I. C. C. NEW HAVEN REPORT ALREADY DISCOUNTED

From Professional Point of View, Arraignment Is Merely Matter of History.

STOCK IS LIKE RUBBER BALL

Foreign Selling Appears in Volume at Opening and Lasts Intermittently all Day—Banks Asking Higher Rates on Time Funds.

BY BROADAN WALL.

New York, July 14.—To-day's stock market hung on the expectation of a decision on the Union Pacific segregation, and Wall Street went home disappointed. The news on this important subject not appearing until after the close, Union Pacific won.

New Haven bounced around like a rubber ball, rising to 57 3-8, dropping to 54 1-4, a new low figure, and rebounding to 56. From the professional point of view, the I. C. C. report is merely a matter of history already discounted. Perhaps too many traders were short. Nothing ever happens to railroad directors, and there is little expectation that precedent will be altered in this case. Security holders pay all the losses, and no mistakes are rectified.

Foreign selling appeared in volume at the opening, and lasted intermittently all day, transactions totaling some 20,000 shares with the bulk of the dealings in Canadian Pacific, Steel common and Amalgamated Copper. At London there was selling pressure from the Continent and from New York.

Short covering provided most of the buying, and support of this nature is not usually of a permanent character. Union Pacific, the low point of 153 3-4 at the opening, rose to 155 1-4 at the close.

Baltimore and Ohio was affected adversely, dropping to 88 1-4, but recovering a point later. Canadian Pacific showed better resistance, with a fairly good demand around 186.

The tail sometimes appears to wag the dog. Central Leather was the first stock to advance, rising from 25 1-2 to 27 on aggressive buying by Shearson, Hammill & Co. This stock is a speculative favorite.

Why traders should go short of a stock selling around 10, will always be a mystery to many. Missouri Pacific recovered nearly 2 points, with the floor traders bidding against each other. California Petroleum rose nearly 2 points on the report that a new gusher had been opened; Amalagamated Copper recovered, although foreign houses were sellers on every 1-8 advance.

Coal stocks rose easily, Lehigh Valley gaining 2 points, and Reading 1. Steel moved up a point, absorbing all foreign offers. The recovery in prices extended to the bond market. New York, Westchester and Boston 4 1-2s gained 2 points. Missouri Pacific issues from 1 to 2 points and Western Maryland 4s a point. Wabash refunding 4s were heavy.

Rains in the Ohio Valley benefiting growing corn was the favorable feature of the government weather report. Reports from the other sections were favorable, with the exception of cotton fields in Texas and Oklahoma. In preparation for the crop moving period, banks were asking higher rates for time funds. Local banks have lost some $40,000,000 to the government since Friday.

Without co-operation from bankers and in the absence of market leaders, professional traders were taking their cue from the selling by investors, for until this movement ceases, nothing more than a traders' rally is expected. The favorable decision from the New York State Court of Appeals on Union Pacific's extra distribution should have a steady influence. The undertone, however, of the market is far from cheerful.

New York, July 14.—The movement of stocks was irregular to-day, but the undertone in the season issues was firm. Several new issues attracted were abortive, except the issue of New Haven which fell to a new low record at 54, recovering about half its loss. The denunciation of the former New Haven management by the Interstate Commerce Commission was uppermost in the minds of the financial community, and was a deterrent in investment circles.

In addition to New Haven, lower prices were registered by Canadian Pacific, in which the previous day's liquidation was pushed. There were intermittent bear onslaughts against New York Central, Baltimore and Ohio and other issues of the same class, but support was invariably followed by sharp rallies. Gould issues, the chief cause of the preceding week's uneasiness, were relatively strong.

Some of the speculative special issues, as California Petroleum common, and preferred and Central Leather made substantial advances, but their market influence was negligible. Reduced dividends resulting from poor earnings were decreed by the directors of the Pacific Tel. and Tel. company on the second preferred and the common stocks.

London sold a considerable amount of the active issues here, but a part of the selling was believed to have its origin at this centre. Advices from several important trade centres reporting curtailment of operations were neutralized by word at the White House predicting an early business boom in the Middle West.

Bonds dealings covered a wide range, with fluctuations of 1 to 3 per cent. United States bonds were unchanged on call.

New York, July 14.—Mercantile paper 5@6%. Sterling easy; sixty days $4.83@; demand $4.85@. Commercial bills $4.84@4.85. Bar silver 50¾. Mexican dollars 42½. Government bonds steady; railroad bonds irregular. Call money steady, 2@2½; ruling rate, 2½; closing bid, 2. Prime, 3@4½. Sixty days, 2½@2¾; ninety days 3; six months, 3.

COTTON MARKETS.

New York, July 14.—The cotton market was more or less unsettled and irregular during to-day's trading, an early advance being followed by reactions, with the close steady at a net loss of four to eight points.

Reports of continued dry weather in the Southwest, relatively steady cables and the failure of the census report on supply and distribution to show as big a falling off in domestic mill consumption for the month of June as some of yesterday's sellers had expected appeared to be responsible for an opening advance of two to six points.

Prices worked another point lower to two higher right after the call, but met a good deal of realizing, and offerings became heavier after the publication of the Western forecast for cloudy weather in Arkansas and partly cloudy conditions in East Texas.

The summary of the weekly weather report read bullish enough to cause a rally of several points shortly after midday, but the details by States were very encouraging as to conditions over the greater part of the belt, and the market eased off again during the afternoon.

As prices worked lower local bears appeared to become somewhat more confident with the new crop months selling nine to eleven points net lower from the best price of yesterday. Closing figures were three to four points up from the lowest on covering.

Cotton futures closed steady.

TATE SPRING

A high, cool, healthful resort in the heart of the Cumberland Mountains of East Tennessee, an unexcelled climate.

Modern hotel—one thousand acre park and grounds—eighteen hole golf course—saddle horses—fine five-piece orchestra for concerts and dancing and *that most famous of all American Mineral Waters,*

TATE SPRING NATURAL MINERAL WATER

always a help, nearly always a cure in indigestion, nervousness and all ailments attributable to improper functions of the bowels, liver and kidneys.

Rev. Dr. E. E. Hoss, Bishop Methodist Church, Nashville, Tenn., says: "It gives me the greatest pleasure to say that I regard Tate Spring water as the best remedy for all disorders of the stomach, bowels, liver, and kidneys of which I have knowledge."

Enjoy the healthful water at the spring or have it shipped to your home. For sale by all druggists, in sterilized bottles, filled and sealed at the spring.

Rates $15 to $42 per week, according to location and number of persons occupying room. Write for booklet.
