Choctaw Townsite Commission Declines to Work.

Muskogee, I. T., Oct. 27.—It is understood that the members of the Choctaw townsite commission have refused to return to work until the United States marshal of the district promised to protect them with a bodyguard. This grew out of the recent assault on Colonel Shephard, chairman of the commission, in which he was nearly killed. There is bad feeling among the citizens of many Choctaw nation towns because of the appraisement of town lots made by the townsite commission. The citizens claim the appraisement is double what it ought to be and they do not want to have to pay such a price for the lots on which they have already made improvements which they cannot sell.

MESSAGE TO FRATERNAL ORDERS

Interesting News From Cincinnati With Local Confirmation in Ardmore.

The thousands of members of fraternal bodies in this state will be interested in the following message from John Theobald, a prominent Forester, who lives at 1111 York street, Cincinnati.

Mr. Theobald writes: "For five years I suffered with stomach troubles, having all the distress and misery that afflicts dyspeptics. I could not enjoy eating, thinking of the suffering that would follow. My food did not digest, and although I took all kinds of medicines, I found nothing to help me until I used Mi-o-na. Thanks to this remarkable remedy, I am now a cured man and believe it made a permanent and complete cure."

The City Drug Store is the local agent for Mi-o-na, nature's cure for dyspepsia. It is in the form of small tablets and sells at 50c a box. The remedy has made so many and such remarkable cures amongst its customers confirming Mr. Theobald's statement, that it will give its personal guarantee with every box it sells to refund the money if it does not cure.

Cause of Lock-jaw.

Lockjaw or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is antiseptic and causes cuts, bruises and like injuries to heal without malignation and in one-third the time required by the usual treatment. It is for sale by F. J. Ramsey, Ardmore Drug Co., and W. B. Frame.
