New York Stock Market

New York, January 10.—Losses in the stock market during yesterday's decline were largely recovered to-day. The tone was much better. Anxiety caused by the Equitable fire was relieved, although the financial district did not slip back entirely into its accustomed routine. The decision of the governing board of the Stock Exchange to relieve traders affected by the fire from the necessity of delivering securities for an indefinite period put an end to fears of embarrassment on that score, although the fact that vast quantities of stocks and bonds were tied up in the vaults of the ruined building served to restrict business.

The market became active and strong in the latter part of the session, which had been dull after an opening spurt. In spite of its dullness the list was firm throughout the day, with a constant upward tendency. Union Pacific recovered more than two points of yesterday's loss, and virtually all of the active stocks improved substantially. Much of the buying came from the short interest.

The monthly statement of the United States Steel Corporation was a surprise to the street. Preliminary estimates of the amount of the increase in unfilled orders ran from 150,0000 to 5,000,000 tons. The showing of 512,806 tons indicated that the revival in the steel business last month was a decided one.

The market's reception of the steel figures was disappointing to the bulls. United States Steel rose more than a point on the day, but there was no spurt when the figures were made known, and the report seemed to be less of a factor than bear covering in elevating prices.

The demand for bonds was again fairly active. Prices were irregular. Total sales, par value, $4,521,000. United States fours, registered, declined ¼ on call.

Total sales for the day, 432,800 shares, including Sugar, 100; Tobacco, 500; Atlantic Coast Line, 400; Chesapeake and Ohio, 1,100; Louisville and Nashville, 1,300; Norfolk and Western, 300; Reading, 54,000; Southern Railway, 1,200; Southern Railway, preferred, 500; Union Pacific, 93,000; United States Steel, 124,500; Virginia-Carolina Chemical, 100; Lehigh Valley, 28,700.

New York, aJnuary 10.—Money on call easy, 2@2½ per cent.; ruling rate, 2½; closing bid, 2¼; offered at 2½. Time loans soft; sixty days, 2¾@3 per cent., and ninety days, 3@3¼; six months, 3½. COTTON MARKETS.

New York, January 10—An opening decline in the cotton market to-day was followed by quite a sharp rally, but prices eased off again later and finally closed steady at a net loss of from 19 points. The opening was steady at a decline of 29 points in sympathy with lower cables than expected and under selling, inspired by the unsettled tone of the market late yesterday or unfavorable accounts from the Lancashire labor situation. Memphis reported that stocks of low grade cotton were accumulating there, and private wires from New Orleans attributed the easier turn of that market to sales against spots offered from the interior on a tendertable basis.

Receipts to-day 20,317 bales against 36,136 bales last week and 46,651 last year. To-day's receipts at New Orleans 5,775 bales against 11,661 last year, and at Houston 13,116 bales against 11,063 last year at Galveston 8,707 bales against 7,172 last year.

New Orleans, January 10.—Spot cotton closed easy and unchanged middling, 9 3-16c. Sales 1,200 bales and 1,100 to arrive. Cotton futures opened steady, 2 points up to 2 points off compared with yesterday's close. Cables were slightly better than expected, but were balanced by improvement in weather conditions over the cotton region. First prices were the lowest in the early trading. A moderate amount of buying was more than sufficient to absorb offerings, and after the close the market had a rising tendency. Ring traders were better buyers than sellers. At the end of the first half hour of business prices were 5@ points over yesterday's final quotations. The market was very steady throughout the morning session. Buying for long account was in evidence in volume and prices were gradually forced up until the trading months were 10@16 points over yesterday's close. On the way up nervous shorts were good buyers to stop losses. The movement was much smaller and the semi-weekly figures showed a decided loss in interior stocks. The export movement displayed signs of increasing. At the highest longs took profits, and at noon prices were at a net advance of 7@11 points. In the afternoon session longs continued to take profits, and at the close prices showed a net advance of 5@11 points. January, 9.41; February, 9.42; March, 9.48; May, 9.60; July, 9.79; August, 9.76; October, 9.70.

PLANS FOR CANAL OPENING

Proposed Regulations Will Be Subject of Important Conference.

Washington, January 10.—In anticipation of the opening of the Panama Canal the various branches of the government are beginning to make plans. The case involving conflict of jurisdiction between the State and Federal governments as to the pilotage of steam vessels entering the Golden Gate at San Francisco from Atlantic and Pacific ports of the United States, today was advanced for hearing on February 19 by the Supreme Court. This was on the plea that the Panama Canal would be finished before the case could be reported in the regular order.

The House Committee on Interstate Commerce also decided to call naval, revenue cutter, ocean line and other experts to discuss proposed regulations in an effort to adjust canal methods so that a fair portion of the world's commerce may be drawn to the new waterway. Methods of measuring tonnage and the character of supply, commissary and other accommodations to be given ships will be taken up along with the toll problem.

NORWAY'S NAVY

Cabinet Votes More Than Four Million Dollars for Warships.

Christiania, January 10.—The Cabinet has resolved to propose to the Strothing that it vote an extraordinary credit of 16,500,000 kroner ($4,125,000) for the development of Norway's naval defense. The plan is to add to the present navy two armored cruisers and a flotilla of torpedo boats, and includes also the construction of fortifications along the western coast.

The general feeling through the country is in favor of protecting Norwegian waters, which, it is believed, will be the battle place in a future war between great powers.

WEBSTER WILL PLEAD "GUILTY"

Hopes to Get Life Imprisonment Instead of Death Penalty.

Oregon, Ill., January 10.—Dr. Harry Elgin Webster, of Chicago, facing trial for the murder of his wife, Bessie Kent Webster, will plead guilty to the crime of which he is accused in the Ogle county Circuit Court on Friday.

This announcement was made by counsel for Webster, and followed a conference held a week ago with State's Attorney W. J. Emerson, of Ogle county, in which the evidence was carefully gone over by the prosecution and thee defense. No agreement has been made that less than the death penalty shall be imposed, but friends of Webster think the sentence will be life imprisonment, and his counsel are preparing to present a plea in mitigation.

The chain of circumstances against Webster was not discovered for days after the nude body of his alleged bigamous wife, Bessie Kent Webster, was found in the woods between
