STOCKS CARRIED TO NEW LOW LEVELS

Early Prices in Market Are Heavy, and There Is Much Foreign Selling.

BONDS ACTIVE AND STEADY

Unusually Large Dealings in New York Railway Adjustment 5's.

BY BROADAN WALL.

New York, February 26.—Improvement in the financial situation at Paris and a substantial advance in British consols brought a cheerful feeling at London. This was reflected by purchases of the international stocks here. Early prices were heavy, and for the first half hour foreign selling carried stocks to new low levels.

Local shorts covered stocks freely, and prices hardened, with strength in the low priced issues. Rock Island shares have apparently reached the bottom for the time being—in fact, the stocks appear oversold, and a further rally is expected. The preferred is considered relatively the cheapest. To-day's recovery was well over a point in both issues.

Buchanan may not know the difference between a plowshare and a threshing machine, but he is conceded a good judge of market movements. Taking the Rumsly stocks in hand, he advanced the price of the common from 13 to 15 and the preferred from 28 to 31.

Steel common, after selling at 63¾ at the opening, was in good demand at 64⅝ at the close, and is expected to recover the quarterly dividend that comes off on Monday.

Union Pacific sells ex-dividend on Monday, and traders who were short covered, while others took the long side in hopes of better prices. Canadian Pacific and Southern Pacific will be "ex" to-morrow. Low priced stocks showed the smartest rallies. Denver common and Denver preferred showed gains of two and three points. Wabashes were stronger, and Missouri Pacific firmer on the publication of an optimistic interview with George Gould. Missouri, Kansas and Texas, that sold below 16 in London, was firm here at 17¾.

London cables indicate that most of the selling in American stocks came from New York, and the opinion prevails that efforts were made to exaggerate the low prices for the purpose of depressing quotations here. The rumors of trouble in Paris are also being overworked by stock market bears.

Baldwin Locomotive rose from 42¾ to 45 on the report that the company will show a handsome increase in net earnings in the annual report. Copper stocks were just barely steady, and Northern Pacific broke a point on rumors of fresh financing. For some time this stock has acted badly.

Bonds were active and steady, with unusually large dealings in New York Railway Adjustment 5s, and although the price fluctuated between 61 and 62, the closing was unchanged.

Efforts of the Third Avenue Railway to sell $4,000,000 of its first mortgage bonds direct to the public will be watched closely. The announcement that Erie had sold $15,500,000 5½ per cent three-year notes to retire the $12,420,000 notes, due April 8 next, and other bank loans, was without market effect.

January earnings of Union Pacific showed a loss of $327,000 in gross, but only $25,000 in net. Southern Pacific lost $370,000 gross and $361,000 net.

Stocks acted well to-day. Prices recovered easily, and brokers went home with the impression that the drive against values had, if anything, improved the speculative position.

New York, February 26.—The aggressive bear party, which took control of the stock market yesterday, renewed the attack at the opening to-day. There was heavy selling, but the decline was small and of short duration. A better demand appeared at the lower level, and the downward movement was checked. Shorts, unable to bring about a further break, began to cover, and prices rose fractionally above yesterday's close. There the movement ended. Foreign selling was less of an influence than on the preceding day, although London continued to dispose of stocks here. Denver and Rio Grande and Rock Island shares made good gains, and the declines in Missouri Pacific and the Wabash issues. Missouri, Kansas and Texas stocks were halted.

Long operators made no attempt to force up the market. Possibility of a shift in the Mexican situation made traders reluctant. January figures of the Harriman lines were in line with reports of other railroads, indicating a general falling off in gross earnings. Union Pacific's gross decreased $327,000, but the net shrinkage was held to $25,000 by means of a contraction in operating expenses. Southern Pacific's gross decreased $370,000, and its net nearly as much. Bonds were steady. United States bonds were unchanged on call.

