STOCKS PULL UP; MARKET STRONG

General Recovery Followed Drop in Morning, Caused by Manipulation.

U. P. UNDER PRESSURE

United States Steel Issues Were Leaders in the Day's Movement.

(By Associated Press.)

NEW YORK, Nov. 25.—The maintenance of the minimum discount rate by the Bank of England, the lack of appreciation as to the demand money market here and evidence of steady improvement in industrial circles, were among the contributing factors to to-day's strong and active stock market. United States Steel issues were the leaders, the preferred and common shares together with sinking fund bonds to moving to new high records for the present movement. The continued absorption of these bonds at the higher level was in excess of $7,000,000 and was assumed to be for investment accounts. After an irregular opening, prices for a number of active issues, chiefly Amalgamated Copper, Sugar and Pacific Mail, took a decided drop, the result, it seemed, of market manipulation. Recoveries were quite general by noon, a number of specialties participating in the movement. Save for some moments of hesitation, the market held strong throughout the afternoon. Heavy buying of Reading attributed to Philadelphia demands, stimulated buying in the other coalers. The most marked exception to the general rise was Union Pacific, which was under pressure all day and made a net fractional decline. Transactions in the Steel shares, which made net gains of 1 3-8@4 1-4 per cent. for the common and preferred, respectively aggregated almost one-third of the day's total operations.

Government bonds were unchanged on call; total sales, par value, $10,740,000.

The total sales stocks to-day were 1,350,400 shares.

MONEY AND EXCHANGE—CLOSE: Prime mercantile paper, 4 1-4@4-4 per cent.; sterling exchange, soft, with actual business in bankers' bills, at $486.85@$486.90 for demand at $484.70@$484.80 for 60 day bills. Poster rates, $487 and $487 1-2 and $488. Commercial bills, $483 3-4@$483 718. Bar silver, 58 3-4. Mexican dollars, 47. Money on call, strong, 3@4 per cent.; closing bid and asked 3 1-2. COTTON MARKETS.

NEW YORK, Nov. 25.—The cotton market showed further activity, the feature being the active liquidation following the third instalment of the ginners' report and the no less active covering of shorts at the declines; the market finally showing a moderate net loss for the day. The opening was weak at a decline of 8@11 points in response to lower cables than expected, while nearby longs were also discouraged by talk of heavy tenders on December contracts and reports that a steamer has been chartered to carry two full cargoes of cotton from New Orleans to New York. Following the call prices worked down to a net loss of about 13 points on continued liquidation and some selling for short account. Liverpool continued easy after the local opening with private cables accounting for the decline by increased crop estimates.

Toward mid-day prices worked up to a little over the opening figures. The instalment of the ginners' report, however, proved more bearish than had been expected, and was followed by a burst of liquidation that soon had the market down to a net loss of 14@16 points. Jlig short lines were covered on the decline, and during the later trading the market ruled steadier. The close was steady at a net decline of 8@10 points. Sales were estimated at 500,000 bales.

Receipts at the ports to-day were 73,532 bales against 62,350 last week and 51,647 last year. For the week 380,060 bales against 381,086 last week and 377,693 last year. To-day's receipts at New Orleans were 22,376 bales against 13,301 last year, and at Houston 6,114 bales against 18,245 last year.

cotton futures opened weak and closed steady:

Futures opened 12@15 points down, the decline here being greater than in any other market. The weakness is generally attributed to the Census Bureau ginners' reports. While many traders do not attach much importance to these reports, prices continue to move downward. December opened 11 points lower than Wednesday's closing at 9.07, sold up to 9.12, declined to 8.95 and finally recovered to 9.03. The closing was fairly steady, the list showing net losses of 13@15 points.
