SOUTH RICHMOND

WAGONS WILL HAUL PUPILS TO CHESTER HIGH SCHOOL

Preparing for Opening of Educational Season in Chesterfield County.

SOUTHSIDE OBSERVES HOLIDAY

New Schedule on Hull Street Line Proves Satisfactory to Many Patrons—Cars Now Run to Seventh and Broad Streets.

Transportation for pupils living off a car line or without convenient means of reaching school will be provided by the Chester Agricultural High School this year. A large covered wagon, seating twenty-five or thirty persons, has been purchased by the school board, and will arrive in Chester this week.

This plan was tried with much success last year in the country districts, enabling many children to attend who would not otherwise have gone to school. Similar wagons will be in use in several of the grammar school districts of the county.

The session of the Chester School, as well as of the other institutions in the county, will open on Monday next. A large enrollment is expected, and the corps of teachers has been enlarged.

Southside Observes Holiday.

Almost a general holiday was observed on the Southside yesterday in celebration of Labor Day. The business houses, city and government offices were closed all or part of the day in order to give their employes a holiday. Forest Hill and Hull Street cars were crowded, most of the passengers being headed for the State Fair Grounds, where organized labor held its annual picnic.

Masons Elect Officers.

Manchester Chapter, No. 48, Royal Arch Masons, have elected the following officers:

C. P. Wilmouth, high priest; W. J. Fisher, king; G. W. Smart, scribe; A. L. Sampson, treasurer; G. W. Jewett, secretary; W. L. Reams, captain of hosts; J. W. Johnson, principal sojourner; D. R. Ballard, royal arch captain; T. C. Gibson, master of first veil; J. Ledbetter, master of second veil; C. S. Latham, master of third veil; chaplains, T. H. Fisher and John W. Kincheloe; V. E. Linton and W. A. Sampson, tilers.

Schedule Works Well.

Superintendent W. S. Bryce, of the Southside lines, said yesterday that an excellent schedule was being maintained on the Hull Street line, which on Sunday was extended to Broad Street. An extra car has been put on, which enables the movement to leave promptly on the even ten minutes. Southsiders are much pleased with the change, as was evidenced yesterday, when an appreciable increase was shown in the number of passengers carried.

A Hull Street car will now leave Seventh and Broad Streets at 1 o'clock in the morning. This will be the last car until the first one runs out of the barns at 5 o'clock. The same schedule is in effect on the Forest Hill line.

Funeral of Mr. Savery.

The funeral services of Oliver A. Savery, who died on Monday night at his home, 120 West Fourteenth Street, will be held this afternoon at 4 o'clock from Cambridge Street Baptist Church. Mr. Savery, who was eighty-years old, is survived by five children, Mrs. R. J. Battons, Mrs. C. E. Jewett, Mrs. J. J. Roach and C. W. and W. L. Savery.

Assailant Used Ice Pick.

Herbert Clifton, colored, was fined $10 by Magistrate L. B. Franklin yesterday in Police Court, Part II., on the charge of assaulting Richard Woolridge, colored, with an ice pick. Woolridge was badly cut on the arm and leg.

Personal and General.

Littlepage Ingram left yesterday afternoon for Lexington, where he will attend the Virginia Military Institute. Mr. Ingram, who was a student at the John Marshall High School last year, and stood high in his class, was appointed as an alternate State cadet to the institute last spring.

Judge Ernest H. Wells and family have returned from Atlantic City and other Northern resorts, where they spent some time.

The Philathea class of Stockton Street Baptist Church will give an open party to-night at the home of Mrs. Carney, on Cowardin Avenue.

Mrs. Pattie Tyree, who has been spending the summer with her son, J. U. Tyree, of Woodland Heights, has returned to her home in Rocky Mount, N. C.

Miss Mattie Ellington, who has been visiting relatives in North Carolina, has returned home.

Reezell Speaks for Prohibition.

[Special to The Times-Dispatch.]

LEXINGTON, VA., September 7.—George R. Reezell, of Rockingham County, former State Senator, spoke in Lexington to-day in advocacy of State-wide prohibition. Parker K. Buckman, of Augusta County, also spoke in favor of State-wide prohibition.

GERMAN CRUISER STRIPS WIRELESS OFF FREIGHTER

British Ship Takes Cargo of 900 Tons of Coal to the Leipzig on Way. War is Declared.

SAN FRANCISCO, September 7.—The British freighter Centrania, under charter to the German government, was stripped of her wireless by the German cruiser Leipzig on August 3 off Magdalena Bay, lower California, and her cook, German, and one other German reservist were taken aboard the Leipzig.

This was the word brought by Captain Malstead of the British naval reserve, commanding the Centrania, which arrived here today. He left July 23 laden with 900 tons of coal, consigned to the Leipzig. The two vessels met in Magdalena Bay, and the Leipzig was coaling on August 4, the day war was declared.

