jeff. Stubbs and J. Gayle Anderton, with Misses Minnie Boykin, of Smithfield, and Julia Tyler, of this city. Each lady received a most artistic hand-painted fan as a souvenir.

At 12 o'clock a column was formed, and to the strains of Kesnick's Band marched to the banquet hall, and the dancers were there, served with luscious refreshments, each young lady being presented with a large bunch of sweet peas.

The chaperones were Mesdames T. J. Stubbs, J. Leslie Hall, L. G. Tyler, L. S. Foster, H. S. Birch; Barnes, of New Kent; Ellyson, of Richmond; Blanche Moncure, and T. T. Southall.

The dancers were Misses Pollard, Alexander, Boykin, Willis, Carr, Barnes, Jones, Wise, Ellyson, Clopton, Welbourne, Tucker, Wright, Booker, Eggleston, Jordan, Knowles, Gordon, Mercer, Webb, Booth, Spencer, Tyler, Stubbs, Armistead, Wise, Henley, Foster, Hundley, Johnson, McEnery, Smith; Dr. Foster, Dr. Booth, Dr. Hoy, Dr. Wise, Dr. Southall, Dr. Deckens; Messrs. Page, Anderton, Stubbs, Lane, Christian, Spencer, Pollard, White, Cowles, Booth, Warrener, Hornbaker, Lash, Ellyson, Rudd, Spratley, Hutchinson, Christian, Hundley, Smith, Parrish, Knepp, Waldrop, Davis, and Morable.

NORFOLK.

A Quiet Marriage—Charged With Attempting to Poison.

NORFOLK, VA., June 26.—(Special.)—Mr. William S. White and Miss Mary Armistead Sutton were quietly married at the home of the bride's mother, Mrs. W. T. Sutton, this morning, Rev. Flournoy Bouldin, assistant rector of St. Luke's Episcopal church, officiating. Miss Annie P. Sutton, sister of the bride, was maid of honor, and Mr. Walter F. Irvine, Jr., was best man. The decorations were white and green. Mr. and Mrs. White left via the Pennsylvania railroad for a northern tour. Among the guests at the wedding were Mrs. E. S. Gilliam and Mr. Joseph Gilliam, of Baltimore, relatives of the bride.

Fannie Sutton (colored) was arrested this morning upon the charge of attempting to poison Maggie Jones (colored). The Jones woman's 14-year-old foster son carried her Sunday a vial filled with a substance supposed to be poison, which, he said, the Sutton woman had given him with the promise of pay if he poured the contents into his mother's coffee and said nothing about what he had done. The case was adjourned until Friday morning so that an analysis of the contents of the vial can be made.

John F. Gallagher, who was master-at-arms on the gunboat Concord in the battle of Manila bay, has entered suit in the Court of Law and Chancery for a divorce from his wife, Mrs. Mary J. Gallagher, whom he failed to find upon his return from the Philippines.

Hampden-Sidney Notes.

HAMPDEN-SIDNEY, VA., June 26.—(Special.)—Dr. Roger Martin, of Brownsburg, Va., is visiting the family of his brother, M. M. Martin, Esq., at this place.

Dr. W. G. Eggleston, late of Asheville, N. C., has just spent ten days with his father, Dr. J. D. Eggleston, on his return to Helena, Mont., where he has an advantageous editorial position secured to him, and where he expects to make his permanent abode. His family accompany him. Dr. Eggleston is a facile and strong writer, a stalwart Democrat, and well-posted on all the questions of the day.

Rev. William Cummins, of Baltimore, is on a visit to the family of Mrs. Richard Stokes, in this neighborhood.

The Committee on Buildings and Grounds and the Executive Committee of the college held meetings yesterday in Farmville, and took action looking to its welfare. Quite a number of new students for next session have reported, and the outlook is good for an enlarged number of matriculates.

Several applications for the vacant professorship of Latin and German have already been filed, and there will doubtless be others before the meeting of the Board of Trustees on July 31st next.

Mr. T. H. Tompson, of Petersburg (H. S. C., A. B., 1883; A. M., 1889), who last year taught at Shenandoah Academy, Winchester, Va., has been chosen for the Chair of Greek and English in Fredericksburg College, and Mr. R. H. Watkins (class 1895), who attended the Johns Hopkins University last session, has been elected Professor of Mathematics at King College. Quite a number of the graduates of 1900 have also already obtained eligible situations for the coming year. Hampden-Sidney men have a way of getting on towards the front.

A REAL MAN-HUNT,

But the Hounds Couldn't Catch the Runaway Convicts.

There was a real man-hunt at the State Farm yesterday, but the dogs couldn't catch the man.

John McLean, of Scott county, serving two years for house-breaking, and Grigg Burnett, from Russell county, also serving a term for house-breaking, were stacking oats yesterday. They may have conceived a plan to escape long before, but they did not attempt to execute it until yesterday. The first thing the guard knew the two house-breakers were missing. The alarm was at once given, and the bloodhounds, kept for the purpose of chasing criminals, were unleashed.

The dogs readily took the scent, and were away in a jiffy. The guards followed them for a long time, but finally the animals came in. One of them was injured, possibly by the refugees. But the man-hunt was not a man-catch, and the convicts are still at large.

PROMISES TO DO BETTER.

Council Committee Drops Charges Against Engineer A. C. Calder.

At a special meeting of the Committee on Grounds and Buildings last night the matter of charges against City-Hall-Engineer A. C. Calder was considered. Mr. Calder is indebted to a grocery woman in the sum of several hundred dollars, and had agreed before his last election to reduce the amount from month to month, paying a small specified sum each month. It was charged that he had failed to keep up the payments for several months.

