Drugs, Medicines and Toilet Articles

Commencing To-Morrow Morning and Continuing for One Week

Prescription Department

In 1902, in response to numerous demands from our patrons and friends, we established our Prescription Department, which now is a business in itself, requiring the constant attention of five pharmacists and assistants. The medical profession of our city and State, show their confidence in our prescription work by their patronage. Pure, unadulterated drugs and chemicals, and constant attention at accuracy has produced a flourishing condition in this all-important department. Your prescription work solicited, and our guarantee as to accuracy and purity given with each and every one filled.

The increased number of prescriptions filled each year is a solid proof of our popularity in the prescription business.