Not until some time later, through Rear Admiral Hesseloe, at Magallan, commanding the American Pacific fleet, did the Centrania learn that war had been declared. Coaling hastily, the vessel hugged the three-mile limit.

May Skirt South America.

SEATTLE, WASH., September 7.—The German cruiser Leipzig, which has not been sighted in these waters since August 15, when she was at Cape Mendocino, Cal., is believed to be working her way to the Atlantic Ocean by skirting South America. She can obtain coal and shelter here, and if chased into port by a superior force she can dismantle and tie up.

The British admiralty, to show it is positive that the Leipzig has left the North Pacific, has given up its charter of the fast Grand Trunk steamship Prince George, which was used as a scout ship when it was feared the Leipzig was bound northward.

REFUGEES UNANIMOUS IN PRAISE OF GERARD

Through Efforts of American Ambassador Are Enabled to Leave Europe for United States.

[Special to The Times-Dispatch.]

NEW YORK, September 7.—Refugees arriving on the freighter Westerdyck were unanimous in their praise of Ambassador Gerard for his work in helping Americans to leave Europe. The Westerdyck's passengers, twenty in number, were all men, and through Ambassador Gerard, were enabled to leave Hamburg on a special train for Rotterdam.

M. Grieshelm, of Lincoln, Ill., said that on the day they left Hamburg, thirty German women combined to give them a farewell reception and all along the route the Americans were heard to "tell the truth about Germany" when they reached home.

Eleanor Painter, an American opera singer, whose home is in Colorado, was also among the refugees arriving here to-day. She paid a glowing tribute to the patriotism of the German women and declared that much printed about conditions in the Fatherland were grossly exaggerated.

"The women of Germany are facing the situation with heroic calmness," said Miss Painter. "Realizing that nearly the whole world is against their country, they have no false ideals of the seriousness of the struggle. It is all for the Fatherland, and if the men are swept away the women will continue the fight."

She said Berlin was normal when her party left on August 26, and the prices of food had not changed from the levels of before the outbreak of hostilities.

MONTAGUE IS ORATOR.

His Address Feature of Flag-Day Celebration at Roanoke.

[Special to The Times-Dispatch.]

ROANOKE, VA., September 7.—"Flag Day" was celebrated here to-day, it being Roanoke's observance of the "Star Spangled Banner" centennial.

A monster parade, in which the fraternal, labor and military organizations of the city participated, and exercises in Elmwood Park made up the program.

Congressman A. J. Montague, of Richmond, was the orator of the occasion. Following Mr. Montague's address, a United States flag was raised on an eighty-five-foot pole in the park and a salute of twenty-one guns fired.

The celebration was the largest ever held in the city, and several thousand people from the surrounding country attended. The weather was ideal.

SWANSON AND GLASS SPEAK AT LABOR DAY CELEBRATION

Greatest Crowd Ever Assembled at Buckroe Beach Enjoys Day's Events.

[Special to The Times-Dispatch.]

NEWPORT NEWS, VA., September 7.—With United States Senator Claude A. Swanson and Congressman Carter Glass as the principal speakers, and with the greatest crowd that has ever assembled at the resort, the annual Labor Day celebration of the union men of this city and section was held at Buckroe Beach to-day. Both speakers carefully avoided politics in their addresses, and, contrary to the expectation of some, Congressman Glass made no political announcement. His only reference to politics came at the opening of his address, when he ruefully told his audience that he had asked Mr. Swanson for a copy of the latter's address in advance, but was refused. "Had I beaten Claude Swanson in the contest for the senatorial nomination several years ago as badly as he beat me, I would have been willing to have given him anything he might ask for, in the speech line," he declared, amid applause.

Senator Swanson lauded President Wilson for not having the United States at war with Mexico, contrasting the present conditions in Europe with the due results obtained by President Wilson by his policy of "watching and waiting."

"If some persons," said the Senator, with emphasis on the some, "were President to-day conditions would be different and hope would be hanging on the doors of many homes in this country."

RESOURCES OF FRANCE TAXED IN CARRYING WAR BURDENS

Movement of Troops and Handling of Wounded Make it Difficult to Get Transportation.

NEW YORK, September 7.—That the resources of France are being taxed in carrying out troop movements and handling wounded, was the report brought by Americans arriving on the French Line steamship Rochambeau, which docked here to-day from Havre. The liner brought 916 persons.

Many from Paris reported all special trains from that city were crowded, and at Havre there was extreme difficulty in getting steamer passage, the Rochambeau carrying several hundred above her normal accommodations. Food supplies were scarce, and ships leaving were carrying only sufficient for the outward voyage.

