STATE OF TORPOR ON STOCK MARKET

Professional Element Attempts to Inaugurate Upward Price Movement.

GREAT NORTHERN REVIVAL

No Confidence Felt in Permanency of Easy Condition of Money Market.

(By Associated Press.)

NEW YORK, July 11.—The torpor of the stock market was unrelieved to-day, in spite of the small increase in the volume of the day's dealings due to the selling of the final hour. The professional element attempted to inaugurate an upward movement of prices. The various rumors which were advanced to help on the upward movement showed no novelty in conception, having served their purpose many times already. The revival of the subject of the Great Northern ore lands deal was affected by a cabled rumor from London quoting an anonymous director of the United States Steel Corporation as positively asserting that the project has been completed. The volatile hill stocks were the only ones to show much effect. St. Paul moved under the influence of separate reports in connection with the supposed plans for financing the company's Pacific coast extension. The roads showing of a decrease of net earnings for May did not hold it back as the free outlay in operating expenses which brought it about was believed to be connected with immediate outlays on the extension, which might thus defer the necessity of offering securities in the present unpropitious condition. The condition of Reading about completes the list of stocks to show any effect from the abortive effort to lift prices. The advances were indifferently held for a time and then gave way with a reversal of the market position of the professional element when they saw the futility of the attempt to lift prices. The easier conditions in the money market normal to early part of July were maintained, but no confidence was felt in their permancy. Weakness of the market for copper in London helped to depress the copper group in the stock market. The break in Colorado Fuel was interpreted as pool liquidation and helped to the reversal of the earlier movement in the general list. The final hour's transactions proved the largest of the day, and the closing was weak at substantial net declines.

Bonds were heavy; total sales par value, $1,895,000. United States bonds were unchanged on call.

Total sales stocks, 507,000 shares.

NEW YORK, July 11.—Money on call steady, highest 3 per cent.; lowest 2 1-2; ruling rate 2 3-4; last loan 2 1-2; closing bid 2; offered at 2 3-4.

Time loans dull and steady; 60 days 4 1-2; 90 days 4 3-4; six months 5 1-2@5 3-4. Prime mercantile paper 5@5 1-2 per cent. Sterling exchange easy, with slight recovery, with actual business in bankers' bills at $4.8400@$4.8465 for demand, and at $4.8180@$4.8185 for sixty day bills. Posted rates $4.82 1-2 and $4.85 1-2. Commercial bills $4.81 5-8@$4.81 3-4. Bar silver 65 1-8. Mexican dollars 50 1-4. Government bonds steady. Railroad bonds heavy.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., July 11.—Seaboard Air Line, common and preferred—Nothing doing.

COTTON MARKETS.

NEW YORK, July 11.—The cotton market was a little less active than yesterday and ruled irregular with the close steady at a net decline of 2@5 points, which was practically the low point of the session. Sales for the day were estimated at 75,000 bales.

The market opened steady at a decline of 1@3 points in response to lower cables and favorable weather, but immediately advanced on a little scattering demand for long account and covering. Local professional sold on the bulge, and when the overnight buying orders had been executed the market turned easier, ruling very quiet during the middle session within a point or two of last night's close. In the late trading there was some selling for the account of early buyers, and prices eased off another point or two. Old crop months were relatively easy, and August showed the maximum loss. With the exception of some further complaints from the eastern belt, private crop advices were generally good.

Receipts at the ports to-day were 3,799 bales against 5,573 last week and 8,126 last year. For the week 30,000 bales against 25,572 last week and 55,703 last year. To-day's receipts at New Orleans were 542 bales against 2,043 last year, and at Houston 426 bales against 2,696 last year.

NEW ORLEANS, July 11.—COTTON—Spot cotton closed quiet and easy with quotations unchanged; middling, 11⅛c. Total sales were 800 bales, all spot. Futures opened steady, 2 points higher to 1 lower than yesterday's close. During most of the session the market remained steady because of reports of damaging rains on the Atlantic States cotton belt, but late in the day prices fell off under influence of the general dullness. The closing was quiet, 3@5 points under yesterday.

Cotton futures closed quiet as follows: July, 11.00; August, 10.62; September, 10.41; October, 10.50 bid; November, 10.31; December, 10.32; January, 10.38; February, 10.43; March, 10.50.

DANVILLE TOBACCO MARKET.

(Reported by Dibrell Bros.)

Danville, Va., July 11, 1906.

While warehouses still keep open for the sale of tobacco, receipts are so small that the sales last only about an hour each day. Every load of tobacco that is sold represents the last of the owner's crop, and there is practically nothing in the hands of the farmers now. Good prices are being realized for what is being sold, though the stock is not very desirable. Interest is centered in the growing crop, which in the old belt section looks promising. We have had bad reports from South and Eastern aCrolina to the effect that the crop has been considerably damaged by wet weather, and the estimates now fall considerably short of those in the early part of the season. Hogshead tobacco has been very dull this week. The deliveries from the storage houses and factories have been fairly large this week. We have heard of no sales of any considerable quantity.

DRY GOODS MARKET.

NEW YORK, July 11.—Spring lines of wash goods are being bought with a healthy vigor in the dry goods market to-day. Underwear and hosiery mills have the major portion of their product for the next four months assured. Bleached goods are sold ahead in many instances and up close to current production in all. In exports qualities inquiry seems to presage business in the near future, and the whole market is much stronger in consequence.

The Produce Market.

There were no changes in the wholesale produce market yesterday. The receipts of fruits were large, but not larger than the demand. Vegetables were a little scarce, but sufficient for the commission merchants to supply their trade fairly well. Potatoes are plentiful, but the demand is very active, and there has been no falling off in prices. They wholesale readily at $2 to $2.50.

There is marked improvement in the fruits coming in, and no one can complain of the quality of the peaches, canteloupes, berries, etc., now coming to market.

Business was active yesterday, and the commission men had but little trouble in cleaning up shop early in the afternoon.

Leaf Tobacco Market.

All four of the warehouses had fairly good breaks yesterday. The sales aggregated forty thousand pounds, and in the main the suncured stocks offered were of the better class of leaf, fine fillers and good wrappers predominating. The top notch price for wrappers was $30, and this was scored at Stonewall warehouse, where the sale footed up 12,000 pounds. The warehousemen look for equally as good sales to-day.

SLAPPING A GIRL CAUSES A STRIKE

(Special to The Times-Dispatch.)

NEW YORK, July 11.—A slap, administered by a contractor to one of his pretty girl employes, has involved all the neckwear shops in the city in a strike.

When the girls of the Neckwear Makers' Union learned of the indignity to which one of their members had been submitted they demanded in meeting assembled that the offending contractor pay a fine of $5. The Manufacturers' Union rejected the proposition in scorn, and twelve hundred of the girl workers marched out. They decline to return to work until they can consider the slap incident satisfactorily closed by the payment of the fine.

The girls held their mass-meeting at No. 92 Columbia Street, and enthusiastically registered their resolve to stay on strike until all danger of being slapped by a boss had been settled by signed agreements.

"The wages of the neckwear workers are not very high," said Miss Sarah Bramstein, secretary of the union, yesterday, "but at present we only ask that the bosses treat us politely and grant the demand for the recognition of the union. The union wanted revenge when a boss slapped one of its members and tore off her shirtwaist. The girl who was struck considers herself very much insulted. We are going to keep up this strike until that fine is paid."
