NORFOLK, VA., August 6.—Norfolk beat Richmond 8 to 0 in the first game of the series here this afternoon. The Lawmakers played a rather listless game, more so than any game they have put up here this season. In the third inning Norfolk commenced scoring. Hopkins opened with a two-bagger. Foster walked to first, and went to second on Jordan's sacrifice. Old reliable Dingle then walked to the plate with the ash in his hand and dropped one to third, and on Hinton's and Eckstone's wild throws Hopkins and Foster scored. Jackson made the next score in the sixth inning, leading off with a two base hit. Dingle then came to his assistance with an attempted sacrifice. Seitz then dropped one into right, and Jordan scored. In the eighth three hits by the locals, coupled with an error, scored Dingle, Seitz and Wiley, and the scoring was at an end. Richmond at times picked up and played a fast game, but could not make the hits when hits meant runs; while, on the other hand, their errors came when they meant runs for Norfolk. Jordan, the new Tercentennial, did excellent work, but probably would not have shown up any better than Eckstone had that pitcher been given the same support. Norfolk expects to win seven of her eight games this week, and push Lynchburg out of first place. A double-header will be played here to-morrow. The score:

Richmond.

Schuman, the Big Twirler, Was Hit Hard in Sensational Game.

(Special by Southern Bell Telephone.)

LYNCHBURG, VA., August 6.—Schuman, the big twirler, who made the Shoemakers bite the dust at Portsmouth twice in one afternoon, was struck good and hard here this afternoon in a game that was brimful of sensational work. Portsmouth played a good game, despite their three errors, but Carter had them at his mercy, when a single would have meant a run or two. Schuman was hit practically at will, the eleven hits being for a total of fourteen bases. The game was played under a protest from Owner Bland, who had protested Umpire Newhouse, but the work of the umpire was the best that he has done, and there was practically no kicking from the visitors. Tilman took a foul under his eye, when he was batting in the sixth inning, Revel taking his place, but he will be back in the game to-morrow. A double-header will be played to-morrow. The score:

ROANOKE, 7; DANVILLE, 4.

Roanoke's Center Fielder Injured in Slide to Home Plate.

(Special by Southern Bell Telephone.)

ROANOKE, VA., August 6.—The first of a series between Roanoke and Danville was listlessly played, the score being 7 to 4 in favor of the former. The feature of the game was a home run by Powell, of the visitors, in the third inning. Brown, centerfielder for Roanoke, was injured in a slide at the plate and had to retire, which weakened the locals. Benny, Danville's catcher, was credited with four errors, which were costly, he throwing the ball away on two occasions. Roanoke at present is weak in pitchers, Cassidy having been suspended, and Smith and Willis being sick. Davenport, the new pitcher, made his first appearance on the local grounds, and was batted freely. The score:

Plans Looking to National Regattas at Jamestown.

(Special to The Times-Dispatch.)

NORFOLK, VA., August 6.—A conference of representatives of the various boat clubs of the cities of Tidewater Virginia will be held at 4:30 o'clock to-morrow afternoon in the office of Mr. R. H. Sexton, chief of the Department of Congresses and Special Events of the Jamestown Exposition, in the Atlantic building, in connection with the rowing regatta of amateur oarsmen of the United States, which it is expected will be held in Hampton Roads next year.

The National Association of Amateur Oarsmen have already been invited to hold their annual regatta in the waters of Hampton Roads in 1907, and the meeting to-morrow will be held for the purpose of having the local boat clubs supplement the invitation of the Department of Congresses and Special Events, and to secure the effort to get the regatta.

The National Association of Amateur Oarsmen will hold its annual convention at Worcester, Mass., next Friday, and the question will then be decided. The association has also been invited to hold its next annual convention at the exposition, and it is believed that the invitation will be accepted.

Experiment of Substituting Orientals for Negroes in Naval Stores Work Fails.

(By Associated Press.)

GAINESVILLE, FLA., August 6.—After having made the experiment of substituting Chinamen for negroes in the naval stores work, C. W. Chase, the millionaire phosphate miner and naval stores operator, has decided that it is not a success, and has arranged to ship the forty-eight Chinamen back to Portland, Oregon, where he secured them three months ago. It is said the experiment cost Mr. Chase $10,000. The Chinamen were willing workers, but were not physically able to stand the hard labor. They will leave to-morrow for Portland.

SAILED THROUGH CLOUDS 12 HOURS

(Continued from First Page.)

o'clock this forenoon, and as they left New York at midnight last night they were nearly twelve hours on their trip.

Was Great Trip.

The trip was made for the purpose of testing two new appliances, a guide rope and water anchor. The former device worked with great success. The ascent in New York was made without mishap at midnight. The balloon rose high over New York City and sailed over Long Island Sound. After several miles, a thick fog swept over the sound and the aeronauts were unable to tell whither they were drifting.

By the use of his rope Dr. Thomas brought the car nearer earth, and from the blasts of fog-horns he knew he was still over the waters of the sound. Off Bridgeport, Conn., attracted by one of the whistling craft, Dr. Thomas brought his airship still closer the water, and astonished the members of a yachting party by hailing them from mist and darkness. From them he learned his exact position, and then quickly resumed his journey.

At about 5 o'clock this morning the outlines of land could be made out through the fog, and by the aid of his new devices of water anchor and guide rope, Dr. Thomas landed gently at Noank, Conn.

Astonished Natives.

The voyagers had breakfast, and were so enthusiastic over the success of their trip, which at this point had been about 140 miles, the longest thus far attempted by Dr. Thomas, that they decided to continue on their journey.

The sun's action upon the balloon had made it still more buoyant, and as soon as released from its anchorage, the big bag shot up high in the air to a height far above the fog-bank that still hung over the water. Long Island Sound was gradually left behind, and the balloon soared over the hills and meadows of Rhode Island. Desirous of further testing his guide rope, Dr. Thomas dropped nearer to land at Warwick, and descended so close that he was able to ask of wondering inhabitants what place it was. Over Narragansett Bay and into Massachusetts the balloon sailed, and finally the ocean came in view, and preparations were at once made for a final descent. The car dropped rapidly, until it struck the meadowland belonging to George H. Thomas, at Brant Rock. The car, made unsteady by its lack of ballast, bounded along the ground for over a hundred yards before its anchor brought it up, with the open waters of the Massachusetts Bay scarcely three hundred yards away.

May Try for Pole.

(Special to The Times-Dispatch.)

NEW YORK, August 6.—Marcus Hollander, of No. 524 East Twelfth Street, believes he has solved the riddle of the airs. In his airship, which he has patented, he has sufficient faith to trust himself on a voyage to the North Pole, which is his ambition in life, and he talks of the trip with the serene confidence of one who discusses a fact settled.

The most astonishing thing about Mr. Hollander's invention, is that the wings of his flying machine, when folded, would not fill a full grown suit case. When extended their area is so ridiculously small as to excite wonder as to how it can possibly fly.
