WALL STREET PUZZLED BY PRESSURE TO SELL

Relief Expressed When Bulk of Trading Is Traced to Important Insolvent Firm.

SITUATION BECOMES STRONGER

Stockbrokers Little More Free in Their Expressions of Cheerfulness; Only Routine Business Transacted by Stock Exchange Governors.

BY BROADAN WALL.

New York, September 9.—Wall Street has been puzzled recently by pressure to sell stocks and bonds in the New Street curb market. Relief was expressed to-day when the bulk of the trading was traced to an important insolvent firm that received authority from the court to dispose of its assets. A block of Steel common depressed the price to about 1 but with this stock sold the price rallied to 63½ bid. Other issues were offered and in many cases quietly disposed of. The situation is all the stronger for this modest but enforced liquidation.

Stockbrokers were a little more free in their expressions of cheerfulness. Said the head of a wire house smilingly: "Every transaction between us is closed and the clearing-house has been settled. Every loan with a bank or trust company has a margin of 25 per cent or more and I am ready to resume business the minute the banks permit the opening of the Stock Exchange."

A prominent broker with a large local clientele remarked: "I have made a round of the banks and trust companies and feel much encouraged from the improvement of sentiment I find in banking circles. The problem of the resumption of business is nearly solved and from the Stock Exchange point of view conditions are unusually sound."

The head of a prominent odd-lot house said: "In my opinion business will be resumed within a fortnight."

There was some dissatisfaction that brokerage houses with a membership only of the average rate of less than 1 per cent. It is hoped that the Stock Exchange committee will find a way to remove this discrepancy.

A regular meeting of governors of the Stock Exchange was held this afternoon, but only routine business was transacted. The market for call money was practically unchanged at 3 per cent, and no new business was transacted in time funds.

The announcement from Washington that the adoption of the proposed suggestion for $150,000,000 gold reserve to relieve the foreign exchange position awaited the sanction of the Bank of England checked a decline in foreign exchange and the market was practically at a standstill with quotations a shade firmer.

In the copper trade an inquiry for transmission equipment was noted from Norway and Sweden. This indicates development in electrics. Copper buyers are not waiting for the American manufacturer to offer his goods across the sea.

Much interest was felt in the strong argument made by the railroad presidents in favor of a more liberal attitude towards the transportation companies. Wall Street brokers realize more acutely than the general public the sacrifice of values that will surely follow unless the railroads are permitted to increase their income. Large blocks of high grade railroad bonds are being free offered at prices well below the closing figures of July 31, and the 5 per cent bonds of a company that cannot make a living on a 5 per cent money market is as much in the category of the national debt of the government, the price of cotton, wheat or any other commodity.

Members of the Stock Exchange have been requested to furnish the committee of five of the clearing-house their revised lists of open contracts.

New York, September 9.—Completion of the details connected with the creation of the pool was the noteworthy feature of the day in the financial district. What proportion of the amount would be taken by foreign interests is a matter of conjecture, but indications point to strong demand from that quarter.

Exchange was more active to-day, moving in a manner that denoted a better inquiry at London.

Because of a holiday, the Chicago grain market suspended operations to-day, but local quotations were slightly easier, with only a nominal market. Corn and other commodity markets reflected more stability. Crop conditions as a whole appear to have been favored thus far this month, judging from the weekly weather report.

The adoption of regular dividends by New York Central and Western Union Telegraph neutralized the effect of some recent deferred and reduced disbursements.

New York, September 9.—Mercantile paper, 4@4½; sterling exchange, stronger for cables, $4.86@4.86½; for demand, $4.85@4.84½. Bar silver, 54½.

COTTON MARKETS.

New York, September 9.—The more optimistic feeling noted in local cotton trade circles yesterday was even more in evidence to-day, and seemed to be largely based on the report of a better tone in the Southern spot markets. Handlers of spot cotton said that their private advices from the South, as well as the offers that were being received by New England mills, suggested that Southern shippers were becoming less panicky as to the available supply of increasing supplies, owing to the measures that were being taken to relieve the immediate necessities of needy planters and to facilitate the holding movement.

Plans for the relief of farmers said to be forming all over the South while and progress is also reported in the work of building warehouses, and many reports indicate that planters are either holding cotton in the interior or shipping it back from the gins. Reports that demand for Canadian mills had been fair, and that Canadian mills are buying considerable cotton, and have been moderate purchases for export.

