CHANGES NOT IMPORTANT

Early Gains Wiped Out by Later Reaction.

TONE MORE CONSERVATIVE

There Was No Evidence of Forced Liquidation, but Light Selling Forced Prices Back—Money Easy. Bonds Irregular.

(By Associated Press.)

NEW YORK, July 29.—Operations in the stock market took on a conservative tone again to-day, and the leaps and bounds of the first recovery from the long depression gave place to a more creeping process. Even this moderate upward pace was not maintained, and there was frequent hesitation and reaction. There was no evidence of renewed liquidation of the forced character that has cost the market so dear for some time past. But the demand for stocks nevertheless showed signs of satisfaction, and the selling, though light, was sufficient to force prices backwards again. The bargain hunting element, of course, declines to follow any advance in prices. The recovery has reached sufficient dimensions to induce some profit-taking also by the speculative buyers for a short turn who were so fortunate as to get in at last week's low prices. It is an inevitable consequence of such a period of liquidation with little sustaining power in the market that a strong class of holders should have been able to hold through the weakest period by agreement between themselves and their creditors in order to save needless sacrifice to both by force liquidation of collateral.

The opinions of prominent bankers on the situation imparted yesterday to the Associated Press made an impression upon the financial district especially the tone of warning adopted by one influential banker that the commercial and industrial interests—of the country may have to undergo later an experience of liquidation like that through which Wall Street has just been passing. There was a distinct relaxation in the time money market to-day. Loans carrying over the end of the year were offered with freedom at 5 1-2 per cent. Cash is accumulating at this center from various sources and it is expected that the next bank statement will at least reflect the heavy liquidation in a loan contraction. The wide movements in to-day's market were confined to specialties under the influence of special causes. The day's net changes are not important, the earlier gains having been rather more than wiped out by the reaction. The Atchisons were conspicuously pressed for sale.

Inactive investment bonds were marketed at some wide concessions. The market generally was irregular.

Total sales, par value, $2,565,000.

United States bonds were unchanged on call.

Total sales of stocks were 502,500 shares.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, July 29.—The opening of the stock market was firm and was materially helped by the better tone shown in London, and the failure of a number of sinister rumors current on Tuesday afternoon's reaction to materialize. The foreign houses were fair buyers, and the professional trading was in the direction of a further rally.

STRENGTH IN SOUTHERN PACIFIC:

The strength in Southern Pacific at the opening was taken to indicate that the liquidation for foreign houses interested in the pool was over. It is not believed that Union Pacific has bought any more stock, but the Harriman interest has probably added considerably to its holdings.

ATCHISON RALLIED WELL:

Atchison common rallied well, and although nobody looked for a good showing for June, the figures there will merely represent the flood loss and, of course, will be no criterion of the business of the road. Specialists think that the recent decline has a great deal more than discounted such temporary considerations.

THE FIRST HOUR:

Upon the whole the market held its early advance very fairly in the first hour, although it was clear that some distribution of stock was in progress where it could be sold without weakening the market. Some of the larger traders appeared to have been put in to bid up the active list, but upon the whole the bulling did not look extra good.

STRENGTH IN ERIE:

The strength in Erie first was about as legitimate as anything in the list and represented investment buying of a good character. As a 6 per cent. stock, with good prospects of an early dividend on the second preferred, it is unquestionably attracting investors.

GOOD SELLING OF N. Y. C.:

There was some rather good selling of New York Central on the early advance.

NO OFFER MADE OR DES MOINES:

A high official of Rock Island says that no offer has been made by that company for a controlling interest in Des Moines and Fort Dodge.

MID-DAY MARKET HELD WELL:

The market held well at a slight reduction in the middle of the day, although there was some pressure from traders on individual stocks. London, however, was a good buyer, and although the larger traders were by no means extravagantly bullish in any department, they did not seem to be able to dislodge much stock.