Last night Calder and Mrs. Francis, the owner of the grocery-store, were both before the committee. Calder promised to recommence the payments at once, and to keep them up regularly. The committee accepted the promise, which, apparently, satisfied Mrs. Francis, and the matter was dropped.

ENTERTAINMENT AT MASONIC HALL

The Tenth Anniversary of Its Dedication Celebrated Yesterday.

The tenth anniversary of the dedication of the Masonic Home of Virginia was celebrated at the home yesterday afternoon by an enjoyable entertainment, which was also given in honor of St. John's Day, and announced as a compliment to the Masons of Richmond.

A large crowd of friends of the institution attended, and a most enjoyable afternoon was spent. Mr. Eugene Davis and his quartette of banjoists rendered music, and recitations were given by Misses Puller and Crawford. Refreshments were served by Mrs. Acree, the matron of the home, after which the guests departed for their homes.

Interesting Meeting of Doctors.

The session of the Richmond Academy of Medicine and Surgery, held last evening at the Jefferson Hotel, was one of the most interesting of the year, the cases reported being, so far as known, absolutely unique. They were reported by Drs. Mercer and J. T. Taylor.

Dr. Jacob Michaux exhibited some surgical appliances of his own design, and read a paper giving their employment, with report of cases demonstrating their usefulness.

Dr. William T. Oppenhimer, president, was in the chair.

When the Academy adjourned it was to meet again on the second Tuesday in September, it having been decided to take a recess during the months of July and August.

The Almshouse Laundry Tubs.

The Committee on Relief of the Poor last night considered the matter of equipment of the new laundry at the white almshouse. Mr. C. Manning has the contract. The committee desired to instal Mott's Imperial tubs rather than Mott's crockery tubs, and Mr. Manning was requested to correspond with the manufacturers and endeavor to bring about the change. The order has already been given for the crockery tubs.

End of the Government Year.

The Federal fiscal year 1900 will end on Saturday, June 30th, and on Sunday 1901 will commence. Government bonded officers are required to have their accounts finally balanced by Saturday. Those at the local Federal building are busy with their books.

Prostrations by Heat.

There were a number of prostrations by heat yesterday. Among them were G. W. Allen (white), W. A. Ebert, Emma Davis and George Smith (colored). They were treated by Drs. Foster and Fisher.

For Baby's Sake,

as well as her own, the mother should use MALT-NUTRINE, the helpful food drink, to promote appetite, restore health, build body and brain. Made by Anheuser-Busch Brewing Association, St. Louis, U. S. A. For sale by all druggists.

STOCKS UNSETTLED.

FINAL PRICES CONSIDERABLY BELOW THE BEST.

RISE IN RAPID TRANSIT AND STEEL.

Opinion Apparently is that Decline in Price of Iron and Its Products Has About Run Its Course—Produce Markets.

NEW YORK, June 26.—The bull contingent in stocks failed to realize their expectations to-day, though the changes at the close show net gains for the majority of stocks. Final prices, however, were considerably below the best, and the tone of the market during the latter part of the day was decidedly unsettled and spotty, in spite of the sustaining influence of notable strength in some stocks.

The opening rise was in sympathy with London, and was attributed to the effect of the news from China of the relief of Tien-Tsin. Later advices showed that the periodical settlement in London had disclosed an unexpectedly large bear account in Americans, and the London buying was due to the covering of short contracts. It was especially effective in some of the Southern railway stocks. The New York market, however, showed itself indifferent to the progress of events in China, as it has consistently done throughout, and the opening advance was largely lost.

THE BREAK IN WHEAT.

The first rally in the market followed the sharp break in the wheat market, and was most noticeable in the Southwestern Grangers, especially Burlington and Atchison, preferred. Crop news continued bad from the spring-wheat region, but the speculators who have been buying wheat are evidently impressed with the willingness of the farmers to take prices offered, and the wheat market showed continued realizing, with a reverse sympathetic effect on the grain-carrying roads.

Stocks came largely from the short interest, who were willing to take profits at the decline in prices. The continued weakness in Baltimore and Ohio and signs of heaviness in Pennsylvania discouraged the buying of railroad stocks, and they were inclined to droop during the latter of the day. The sustaining force during that period was the advance in Rapid Transit and Steel stocks. In the former the bears showed symptoms of alarm, recalling their painful experiences growing out of a similar weakness in Third Avenue, another Traction stock. There was no news to account for the strength in the Steel stocks, but they were absorbed with considerable confidence, and advanced easily on small transactions. Their gains at one time ran from 1 to 3¼. Apparently the opinion is gaining force that the decline in the price of iron and its products has almost run its course. Sugar was active and erratic, advancing on the rise in refined sugars, but relapsing on profit-taking.

CALL FOR DEPOSITS.

The call by the Treasury Department for the payment of a third instalment of $5,000,000 of government deposits had no apparent effect on sentiment, as the date fixed for the payment, July 16th, goes beyond the immediate pressing demands on the money market, which will be for the July 1st settlements. Time money continues to harden, but call loans are still very easy.

Some of the speculative bonds show sharp recoveries, but the market generally was irregular. Total sales, par value, $1,070,000. United States 3's, coupon, advanced ¼ in the bid price.

The total sales of stocks to-day were 367,300 shares.

MONEY AND EXCHANGE.

Money on call easy at 1¼@1½ per cent.; last loan at 1¼ per cent.; prime mercantile paper, 3¾@4 per cent.
