New York Stock Market

New York, May 6.—A further readjustment of prices to a lower level occurred in the stock market to-day. Last week's selling movement was resumed on a more generous scale during the morning, and for a time quoted values declined steadily. Pressure was greatest against United States Steel, common, that stock yielding three points before noon, while losses almost as great were recorded by other standard shares. The movement in Steel was concurrent with the formal opening of the hearing in this city of the suit for the government against that corporation, a fact which may have exercised something more than sentimental influence. Other factors that helped in the unsettlement included the probability of fresh political complications arising from the presidential primaries in Maryland; the forthcoming government crop report, from which little of an encouraging character is expected, and the increasing loss and privation caused by the floods along the Mississippi River. To all these might be added the fact that the recent bull market had evidently gone stale, and that technical conditions as a whole favored a reversal of the movement, which at no time had more than a modicum of public support.

In the early afternoon the list manifested some improvement in most branches, with especial strength in Reading, while Steel recovered a part of its earlier decline. The selling pressure relaxed decidedly, and the market then appeared to be undergoing a process of assimilation. There also was some realizing of profits by the shorts, whose operations in the early period doubtless accelerated the decline. The partial rally was followed by another drive against Steel, which sent it to its lowest of the day, and Union Pacific also reflected further heavy selling. From this level the list again advanced some recovery, but Reading almost alone of the speculative issues succeeded in making a net gain on the day. The closing was comparatively dull and heavy.

Some slight firmness for time money other than ninety day rates was reported here, a condition which may be attributed to the preparations now making to meet the large New York City bond offering.

The bond market was irregular for the greater part of the session, with a downward tendency. Total sales, par value, $2,459,000. United States government bonds were unchanged on call.

New York, May 6.—Money on call firmer; 2 3-4@3 per cent. Time loans steady; sixty days, 3 1-4 per cent.; six months, 3 1-2@3 3-4. Prime mercantile paper, 4@4 1-2 per cent. Sterling exchange easy; $4.8425 for sixty-day bills; $4.8655 for demand. Commercial bills, $4.83 1-2.

C. A. WAGNER APPOINTED.

Becomes Superintendent of Road Building in Tazewell.

[Special to The Times-Dispatch.]

Tazewell, Va., May 6.—C. A. Wagner, member of the Board of Supervisors from Clearford District, to-day was appointed superintendent of road building in Tazewell county. He has resigned as supervisor and will open an office in Tazewell, where he will take direct control of the road-building of the county and push the work as rapidly as possible. It developed in the meeting to-day that it is probable that the Board of Supervisors will again ask for bids on certain roads in the county in addition to the roads which it has undertaken to build.

P. St. Julien Wilson, State Highway Commissioner, was present at the meeting to-day, and urged the appointment of Mr. Wagner. Mr. Wilson is en route to Russell county, where bids for a large amount of road will be opened to-morrow.