MOVEMENT AGAINST BERWIND:

The decline in Atchison was part of a concerted movement by some of the larger traders against the Berwind holdings. As the price of the common is not lower than it was six weeks ago, it is plain that market conditions at least have not affected that block of stock. The attempt seemed to be of a somewhat piratical character, and was not treated seriously by the more important interests.

BROOKLYN TRANSIT ACTED WELL:

Brooklyn Rapid Transit acted rather well in the good showing for the past nine months and the knowledge that some weak holdings had gone into stronger hands.

BUYING MISSOURI PACIFIC:

The Standard Oil people are probably picking up Missouri Pacific, but are merely taking at bargain prices, and are certainly not buying with any contemplation of a market movement.

STEEL RATHER HEAVY:

The United States Steel stocks showed a rather heavy tone on the $4 cut in the price of galvanized sheets by the corporation.

THE LAST HOUR'S DECLINE:

In the last hour prices receded, and accompanying the decline were rumors that some house with large commitments was still embarrassed, but the close was not weak, and upon the whole the professional selling seemed to have been rather ineffective. The explanation was probably in the more confident feeling all around, and the indisposition to treat seriously the rumors above mentioned, which might have been effective a few days ago.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., July 29.—Seaboard Air Line common, 19@19¼; do. preferred, 34@34¼. Seaboard 4's, 77¾@78.

COTTON MARKETS.

NEW YORK, July 29.—The cotton market opened steady at an advance of 7 points to a decline of 1 points, and after a little irregularity, during which prices showed rather a sagging tendency, ruled generally firm, though not especially active.

Soon after the call it developed that brokers usually supposed to operate either for the New Orleans bull contingent or for interests closely associated with this party, had liberal supporting orders for the new crop months, including October and December, at ground last night's finals, and this, in connection with the firm cables, soon started a covering movement which last during almost the entire session.

Later the weather which had at first been considered favorable on account of the rains in the sections mentioned by the weekly Weather Bureau report of Tuesday as in need of moisture, also became a source of apprehension, owing to the numerous telegrams received here from the South that the wet weather would delay maturity, promote the growth of grass and revive apprehensions as to boll weevil.

Wall Street was a good buyer, presumably for covering shorts, and toward the close a demand developed for August, which was also supposed to be for short account, and that option displayed great firmness on a surprisingly few transactions. Opening at 11.97 it was bid up to 12.38, sold at that, and at the close was 12.37 bid, a net advance of 4 7points. July meantime was neglected, selling four or five times between 12.90 and 13.00, closing at 13.00 bid, a net gain of 25 points. The new crop displayed an upward tendency during the entire morning, and in the last hour reached the highest point of the session with a net advance of 15@24 points.

Just before the close there was a little realizing, however, and while the market was finally steady, the new crop was slightly off from the best ,being net 9@22 points higher. Sales were estimated at 100,000 bales.

Cotton futures opened steady and closed steady:

NEW ORLEANS, LA., July 29.—COTTON—Spot cotton firm and unchanged; quotations unchanged.

The future market opened with the bull forces lined up for active work. Some heavy buying was done for July, August and September deliveries. The demand apparently came from weak longs who were willing that the stronger bulls should take their load. Although the bidding for September was brisk and for heavy amount, the prices was forced only slightly above the closing of yesterday. This was due to the heavy offerings in this option, which came from room traders and the Wall Street clique. The room traders were supposed to be selling on favorable weather conditions. The bulk of the trading was in September. Both bids and offers were free, but buyers and sellers were well apart in their view. It was quite evident that the war between the New Orleans bull clique and the Wall Street bear pool over the September option is still being waged. At the close the list showed net gains of 10 points on July, August 11, September 12, and the other active months 9 points each.

Cotton futures quiet and steady: July, 13.10 bid; August, 13.00 bid; September, 10.85@10.87; October, 9.85@9.86; November, 9.67@9.69; December, 9.66@9.66; January, 9.65@9.66.