New York, February 26.—Call money steady; 1¾@2; ruling rate, 1¾; closing, 1¾@2. Time loans firm; sixty days, 2¾; ninety days, 3; six months, 3¼@3¾. Mercantile paper 3¾@4½. Sterling exchange steady; sixty days, $4.8375; demand, $4.8800. Commercial bills, $4.83. Bar silver, 57⅞. Mexican dollars, 45. Government bonds steady. Railroad bonds steady.

COTTON MARKETS.

New York, February 26.—Scattering March liquidation in preparation for the notices expected to-morrow gave cotton a more or less unsettled appearance to-day. The certificated stock of cotton available in New York is now about 67,000 bales, and according to estimates heard in local circles today, it is expected that notices will be issued against some 40,000 or possibly 50,000 bales of this cotton. The market closed steady, at a net decline of one point on March, generally speaking, to nine points net higher. The market was irregular from the start. Cables were better than due, however, and after opening steady at a decline of one point to an advance of two points, May and later deliveries gradually worked some six to nine points above yesterday's close. After selling three points net lower, March rallied slightly, with the rest of the list, but fluctuations were higher in the later trading on continued scattered liquidations.

Houses with Liverpool connections sold October and March here during the morning, but were buyers of May and July, while leading spot brokers were supposed to be selling May for interests expected to stop March notices to-morrow.

Small sales were again reported in Southern markets, but there was nothing in hte news to indicate any pressure of spot cotton, and much of the day's business was supposed to represent a readjustment of switches or straddle accounts.

Spot cotton quiet; middling uplands, 13.60; gulf, 13.25. No sales.

Cotton Futures closed steady:

Total to-day at all ports—Net receipts, 25,747 bales; export to Great Britain, 31,810; to the Continent, 21,078; stock, 1,020,530.

Consolidated at all ports—Net receipts, 117,871 bales; export to Great Britain, 81,441; to France, 26,082; to the Continent, 89,384, to Japan, 5,820; to Mexico, 1,863.

Total since September 1 at all ports—Net receipts, 8,766,778 bales; export to Great Britain, 2,631,891; to France, 890,823; to the Continent, 2,974,765; to Japan, 290,177; to Mexico, 23,785.

New Orleans, February 26.—While the cotton market to-day was dull, it was steady, and at times showed strength. The close was at a net rise of five to seven points. The highest levels of the day were nine to ten points over yesterday's close. Buying appeared to be about equally divided between the two accounts. Shorts appeared to be nervous over the prospects of large spot buying to fill march shipments.

The light movement stimulated purchases for long accounts. It was pointed out that receipts at all ports have been lighter each day this week than for the corresponding day last week, and a marked falling off in the into sight figures was predicted.

Bullish comment was to the effect that the market was oversold, but bears were of the opinion that a large number of March notices due to-morrow would result in heavy liquidation.

Spot cotton steady, unchanged; middling, 13c; sales on the spot, 1,187, to arrive, 750.

Cotton futures closed: March, 12.47; May, 12.34; July, 12.55; August, 12.11; October, 11.63; December, 11.63.

Potatoes, Peanuts and Cabbages—Steady and unchanged. Freights—Easy; grain to Liverpool, 1¼d.

CHICAGO GRAIN MARKET.

Chicago, February 26.—Although wheat prices to-day felt the effects of the crop deficit in Argentina, Australia and India, export demand failed to come up to what was looked for. Accordingly, the market had a weak finish, at ⅛ to ⅛@¼ net advance. Other speculative articles closed irregular—corn a shade off to ⅛@¼ up, oats unchanged to a sixteenth higher, and provisions varying from 10 cents decline to a rise of 2½c.

COLORED WIGS THE RAGE

Parisian Sensation Adopted by Philadelphia Society Women.

Philadelphia, February 26.—Mrs Barclay Warburton, who was Miss Mary Wanamaker, a daughter of John Wanamaker, yesterday walked down Broad Street to the Ritz-Carlton wearing a vivid green wig, thus earning for herself the distinction of being the first to adopt in public in this country the fashion which has created such a furore in Paris.

Colored wigs, eight of them, made their deb
