CALL MONEY FLURRY SENT STOCKS DOWN

Day's Changes Showed Far More Losses Than Gains.

DISTRIBUTING DIVIDENDS

Begins Monday, and $183,000,000 Is Amount to Be Paid.

NEW YORK, June 28.—The call money market was further disturbed to-day by preparations for the July settlements. Loans made at the Stock Exchange to-day, however, carry over until Monday. On Monday will begin the distribution of dividends and interest to an amount estimated at $183,000,000. Such was the course of reasoning which prompted the pursuit of the early operations in stocks to-day until the failure of New York City bond offering threw a damper on enthusiasm. It is expected that much of this $183,000,000 will find its way back in stocks for reinvestment. It is expected also that the money market will subside into easier conditions soon after the turn of the month.

Call loans touched twelve per cent. to-day. What may happen when the rate for call loans subsides again is an unsettled question. There were further gloomy reports on crop prospects from the same source as caused yesterday's jump in the wheat market and the late reaction in stocks, but both were comparatively indifferent to these forebodings to-day.

Professional operators continued confident by reason of the very scanty offerings of stocks perceptible and the sold-out condition of the market thus inferred. It is freely admitted, however, that the buying now in progress is not generally designed for long holding, but is destined for early conversion into moderate profits, should such profits offer. The speculative contingent had worked itself up into a professed state of great hopefulness over the promised success of the New York bonds offering, which was to be absolute according to the assertions current in the stock market. As the offering proved to be a fiasco, there was naturally some disappointment amongst previous buyers and a sharp reaction ensued. The flurry in the call money market aggravated the reaction, and prices were forced back, so that the day's changes show more losses than gains.

Bonds were firm. Total sales par value, $964,000.

United States bonds were unchanged on call. Total sales to-day, 757,700 shares.

NEW YORK, June 28.—Money on call strong and higher, 6@12 per cent.; ruling rate, 7 1-2; closing bid, 10; offered at 12. Time loans dull and steady; 60 days, 4 1-2, and 90 days, 4 3-4@5; six months, 5 1-2. Close: Prime mercantile paper, 5 1-2@6; sterling exchange weak, with actual business in bankers' bills, at $4.8650@$4.8655 for demand, and at $4.8330@$4.8335. Posted rates, $4.85 1-2@$4.87 1-2. Commercial bills, $4.83 1-8. Bar silver, 67 1-8. Mexican dollars, 52 1-8. Government bonds steady. Railroad bonds firm.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., June 28.—Seaboard Air Line, common and preferred—Nothing doing.

COTTON MARKETS.

NEW YORK, June 27.—The cotton market to-day was more active and ruled generally firm, owing to the prompt stopping of July notices. The close was steady at a net advance of 11@18 points. Sales were estimated at 350,600 bales. The market opened stead yat an advance of 8 points to a decline of 2 points, the old crop being higher on better cables than expected and bull support, while the new crop responded to continued good weather over the belt. It was the first July notice day, and notices estimated to represent about 25,000 bales were said to be circulating. Leading bulls were active buyers of July in the local market, however, taking the long contracts thrown over by traders, and it soon became evident that the notices were being promptly stopped. This steadied the general list, and in the afternoon the market advanced quite sharply with Western shorts buying on the bullish old crop developments, and rumors of hot winds in Texas. At one time prices were about 19@21 points higher on the old crop months and 15@16 points higher on the new. The close was a shade off from the best under realizing. It is now rumored that prominent bulls are practically in control of the local stock, and that further tenders will be taken up on July and August should they be issued.

Receipts at the ports to-day were 4,372 bales against 3,121 last week and 4,450 last year. For the week 23,009 bales against 25,948 last week and 30,798 last year. To-day's receipts at New Orleans 979 bales against 712 last year, and at Houston 77 bales against 1,026 last year.

Cotton futures opened and closed steady.

Consolidated at all ports—Net receipts, 23,613 bales; export to Great Britain, 23,644 bales; to France, 1,786 bales; to the Continent, 13,090 bales; to Japan, 2,525 bales.

NEW ORLEANS, June 27.—COTTON—Spot closed firm and unchanged; middling, 11¾c.; sales were 1,200 bales on the spot with none to arrive. Futures opened steady, unchanged to 1 point below the close yesterday, the July and August options both making marked advances, the former gaining 22 points and the latter 20 during the day, the advance being attributed to manipulation. There was some buying on the strength of the possibility of a long dry, hot spell in Texas, and at the close, which was steady, the active months ranged from 13@14 points ahead of where they stood at the close yesterday.

Cotton futures closed very steady. Closing bids: January, 11.98; March, 12.06; July, 12.68; August, 12.70; September, 12.45; October, 11.98; November, 11.90; December, 11.92.

ON THE LOCAL MARKETS

PRODUCE MARKET ACTIVE YESTERDAY.

The produce market was very active yesterday. Receipts were larger and the demand was sufficient to keep things busy on the block. Vegetables were in heavy receipt, and on some articles prices sagged a little. Standard articles kept up very well, and except for vegetables the changes in the figures asked and readily obtained were only fractional.

The commission men are disappointed in the receipts of peaches from the South. Supplies of this fruit are not coming in as briskly as had been hoped, and the prices keep up to $2.50 to $3 per crate. Chickens are at a standstill, supply and demand being about equal.

FAIRLY LARGE SALES OF GOOD TOBACCOS.

The leaf tobacco breaks yesterday were very interesting to the manufacturers, the offerings being in the main of superior fillers with a considerable sprinkling of good sun-cured wrappers, some of which sold as high as $38. The total sales amounted to 55,000 pounds. The next sales will be made on Tuesday.