Port movement: Stock, 4,849 bales. Total to-day at all ports. Net receipts, 6,000 bales; stock, 1,000,000 bales. Total to-day at all ports. Net receipts, 21,000 bales; exports, 2,000 bales. Total for season. Net receipts, 30,000 bales; exports, 20,000 bales.

Liverpool, September 9.—Spot cotton in moderate demand; sales, 2,000 bales; including 200 American; on the basis of 5.60d for middling; imports, 1,000 bales; no American.

NEW YORK PRODUCE EXCHANGE.

New York, September 9.—Raw sugar, firm; molasses, 96 centrifugal, 8.21; refined steady. Butter, steady. Cheese, unchanged. Eggs, unchanged. Potatoes, 5 to 15 points higher on balance. Tallow, steady. Rice, quiet. Hay, unchanged. Hops, steady. Coffee, opened unchanged to advance 5 to 15 points on covering for account of refiners and trade interests and subsequently eased off, owing to the easier tendency of Brazilian exchange and lack of full support. Final prices were three points lower and two to four points net higher for the balance. Tenders, 2,250 barrels. Total sales, 75,250 barrels. The market closed easy. Spot, 7.90. Sales, September, 7.90@7.95; October, 7.90@7.95; November, 7.90@7.95; December, 7.93@7.95; January, 6.96@6.98; February, 6.95@6.97; March, 6.96@6.98; April, 6.96@6.98.

LITTLE NEWS FROM ABROAD TO ENCOURAGE HOLDERS

Generally Believed in England That Advances Established Have Discounted Exigencies.

[Special to The Times-Dispatch.]

CHICAGO, ILL., September 9.—There was little news from abroad to-day to encourage the holders of wheat. Liverpool was 3d. lower, and the corn market there was off 2d. Broomhall cabled that the Liverpool wheat market was under pressure with the feeling weak, the spot prices having declined 9d. since Saturday. It was also reported that Indian and American offerings were larger, with cargoes arriving freely and being 3d. to 6d. lower. It is generally believed in England that the advances that have been established in wheat and flour have discounted the exigencies. While the Chicago market was closed to-day on account of the primary election, the smaller exchanges of the country were open for business. Minneapolis reported unexpected strength at the opening, due to buying by Chicago and Kansas City; also that country millers purchased some wheat there. Winnipeg wheat was strong because of rains in Western Canada, where many of the farmers are holding their grain for higher prices. The cash demand at Winnipeg was reported excellent, both exporters and millers being large buyers. Cash handlers of grain at Chicago reported purchases of wheat in the country larger than the sales to go out of this market. New York reported vessel room chartered for 2,000,000 bushels of wheat, mainly from Montreal to London and picked ports.

The old bull crowd in corn has been putting out short lines for several days past, because of the improved weather conditions throughout the belt, and the prospect for increased forage, which will mean smaller feeding of corn in the country. Some in the trade believe corn will sell much higher if the war is prolonged; others think that if the crop promise is good, there will be no great advance in prices.

George Phillips, the well-known coarse grain specialist, states that the government report shows a loss of nearly 40,000,000 bushels of oats, and that there being no carry-over, the country now finds itself with 200,000,000 bushels of oats less than was consumed last year, not counting the Canadian importation. Consequently, Mr. Phillips says, "as we are exporting large quantities of oats this year, higher prices should be looked for."

SOCIAL CLUB CHARTERED

Woman's Prohibition League of America Secures Papers of Incorporation.

A new social club obtained papers of incorporation yesterday from the State Corporation Commission. It is to be known as the Progress Club of Richmond, and its authorized capital stock is from $1,000 to $5,000. The officers are: R. J. Lumpkin, president, and T. M. Gardner, secretary and treasurer, both of this city.

A charter was issued also to the Woman's Prohibition League of America, which has no capital stock. The object is to advance the cause of prohibition. The office and base of operations of the league are in Richmond. Mrs. Georgia May Jobson is president, and Mrs. Ella J. Satterwhite, secretary, both of Richmond.

Other charters were issued as follows:

The Buck Roe Pharmacy, Incorporated, Phoebus. Capital stock, $5,000 to $10,000. Drug business. George G. Congdon, president; L. J. Cohen, secretary and treasurer, both of Phoebus.

Shawsville Water Company, Incorporated. Capital stock, $5,000 to $10,000. J. L. Vaughan, president; S. C. Snead, secretary, both of Shawsville.