Wounded soldiers were arriving in Havre on all trains. Every form of conveyance was commandeered to transport the men to hospitals. Several passengers said that before the Rochambeau left Havre, there arrived in the city about 1,000 Belgian soldiers, remnants of a regiment that escaped from the forts of Namur. They had their rifles, but ever round of ammunition had been used before they retreated. The Belgians, as they marched through the streets, were given an ovation. They were at once placed on a steamship for Antwerp.

The Atlantic transport liner Minnetonka also arrived to-day from London with 175 passengers. Among these was C. M. Johnstone, third assistant secretary of the American embassy in Berlin, who has been in Berlin four years, and is returning to Washington for a change of assignment. The German government provided Mr. Johnstone with a special train out of Berlin.

Chancellor James R. Day, of Syracuse University, who returned on the Minnetonka, expressed anxiety regarding the safety of American missionaries and teachers in Turkish territory.

BLAST FELT FOR MILES

Dextrine Building at Glucose Plant Wrecked by Explosion.

[Special to The Times-Dispatch.]

NEW YORK, September 7.—Five men were probably fatally wounded and six others suffered painful injuries when the dextrine building of the New York Glucose Company's plant, belonging to the Corn Products Refining Company, was wrecked by an explosion to-day. The blast was felt for miles along the Hudson, and the fashionable Riverside Drive section of Manhattan was perceptibly shaken. Five hundred employes in other buildings of the works were restrained from fleeing by the foreman. Many heroic rescues were effected.

TO SAVE WORKS OF ART

Various Want United States to Make Representations to Germany.

WASHINGTON, September 7.—Neutral diplomats have asked Ambassador Herrick at Paris to sound the American government on the question of making joint representations to Germany to protect certain buildings and works of art in the attack on Paris. This is the substance of official advices received to-day. The United States is looked on as the neutral leader in such a movement, and Ambassador Herrick, it is understood, has asked for instructions.

Ambassador Herrick, it is thought, probably will be informed that the United States will transmit communications from other countries and discuss the subject with Germany, but will not do more than act as a channel of communication.

ADJUDGED INSANE

Roland B. Molineux Committed to Asylum by Lunacy Board.

BABYLON, N. Y., September 7.—Roland B. Molineux, of New York, twice tried for the murder of Mrs. Katherine J. Adams in 1902, and acquitted on the second trial, was adjudged insane today by a board in lunacy, and committed to the Kings Park Asylum.

DANIELS GIVES COUNSEL TO AMERICAN EDITORS

Printing of News Should Be Subordinated to Service of Country When International Issues Are Involved.

GERGENNES, VER., September 7.—Subordinate the printing of news to the service of the country, especially when international issues are involved, and the times are fraught with peril, was the counsel of Josephus Daniels, Secretary of the Navy, to American editors and publicists as expressed here to-night before the Vermont Press Association. Mr. Daniels declared no editor could be patriotic who permitted his love for sensation or his zeal in printing news to lead to the publication of something that might embarass his government in diplomatic relations with another.

"The duty of the press is to be critical, but always just and accurate," the secretary said. He emphasized the responsibilities of the editor, but asserted his duty was first that of a citizen.

"If the press does not battle for the people, it has degenerated into a mere phonograph," he said. "I sometimes fear that the editor of to-day has forgotten his mission. He sometimes thinks he is chiefly a purveyor of news, and that his work is ended when he has given accurate descriptions of current events. Yellow back dime novels have been the undoing of many imaginative youths, but they have been wholesome in comparison with the sensational journals, whose columns reek with the slime of the slums."

Mr. Daniels declared his agreement with Thomas Jefferson that if given to choose only one, a free government or a free press, he would choose the latter.

"Wherever there is a free press," he added, "a government cannot long be unjust."

SHOOK FACTORY DESTROYED.

Loss of More Than $100,000 Caused by Fire in Wilson.

GREENSBORO, N. C., September 7.—The entire plant of the W. L. Russell Shook and Lumber Company, at Wilson, N. C., was destroyed by fire this afternoon, and with it nearly 2,000,000 feet of lumber. Eight freight cars loaded with lumber were also destroyed before they could be moved, and in addition several empty cars of the Norfolk and Southern Railway. The loss is placed at more than $100,000, with $40,000 insurance. The fire originated in the filing-room.

Roberts Opens First Term.

[Special to The Times-Dispatch.]

BRISTOL, VA., September 7.—Floyd H. Roberts, appointed judge of the Corporation Court here by Governor Stuart, opened his first term to-day. He is one of the youngest judges in the State. He was educated in law at the University of Virginia.

GROWTH OF UNEMPLOYMENT VIRTUALLY HAS STOPPED

Recruiting, Which Is Proceeding at an Amazing Rate, Accounts Somewhat for Improvement.

