MARKET AT FEVER HEAT

Decisive Impression Made on Prices for the First Time in Many Days.

UNDERTONE STILL STRONG

Furious Buying of Southern Railway Stock a Feature of the Day.

(By Associated Press.)

NEW YORK, Sept. 12.—A decisive impression was made on prices of stocks to-day for the first time in many days, by the increasing burden of sales to take profits prompted by the misgivings over the crop and the money outlook. Yet the dominant impressions created by the actions of the early market were its continued evidence of underlying strength and its great absorbtive power. The number of shares which changed hands had run up to three quarters of a million in two hours to noon and in that time the market had made steady rallies against the inroads upon the prices and had put forth sustaining points of strength in special stocks in the way which has become familiar during the long advance. As the day wore on these sustaining points became fewer and also less effective on the sentiment held towards the market at large. The haste to cover shorts at small concessions and the volume of buying orders slightly below the existing prices kept the early trading to-day feverish and uncertain and showed the doubts of the bears that the time for reaction had come. The cotton carriers were comparatively well held and there was furious buying for Southern Railway which made a conspicuous figure. Some of the Southwesterns also reported good gross earnins for the first week in September. The market closed active and weak with net losses running from 1 to 2 points and upwards in some prominent cases. Bonds weakened in sympathy with stocks; total sales, par value, $5,755,000. United States 2's registered and 3's coupon decline 1-8, and the 2's coupon, 1-4 per cent. on call.

Total sales of stocks to-day were 1,299,000 shares.

MONEY AND EXCHANGE—CLOSE: Money on call, 7-8@1; closing bid, 7-8; offered 7-8. Time loans, steady; 60 days 2 3-4@3 per cent.; 90 days, 3; six months, 3 1-2@3 3-4.

Prime mercantile paper, 3 3-4@4 1-2 per cent.; sterling exchange, steady at decline, with actual business in bankers' bills, at $486.90 for demand and at $484.-50@484.55 for sixty day bills. Poster rates, $485@488 1-2; commercial bills, $4 4 1-4@3-4; bar silver, 56 3-8; Mexican dollars, $15 1-2.

COTTON MARKETS.

NEW YORK, Sept. 12.—The cotton market opened steady at a decline of 3 points on September, while other positions were unchanged, 2 points higher. This was rather better than due on the cables and excellent weather report. It was pointed out that prices were about a cent down from the top and with private crop advices of a generally favorable nature, room operators, though they saw a change for a turn on the long side, figuring that the weekly crop report would be bullish factor. Reflecting this line of argument prices immediately following the call shot up about 7@13 points above the closing of Saturday, but the big Houston estimate checked the advance and later the market broke to nearly 10c. for the active months upon receipt of the estimates for Galveston and New Orleans, which also showed a full movement.

It was reported two or three times during the day lower Wall Street bears were covering whenever outside offerings increased and there were frequent reactionary periods which, however were of short duration. Toward the close the market worked up a few points from the bottom and was finally steady at a net decline of 13 points to an advance of 2 points.

Sales were estimated at 300,000 bales. The frost in the Northwest had some influence during the day, as tending to make nervous shorts apprehensive of a cold wave sweeping down into the belt and toward the close talk of a bullish weekly report to-morrow was revised. The room trade sized up to-day's operations as mostly professional, and it was believed that the bear leader while selling actively on any show of firmness covered on all weak spots. There was some selling during the day by spot houses believed to be hedging purchases of spot cotton.

Receipts at the ports were full, but exports are running liberal, and so far for the month are about 125,000 bales against 18,688 last year. Receipts of cotton at the ports to-day were 26,982 bales against 18,554 last week and 15,781 last year. For the week 175,000 bales against 131,643 last week and 110,483 last year. To-day's receipts at New Orleans were 5,412 bales against 436 last year, and at Houston 13,598 bales against 2,717 last year.

Futures opened steady with prices 2@3 points lower. Soon after the opening prices advanced 10@12 points, but fresh selling by shorts sent them off 7@9 points. The weather map was good, but the country continued to send in complaints of deterioration. According to these reports deterioration was widespread and will result in an October bureau report almost as low as that of last year. In the trading October opened unchanged at 9.91, sold up to 10.01, declined to 9.87 and finally sold up to 9.94.
