New York Stock Market

New York, July 1.—Although the stock market remained in a semistagnant condition to-day there was a distinct improvement in tone. In some parts of the list fair gains were made with the Harrimans, Coppers and Coalers showing most strength.

The day began with renewed bear selling, which was most effective in Union Pacific, Reading, Lehigh Valley and Canadian Pacific. Bear selling failed to shake out long stock, however, and traders reversed their position. The market rose rapidly when covering was attempted, and toward the close trading became more active on the upturn with Union Pacific leading the advance. There apparently was little connection between the news of the day and the movements of prices, owing probably to the highly professional character of trading. The contradictions of a such a market are illustrated by the recent erratic course of Union Pacific, which rose buoyantly last Saturday when consummation of the negotiations for the Harriman dissolution was announced, declined sharply yesterday, after publication of the plan itself, as presented to the court, and to-day was first weak and then the strongest stock in the list.

The money market showed no effect of the disbursement of July 1 interest and dividend payments. If no other result is produced, some rectification is looked for of the poor showing made by the banks in last Saturday's statements, owing to preparations for to-day's payments. Six months' loans, carrying into 1914, were negotiated to-day on a basis of 3½ per cent, which marked no change from recent rates, but was significant mainly from the fact that it indicated an indefinite continuance of the stiffer tendencies for long maturities.

Bonds were steady with some issues showing good improvement.

Bid prices for government bonds were sharply depressed to-day. Ten of the 2s were offered at 99⅞, and no takers following the sale yesterday of two of these bonds at that figure, the first time they had fallen below par. The bid price for the 2s declined ⅜ to-day. The 3s, the coupon 4s and the Panama 3s declined ½ on call. The falling off of these bonds was thought to have been due to the proposal, in connection with the currency bill, for elimination of bond secured currency.

New York, July 1.—Money on call steady, 1¾@2 per cent; ruling rate, 2; closing bid, 1¾; offered at 2. Time loans steady; sixty days, 3½@3¾, per cent; ninety days, 3¾@4; six months, 3¾@3¾. Prime mercantile paper, 6 per cent. Sterling exchange steady, with actual business in bankers' bills at $4.830 for sixty days and at $4.86⅝ for demand. Commercial bills, $4.82¾. Bar silver, 58¾. Mexican dollars, 48. Government bonds weak; railroad bonds steady.

COTTON MARKETS.

New York, July 1.—The cotton market was quiet to-day and fluctuated irregularly within a range of 5 or 6 points on most positions, the close being steady at a net advance of 7@12 points on the new crop but unchanged to 1 point lower on later deliveries. The opening was steady at a decline of 3@5 points and the market sold about 9@7 points net lower during the early trading under scattering liquidation and moderate local pressure. Lower Liverpool cables than expected, unfavorable advices from the Balkans and optimistic crop advices seemed to facilitate the selling, but the market met considerable support at the decline and there appeared to be numerous limited buying orders around the ring for under 11.90 for the winter months. Offerings became less active and prices later in the morning recovered tip on about the closing figures of last night on new crop positions, while July sold a point net higher. A favorable review of the week's weather report, when read in connection with the day's detailed weather advices, inspired renewed pressure during the early afternoon, when selling was also stimulated somewhat by a bearish private condition figure, and the market eased back to about the low point of the morning. It met support of very much the same character as that noted on the early decline, however, and prices rallied up again, reaching the highest point of the day in the late trading, when spot houses were buyers of August, and there seemed to be some demand for October from people who were selling July. Last prices were within a point or two of the best.

Cotton, quiet; middling, 12.40; gross receipts 226 bales; sales, 14,900 bales; stock, 59,643 bales; export to the Continent, 1,100 bales.

Total to-day: Net receipts, 5,082 bales; export to Great Britain, 354 bales to the Continent, 4,600 bales; stock, 247,312 bales.

Consolidated at all ports—Net receipts, 12,773 bales; export to Great Britain, 4,720 bales; to France, 1,161 bales; to the Continent, 26,213 bales; to Japan, 917 bales.

Total since September 1 at all ports—Net receipts, 9,693,154 bales; export to Great Britain, 3,441,887 bales; to France, 956,692 bales; to the Continent, 3,409,281 bales; to Japan, 284,079 bales; to Mexico, 12,015 bales.

New Orleans, July 1.—The cotton market was narrow to-day with no great volume of business. Trading was chiefly from the professional element; it was a waiting market, with nothing to disturb opinions that have been arrived at concerning the pending reports on condition and acreage. The trade looks for a condition report of 82 to 83 per cent, and a report on acreage showing an increase of about 3 per cent. The opening was steady at a decline of 12 points. Cables were about as expected, but some selling was aroused by the continued showery weather in the cotton region. The lowest price of the day showed a net loss of only 3@4 points. From the middle of the morning on the market displayed a tendency to work higher as the result of decidedly bullish statements concerning drought in Arkansas in the weekly weather reports. Bulls, however, were not willing to take hold of the market because of the foreign political situation, in the afternoon the market at its highest was 6@6 points over yesterday's last quotations. The close was at a net advance of 3@8 points. Spot cotton steady and unchanged; middling, 11⅝c. Sales on the spot 133 bales and 6 to arrive. Closing futures: January, 11.49; March, 11.59; July, 12.45; August, 12.06; September, 11.60; October, 11.48; December, 11.46.
