MONEY OUTLOOK CAUSES SLUMP

Prices Unyielding Until Last Hour, When Sharp Losses Made Closing Weak.

NO RELIEF IN SIGHT YET

Speculative Policy to Protect Stocks From Damage While Awaiting Amelioration.

NEW YORK, April 9.—It was not until late in the trading that the lack of relief for the stringency in the money market had any appreciable effect on the tone of the stock market. The break in prices came in the last half hour. A hard, unyielding surface was presented up to that time in spite of the high rates for call money. The rate of renewal by the banks generally was 20 per cent. to 22 per cent., although some loans were made at 25 per cent. Last week's many rumors of heavy gold shipments for import to be secured today eventuated in a single expectation that it gave rise to the sharpest selling movement of the day. The accumulation of selling orders over the end of the week proved to be light and the professional party committed to the rise showed no sign of being shaken in their position. The small offerings during the early part of the day were well absorbed, and while no disposition was shown to inaugurate an aggressive advance, a number of leading stocks gave evidence of being supported. In Union Pacific the supervision of the stock seemed designed to hold it rigid, large supporting orders appearing about 156, while a rise in the price to 156 1-2 brought out heavy selling which was attributed to inside account. The action of this stock was fairly representative of the speculative policy observed in the general market, that is to protect prices from damage while awaiting an amelioration of the money situation.

The unpromising outlook for money relief as much as the actual stringency seemed to prompt the liquidation which developed in the last half hour of the trading. Practically all of the day's losses were made in that time, and the closing was weak.

Bonds were heavy. Total sales par value $2,410,000. United States 2's and old 4's declined 1-8 and the new 4's 1-4 per cent. on call.

Total sales of stocks were 739,300 shares.

NEW YORK, April 9.—Money on call strong, 10@25 per cent.; ruling rate 18@20; closing bid and offered 15. Time loans hard, 60 days 6 per cent., with commission added; 90 days and 6 months 6.

Prime mercantile paper 5@5 1-2@6 per cent. Sterling exchange steady at decline with actual business in bankers' bills at $4.84.25@$4.84.30 for demand, and at $4.81.50@$4.81.60, for 60 day bills. Posted rates $4.83@$4.83 1-2 and $4.85 1-2@$4.86. Commercial bills $4.81@$4.81 1-8. Bar silver 64 1-8; Mexican dollars 49 3-4.

COTTON MARKETS.

NEW YORK, April 9.—The cotton market was quiet during to-day's session with fluctuations narrow and irregular. The close was quiet and steady at a net decline of 1@4 points. Sales for the day were estimated at 75,000 bales.

The opening was steady at an unchanged price to an advance of 4 points in response to higher Liverpool cables and large spot sales in the Enlisgh market. Following the bullish circular, published in some of the Sunday papers by the local market leader, there was a disposition to look for more aggressive bull support this morning, and prices worked up to a net advance of 3@5 points immediately after the call on a scattering demand and covering of shorts. But the expected bull support was not forthcoming, the weather map showed generally favorable conditions over Sunday, the estimates pointed toward large receipts for to-morrow, and in spite of private wires reporting rains in the Carolinas and scarcity of labor, the market eased off to about the closing figures of Saturday. Prices were almost at a standstill during the afternoon, and the close was at practically the low point of the session. Southern spot markets were unchanged. Receipts of cotton at the ports to-day 17,094 bales against 12,153 last week and 31,14 last year. For the week 95,000 bales against 110,332 last week and 171,316 last year. To-day's receipts at New Orleans 5,852 bales against 9,507 last year, and at Houston 2,748 bales against 6,626 last year.

Cotton futures opened steady and closed quiet and steady.

Lynchburg Tobacco Market.

Lynchburg, Va., April 9, 1906.

Sales of loose tobacco on the Lynchburg market for the two weeks ending April 6, 1906, furnished by John L. Oglesby, of Lynch's Warehouse, were as follows:

Sold week ending March 30, 294,400 pounds; sold week ending April 6, 555,200 pounds; increase for week ending April 6, 264,800 pounds.

Sold from September 1, 1905, to April 6, 1906, 13,350,100 pounds; sold from September 1, 1904, to April 6, 1905, 12,460,400 pounds; increase for 1906, 889,700 pounds.

*Receipts for the past week was much heavier than for the past few weeks. The increase is largely due to the very good season for handling tobacco and the land being too wet for farm work. The quality and condition of the offerings continue about as for some week past. The market is quite active and prices on all grades were about up to quotations.

Danville Tobacco Market.

(Reported by Dibrell Bros.)

Danville, Va., April 9, 1906.

As was anticipated after a long spell of wet weather, we have had very heavy receipts this week. For three days of the week the sales have lasted till quite late in the afternoon. The average quality of the offerings has been very good, though high color and low grades were conspicuously scarce. Prices have been firm on all grades, and nothing is being neglected by the full corps of buyers now on the market. Trading in round lots continue active, both for domestic and export purposes. Preparations for the new crop are in active progress and reports from plant beds are that they are in good condition.

South Boston Tobacco Market.

South Boston, Va., April 9, 1906.

Two hundred thousand pounds of tobacco were sold on the South Boston market last Tuesday, that being quite good for this time of year, as the greatest amount of tobacco has been marketed, and there is but a small percentage left in the country. Most of the offerings are common and medium grades.

DRY GOODS MARKET.

NEW YORK, April 9.—A cold easterly wind storm and the advent of the Jewish and Christian holidays of the week aided in making a quiet opening in the dry goods market to-day. There was considerable steadiness in values, and mail orders were in good volume. Domestics were firm, and there were no accumulation of well known goods.

Leaf Tobacco Market.

The sales of leaf tobacco for the week will begin at 10 o'clock this morning at Crenshaw's warehouse. The second sale will be at Sheiburne's, third at Stonewall and fourth at Shockoe. The heavy rain of yesterday kept away numbers of wagons that would otherwise have come in last night to unload for to-day's breaks. However, the receipts by rail were very good yesterday, and all the warehouses will have fairly good breaks this morning.

Produce Market.

The receipts of country produce on Cary Street were larger yesterday than they have been any day for more than a week. Vegetables from the far South are coming in much more freely, and the lovers of good things to eat in this line will be rejoiced to know that lower prices are in sight. Snaps, cabbage, cucumbers, cymblings, tomatoes, lettuce and other spring delicacies are getting more plentiful.

Notwithstanding the larger receipts yesterday, business was materially interfered with by the bad weather, and the dealers on "the block" complained somewhat of dull trade. Prices held up very well, considering the conditions.