LONDON, September 7 (10 P. M.).—A return issued by the board of trade to-night shows that the growth of unemployment has virtually stopped. In the trades where insurance against unemployment is enforced the percentage of unemployed is 6.24—almost exactly the same as last week, and compare with 2.34 last year.

The number of persons seeking employment at labor bureaus actually has fallen off, but is still about double what it was a year ago. Recruiting, which is proceeding at an amazing rate, accounts somewhat for this, particularly in the north and in the mining districts. Recruits are applying in such numbers that at some places it has been decided to close the recruiting offices for a week.

Prices of food show little change, and this is due more to increased freight and insurance rates than to a shotage of supplies. Meat and fish are arriving in almost normal quantities.

The saloons of London are closed hours earlier than usual. At Hull, Chatham and other places, where many sailors are congregated, they have been closed entirely, while in other provincial towns the hours for remaining open have been reduced.

INTEREST OF CONGRESS CENTRES ON WAR TAX BILL

House Committee Hopes by Thursday to Agree on Commodities to Bear Burden.

MAY PASS BY SATURDAY NIGHT

Automobiles and Moving Pictures Appear Most Likely Additions to List of Beer, Proprietary Preparations and Soft Drinks.

WASHINGTON, September 7.—Following a brief Labor Day recess, the first of the prolonged session, Congress will resume work to-morrow, chief interest centring in the emergency revenue bill to raise $100,000,000. The House Ways and Means Committee hopes by Thursday to agree on commodities to be taxed. Representative Underwood, chairman of the committee, believes the House can pass the bill by Saturday night. Informal conferences to-day resulted in no definite understanding as to what commodities should be taxed other than beer, proprietary preparations and soft drinks. Committee members still insist gasolene should be taxed, and that the arguments against it are not well founded.

Several members of the committee are still insistent that an additional tax should be levied on distilled liquors, and the question probably will be decided by a record vote in the committee. Taxes on automobiles and moving pictures appeared to-night most likely additions to the list.

Members of the Finance Committee are anxious to have the revenue bill passed in the House. They hoped to be able to accept the House bill, but many Senators favor a stamp tax on commercial paper, which the House committee is inclined to avoid. This tax during the Spanish-American War yielded nearly $40,000,000.

Thus far all the plans of the Ways and Means Committee have been on a basis ignoring a stamp tax, but if agreement cannot be reached on taxable commodities that will yield $25,000,000 in addition to the $75,000,000 already tentatively provided for, it may be necessary to adopt a stamp tax.

This may be limited, however, to checks, drafts, telegraph messages, instead of being applied to conveyances, deeds, mortgages and all legal papers, as was done in 1898.

PETERSBURG

BOY SEVERELY INJURED IN BICYCLE ACCIDENT

Master Willie Brown Struck and Knocked Down While Crossing High Street.

PETERSBURG, VA., September 7.—Master Willie Brown, son of Mr. and Mrs. Joel T. Brown, was severely injured Saturday evening, while crossing High Street, near his home. He was struck and knocked down by a bicycle rider and was severely injured about the head. The incident was purely accidental.

Child Seriously Burned.

A little daughter of Walker Stearns, colored, was nearly burned to death last evening at her home on South Dunlop Street. The child was playing in a room in which a leakage from a kerosene can somehow became ignited. The fire spread to her clothing and quickly enveloped her in flames, burning her terribly about the face and head. Two-thirds of the skin on her face was burned off, and her condition is very precarious.

Death of Aged Woman.

Miss Louisa Thomas Bailey, formerly of Chesterfield County, died last evening at the home of her nephew, James A. Bailey, on McKenzie Street, after an illness of two weeks. She was in her seventieth year, and much respected by all who knew her. The funeral took place this afternoon and the burial was in the Ettrick Cemetery.

A Quiet Wedding.

Last night at the home of the Rev. A. R. Love, pastor of the West End Baptist Church, the officiating minister, Miss Sallie Ray Monroe, daughter of Mr. and Mrs. B. J. Monroe, of Ettrick, was married to George Ollin Rogers, in the presence of a number of relatives and friends. The attendants were Miss Pauline Rogers, sister of the bridegroom, and Harvey Lee Redder, uncle of the bride. Mr. and Mrs. Rodgers went North on their bridal trip.

Local Government Meeting.

The call for a mass-meeting of the friends of local government as against enforced State-wide prohibition, to be held in the Academy of Music on Friday evening next, has attracted much attention and doubtless there will be a very large attendance at the meeting. This will be the first public demonstration of the local government people. The temperance forces have had several prominent speakers and workers here at times, and they are well organized for the contest that is to settle the liquor question on the 22d of September. But the local government forces have not been idle in organizing and both sides will poll their full strength on election day.
