# New York Stock Market

New York, June 13.—The proceedings before the money trust committee and further urgent call on our financial reserves were among the few items which bore upon to-day's apathetic stock market.

The stock market movement here was small in volume and largely professional, juding from the efforts to excite interest in issues of unknown merit. The undertone was more steady, however, and practically in the market leaders, Reading, Lehigh Valley, Union Pacific and Canadian Pacific showing some support, although reacting from their best toward the close. Especial weakness in Virginia-Carolina Chemical common, which later affected other fertilizer stocks was among the few noteworthy features. The heaviness of these shares probably originated in the indifferent report submitted by the Chemical Company, thereby disposing of hopes that the former rate of dividend may soon be resumed.

The purchase and speedy sale of $15,000,000 Illinois Central Railroad two-year 4 1-2 per cent. notes the proceeds to be applied to the purchase of Central of Georgia 5 per cent. income bonds, was announced.

A currency transfer of $1,000,000 to San Francisco, its ultimate destination being Japan, was the one notable feature of the local money market rates otherwise being unchanged from the previous day, although lenders show a further disposition to make concessions.

The bond market was steady with total sales, par value, of $1,568,000. United States government bonds were unchanged on call.

New York, June 13.—Money on call steady; 2 3-4@3 per cent.; ruling rate, 2 3-4. Time loans, steady; sixty days 3 per cent.; six months, 3 1-2@3 3-4 per cent. Prime mercantile paper 3 3-4 to 4 per cent. Sterling exchange steady, $4.8475 for sixty-day bills, and $4.8720 for demand. Commercial bills, $4.84.

### COTTON MARKETS.

New York, June 13.—The cotton market was less active to-day and fluctuated within a range of 6 or 7 points, with the close steady, net unchanged to 2 points lower. Offerings were well absorbed around the opening figures by continued support from spot interests, and the market soon stiffened up to a point over the closing figures of last night on this buying and covering of shorts, which may have been promoted to some extent by the official forecast for unsettled weather, with showers in parts of the eastern belt. The advance was checked by scattered Southern and Wall Street selling after the close of Liverpool had shut out arbitrage purchases and the market eased off to a net loss of about 2 points, but rallied again in the late trading and closed 3 or 4 points up from the lowest.

Receipts at the ports to-day, 1,191 bales against 4,811 last week and 1,815 last year. To-day's receipts at Galveston, 711 bales against 127 last year; at New Orleans, 3 bales against 966 last year, and at Houston 252 bales against 900 last year.

# SUMMER SCHOOL AT CHAPEL HILL

## Four Hundred Teachers From Three States Enrolled for Session.

[Special to The Times-Dispatch.]

Chapel Hill, N. C., June 3.—Teachers from three States—North Carolina, Virginia and South Carolina—enrolled at the opening of the 1912 session of the University of North Carolina Summer School for Teachers, beginning June 11, and closing July 20. Reduced rates from points in these three States were an added inducement to the 400 teachers that have already arrived on the "Hill," and this session of the summer school is by 100 teachers the largest in the history of the institution. The scope of the school in both number of teachers and courses have been doubled, and a great work for education in the Old North State is being carried on.

Supplemented to the courses given in the school, the following noted educators will conduct conferences in their respective subjects and deliver public lecures during the 1912 session of the school: Dr. P. P. Claxton, United States Commissioner of Education; Dr. Charles DeGarmo, professor of education in Cornell University; Dr. J. Y. Joyner, State Superintendent of Public Instruction; Dr. J. I. Foust, president of the North Carolina State Normal and Industrial College, Edwin R. Jackson, expert United States Forest Service; Karl Jansen, Swedish-American lecturer and entertainer; Professor Harold Barnes, superintendent of elementary education in Girard College; E. D. W. Connor, secretary of the North Carolina Historical Commission; Dr. W. S. Rankin, secretary of the North Carolina State Board of Health; L. C. Brogden, State supervisor of rural elementary schools for North Carolina; J. A. Bivins, State supervisor of teachers training in North Carolina.

The director of the Summer School, Professor N. W. Walker, in summing up those that are directly benefitted by the school, states that teachers in high schools are first in rank; second, teachers who desire special training in any branches offered, and, third, those who wish to improve their general scholarship.