Cumberland Drug Company, Incorporated, Norton. Capital stock, $1,500 to $10,000. Drug business. John Roberts, president; G. D. Kilgore, secretary, both of Norton.

Ok-Ola Manufacturing Company, Incorporated, Norfolk. Capital stock, $5,000 to $15,000. Manufacturing soft drinks. Harry Smith, president; T. B. Wright, secretary, both of Norfolk.

RESERVISTS OF ENEMY CAPTURED BY CRUISER

HALIFAX, September 9.—The British cruiser Glory arrived here late to-day with the Spanish steamer Montserrat, on which were 150 men said to be Austrian and German reservists, in tow. The Montserrat sailed from New York September for Barcelona, Cadiz and Genoa.

The Glory, which has been engaged in patrol duty off the coast of the United States for some weeks, is supposed to have picked up the Montserrat soon after she left New York harbor. Under the right of search, it is claimed by the authorities, the commander of the Glory had power to bring the vessel to this port and detain her until the nationality of the men suspected of being reservists can be determined. The Montserrat is equipped with wireless and is in regular transatlantic service.

RULES FOR OPERATION OF TUCKERTON STATION

Navy Department Issues Regulations for Transmission of Neutral Messages of Belligerents.

WASHINGTON, September 9.—Regulations for operating the Tuckerton, N. J., wireless station, which was open to-night for transmission of neutral messages of the European belligerents, were issued to-day by the Navy Department as follows:

"The station shall be used only for transmitting to or receiving from shore stations in Europe and the United Kingdom.

"Censors at this station must assure themselves that the messages handled are strictly neutral in character. No unneutral message will be permitted to be handled.

"No messages in cipher or code shall be transmitted or received for delivery unless the United States official censors are furnished with a key to such messages.

"No messages in foreign languages or in unintelligible terms shall be transmitted or received for delivery unless the United States official censors are supplied with translation of such messages in the English language, and the official censors are satisfied of the bonafides of the translation.

"No messages shall be transmitted or delivered until they have been first paraphrased by the censors, whether they are received or are to be sent in plain language or in code, cipher or foreign language.

"No messages shall be sent or delivered until countersigned by the censors.

"The station charges of the Tuckerton Station shall be 17 cents a word cable count, with a ten-word minimum.

"You are authorized to make such arrangements for schedules with radio stations in Europe or the United Kingdom as will serve best to clear the radio traffic involved."

STONE URGES NEUTRALITY.

Admonishes Americans to Observe Closely President's Proclamation.

WASHINGTON, September 9.—An earnest admonition to Americans to preserve the spirit of neutrality in the present European war, despite sympathies or prejudices, was delivered in the Senate to-day by Chairman Stone, of the Foreign Relations Committee. In a prepared speech, he urged that naturalized American citizens from European countries observe closely the President's neutrality proclamation.

"Our power for effective mediation," he said, "will be materially diminished if any government or people becomes convinced that we are unfriendly to it."

He deplored a tendency, which he said had appeared in "influential newspapers and periodicals," to take sides.

RESERVE BOARD TAKES UP CLASS "C" DIRECTORS

Appointment Will Virtually Mark Last Important Step Before Organization of Banks.

WASHINGTON, September 9.—The Federal Reserve Board has taken up consideration of the thirty-six class "C" directors of the twelve reserve banks, whose appointment will mark virtually the last important step before the actual organization of the banks. More than 200 names are before the board. The final list of appointees is expected next week.

The board probably will approve the bankers' plan for a pooling arrangement to pay American obligations to Europe in gold. It is understood to be waiting for a report from London on the acceptability of the bankers' proposal to raise $150,000,000 through banks to pay these obligations.

Every effort is being made to obtain definite information as to the exact amount of gold in possession of all national, State and private banks in the country.

The board probably will make no effort to hear protests of cities against the choice of reserve cities by the reserve bank organization committee until the twelve reserve banks have been organized.

To Save Is Not Miserly

There is a vast distinction between the miser and the thoughtful economist who saves scientifically. The miser hoards his funds for the sake of the money itself, while the economist saves for the purpose of accomplishing some definite good with his accumulation.

IS THIS YOURS?

"I leave my beloved wife to the care of some charitable institute for paupers.

"As it will be necessary to separate our dear little children from their mother, I request that they be committed to some Orphan Asylum for pauper children.

"And now, at peace with God and man, I give this as my last will and testament."

This would be a strange will to make, but is the only will that many men could make to-day, unless they have life insurance.
