CAUSED BY RATS

Destructive Fire Is Narrowly Averted by Work of Firemen.

WASHINGTON, D. C., February 1.—What came near being a very destructive fire in this city was narrowly averted by the prompt and active services of the local fire department early Sunday morning.

The fire originated in the interior of the shoe store of E. L. Brooks & Co., situated in the heart of the business section, and when discovered was making rapid headway. The fire seems to have started near the rear of the building, and it is supposed was caused by rats. The entire stock of this store was badly damaged by the fire and water. The stock of goods was valued at between $8,000 and $10,000, with something over $5,000 insurance.

INSTITUTE TRAIN ON C. & O.

Commissioner Koiner and Others to Address Farmers at Various Points.

Commissioner of Agriculture Koiner has made arrangements with the Chesapeake and Ohio Railway Company to run a farmer's institute train over its main line between this city and the West Virginia line, beginning on February 16th.

This will be the longest trip ever made by an institute train in this State. The commissioner is working out the schedule of the stops to be made, which will be made public in a short time. A number of speakers will be secured, and Mr. Koiner believes that the undertaking will be very successful.

The train is to be extensively advertised along the route, and it is expected that big crowds of farmers will assemble at each of the stopping points. The speakers will address the farmers on corn raising, potato growing, tobacco growing and other subjects that are of particular interest in the various sections where meetings are held.
