RAILROAD STOCKS UNSETTLE MARKET

Movement of Northern Securities, Down Then Up, Creates Flutter Among Speculators.

SOUTHERN GROUP STRONG

Rumors of Hostility in Railroad World Cause Acute Suffering to Stocks.

(By Associated Press.)

NEW YORK, April 19.—Speculative sentiment on the Stock Exchange turned again to-day on technical market conditions rather than on intrinsic conditions of values and the news bearing on them. There was another flutter amongst speculators in stocks caused by the renewed slump in Northern Securities on the curb. That stock did not touch yesterday's low price, however, and its downward course was effectually checked and a substantial recovery effected, with corresponding effect on the market for stocks within the Stock Exchange. Doubts were urged of the legal rights of the Union Pacific to hold Northern Pacific or Great Northern stock, which would come to it as proceeds of the Northern Securities dissolution. Alleged intentions to exclude minority representation from the directorates of the two railroads were also discussed. With these suggestions of a spirit of hostility rather than harmony prevailing in the railroad world the so-called "mystery stocks" in the market suffered most acutely from the liquidation, but rallied effectually on the late renewal of harmony reports. There were no dealings in Northern Pacific, but nominal quotations were made for the stocks "when released," and the bid and asked prices thus made showed the price range well sustained near the recent high level. Great Northern preferred sold down 10@13 and rallied 5. This relieved some apprehension that the stocks were likely to slump when the redistribution replenished the supply in the market. The aggressive rise in the Southern group aroused some new conjectures of important financing projects. United States Steel preferred responded on the recovery of confidence in conditions in that trade. Traders who fought the rally by selling short were forced to cover at the last, and made the closing the strongest of the day.

Bonds were irregular. Total sales, par value, $3,410,000. United States bonds were all unchanged on call.

The total sales of stocks amounted to 1,245,900 shares.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., April 19.—Seaboard Air Line common, 18⅝@19; do. preferred, 38¼@39.

COTTON MARKET.

NEW YORK, April 19.—The cotton market, after some irregularity at the opening, was generally easier, under liquidation and bear pressure, based on reports of easier spot markets and continued talk of little, if any, reduction in acreage. The opening was steady at a decline of 1@3 points, which was better than due on the disappointing cables, and at first covering by nearby shorts rendered uneasiness by reports of unsettled weather in the Southwest and in preparation for the week holidays, advanced the nearby months to about last night's finals. But there was quite active selling of new crop positions by the South and Wall Street, and the whole list soon turned easier with prices in the early afternoon 4@8 points net lower.

Following this business was very quiet and fluctuations narrow and irregular. The close was steady in tone, but within a point or two of the lowest at a net decline of 1@8 points. Sales futures were estimated at 100,000 bales. Southern spot markets were officially reported unchanged to 1-16c. lower. Receipts larger and exports moderate.

Receipts at the ports to-day were 31,778 bales against 23,905 last week and 8,803 last year. For the week (estimated) 170,000 bales against 170,860 last week and 68,401 last year. To-day's receipts at New Orleans were 9,906 bales against 4,298 last year, and at Houston 9,313 bales against 1,281 last year.

Cotton futures opened easy, closed quiet and steady.

DRY GOODS MARKET.

NEW YORK, April 19.—The dry goods market presents a good many reasons why the seller should feel encouraged over the situation. Increased desire to operate on the part of certain buyers and the extent to which many lines are sold ahead makes the seller very independent. Jobbers' business has been somewhat hindered by the cool weather, but the outlook is regarded as very favorable in practically all sections, particularly in the South.

Leaf Tobacco Market.

There was more business doing on "the flip" yesterday than the warehousemen and the tobacco buyers anticipated.

True the receipts by wagon were light, not more than twenty-four wheeled vehicles coming in for the breaks, but the railway deliveries were unexpectedly large, and the sales aggregated about 150,000 pounds. The bulk of the offerings was of the commoner and medium grades, but some strictly fine sun-cured leaf showed up. The highest priced pile was knocked out at Shockoe warehouses at $32.

Other plies at this and other warehouses found eager bidders to take them at figures above the $20 mark. A few good fillers readily commanded from $10 to $12.50.

Sales to-day will probably be lighter than on yesterday and will begin at Stonewall warehouse at 10 o'clock, second sale at Shockoe, third at Crenshaw's, and fourth at Shelburne's.

W. D. Buller & Co., Stonewall warehouse, sold on yesterday the crop of tobacco of Judge O. O. Gwathmey, of King William county, $1,400 pounds, for $148, raised on three fourths of an acre of land.

The Produce Market.

Business on "the block" yesterday was more active than on the day before, but not as vigorous as the commission men could have wished. The cool weather has had a cooling effect on receipts, which effect is now being felt.

The demand for country truck is somewhat in advance of receipts, and as a result prices have been stiffer for the past few days all along the line. Fowls are very scarce and high and eggs are getting more and more so every day. The quotations have been run up a point or two. The Cary Street men look for larger receipts with the moderating weather.

Atlantic Coast Line Advance.

(Special to The Times-Dispatch.)

NEW YORK, April 19.—Stocks showed further gains in the late trading, especially Atlantic Coast Line and Louisville, which were the features. The former rising about ten points and the latter four points. In this connection there were reports of increased dividends by both companies. The buying appeared to come from operators who frequently take hold of the southern shares.
