TRADING IS LISTLESS

Operations on Too Small a Scale to Carry Any Significance.

SOUTHERN RAILWAY STRONG

Advance in Response to Assertion That Seaboard Would Enter Community of Interest.

(By Associated Press.

NEW YORK, Nov. 14.—Trading in today's stock market was listless and narrow. Operations were on too small a scale to offer anything of a representative character. There were a few points of strength, including Chicago and Alton, or a revival of rumors of its possible absorption as a connecting link in a larger system. Southern Railway advanced in response to rather vague assertions that the Seaboard Air Line was in a way to be brought into the Southern community of interest. The upward movement in Manhattan continued on the score of the increase of earning power through electric operation, as revealed by the last statement. One or two minor stocks rose without explanation. The market as a whole failed to show a continuation of yesterday's movement to cover shorts and prices drifted rather aimlessly. The bank statement proved decidedly more favorable than the forecast had indicated, but, nevertheless, its publication was followed by a brisk selling movement, which centered upon Pennsylvania, costing that stock the greater part of yesterday's gain. Reading and Amalgamated Copper also lost more than a point, and the whole list receded to below last night. The decline in the cash reserves of the banks proved to be only $2,916,200. Yesterday's estimation indicated an outgo for the week of $4,000,000 without allowance for yesterday's arrival of foreign gold to the amount of nearly $1,000,000. The reserve requirement is thus diminished to the amount of $3,083,800, leaving an increase in the surplus of $644,400. With the falling off to the movement of currency to the interior, which has occurred, and the supply of foreign gold about for this port, the money market prospect seems to offer no occasion for uneasiness, without counting the likelihood of a considerable further movement of gold this way. The market closed dull and heavy.

Total sales 880,000 shares.

COTTON MARKETS.

NEW YORK, Nov. 14.—The cotton market opened easy at a decline of 7 points to an advance of 5 points, the gain being confined to August, while all the active months were lower under disappointing cables, better weather than predicted, the outlook for large receipts and week-end realizing. Following the call fluctuations were irregular, but comparatively narrow. At first the declining tendency was checked by the execution of overnight buying orders and moderate bull support, but a little later the market yielded to wall Street pressure and room selling, declining to a net loss of about 7 points. After reaching this it was rallied again to about last night's figures by covering. Trading was moderate yesterday.

Receipts at the ports today were 36,[illegible] bales against 56,611 last week, and 54,907 last year. For the week 450,000 bales against 401,[illegible] last week and 3[illegible] last year. Today's receipts at New Orleans were 12,667 bales against 11,[illegible] last year, and at Houston 20,134 bales against 11,[illegible] last year.

Cotton futures opened easy and closed barely steady:

Futures were barely steady at the opening with prices from 7@11 points lower. For some time after the opening prices were decidedly weak and would doubtless have gone lower but for the support given by prominent bulls, who bid for large lots of both December and January and March cotton, causing prices to advance 7@15 points on the active months. When the support was withdrawn prices receded until the gains had been nearly all lost, the market at the closing showing net losses of 9@11 points on all months except June, which lost but 5 points.

DANVILLE TOBACCO MARKET.

Danville, Va., Nov. 14, 1903.

Dibrell Brothers gives the following review of the Danville tobacco market for the week:

The sales this week have been the largest of the season, and have lasted nearly every day till late in the afternoon. Nearly all the tobaccos offered have been old belt stock and brought to market by wagon from the immediately surrounding district, much of which has been in bad condition.

The quality has been disappointing, and is even worse than the average offerings heretofore. There has been a large proportion of very leaf, coarse tobaccos sold this week, which, however, seems to be in unusually good demand for the African trade. Good wrappers continue scarce, and whenever they are offered bring good prices, which are quite satisfactory to the farmers. Very few of the good wrappers however, come to auction sales, as they are pin-hooked in advance.

Medium and good tobaccos, both in color and quality, continue to predominate in the sales, while low grades and fine are being offered in very moderate quantities. There seems to be disposition on the part of the farmers to sell their tobacco, as prices are much more satisfactory to them than heretofore. There has been an advance, though steady and slightly since the market opened. Each week the market seems to harden and show a slight advance and more activity over the previous week.

Very little bright tobacco has been offered in the breaks this week, and the proportion of eastern and souther tobaccos has been very small. These, also, show considerable advance over several weeks ago. We look for increased receipts for next week if the weather is at all favorable, as the farmers who have sold recently will, no doubt, spread the news of better prices.
