South Limestone	1.00	Cabell 35 degrees	.95
Wheeler	1.00	Cabell 32 degrees	.95
Cabell	1.00	Cabell crude	.90
Tonkawa	1.00	Corsicana	1.00

Standard oil stocks.

Cushing & Gillespie No. 1 J. Johnson in section 26-16-12 is a 20 barrel well over the shot.

WITH THE LIVE ONES

Dave G. Rogers of Chicago was in Tulsa today.

W. C. Speight of Oklahoma City is making a short visit in Tulsa.

James A. Farrell, president of Carnegie Steel, is in Pittsburg, a guest at the Fort Pitt.

H. S. Bartholomew of Bartlesville was in Tulsa today.

Frank Trumbly of Muskogee was in Tulsa today. Mr. Trumbly is a member of the Muskogee city commission.

A. J. Gaston of Muskogee was in Tulsa today.

In The Red Creek Field

N. A. Gaskins No. 1 in T. Tomlinson in section [illegible] is a confirmed well. The initial flow was [illegible] barrels in [illegible] hours. The well is cased with [illegible] pipe and is a producer of [illegible] oil. The Gaskins well is [illegible] from the Tomlinson well.

Work has begun on the Gaskins No. 2 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 2 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 3 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 3 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 4 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 4 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 5 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 5 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 6 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 6 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 7 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 7 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 8 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 8 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 9 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 9 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 10 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 10 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 11 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 11 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 12 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 12 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 13 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 13 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 14 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 14 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 15 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 15 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 16 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 16 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 17 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 17 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 18 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 18 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 19 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 19 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 20 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 20 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 21 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 21 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 22 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 22 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 23 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 23 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 24 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 24 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 25 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 25 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 26 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 26 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 27 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 27 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 28 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 28 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 29 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 29 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 30 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 30 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 31 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 31 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 32 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 32 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 33 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 33 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 34 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 34 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 35 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 35 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 36 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 36 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 37 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 37 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 38 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 38 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 39 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 39 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 40 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 40 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 41 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 41 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 42 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 42 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 43 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 43 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 44 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 44 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 45 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 45 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 46 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 46 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 47 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 47 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 48 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 48 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 49 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 49 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 50 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 50 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 51 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 51 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 52 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 52 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 53 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 53 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 54 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 54 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 55 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 55 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 56 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 56 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 57 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 57 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 58 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 58 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 59 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 59 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 60 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 60 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 61 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 61 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 62 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 62 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 63 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 63 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 64 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 64 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 65 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 65 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 66 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 66 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 67 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 67 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 68 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 68 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 69 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 69 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 70 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 70 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 71 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 71 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 72 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 72 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 73 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 73 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 74 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 74 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 75 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 75 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 76 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 76 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 77 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 77 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 78 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 78 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 79 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 79 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 80 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 80 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 81 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 81 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 82 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 82 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 83 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 83 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 84 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 84 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 85 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 85 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 86 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 86 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 87 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 87 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 88 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 88 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 89 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 89 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 90 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 90 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 91 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 91 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 92 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 92 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 93 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 93 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 94 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 94 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 95 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 95 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 96 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 96 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 97 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 97 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 98 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 98 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 99 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 99 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 100 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 100 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 101 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 101 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 102 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 102 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 103 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 103 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 104 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 104 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 105 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 105 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 106 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 106 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 107 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 107 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 108 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 108 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 109 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 109 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 110 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 110 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 111 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 111 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 112 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 112 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 113 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 113 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 114 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 114 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 115 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 115 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 116 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 116 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 117 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 117 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 118 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 118 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 119 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 119 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 120 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 120 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 121 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 121 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 122 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 122 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 123 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 123 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 124 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 124 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 125 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 125 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 126 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 126 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 127 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 127 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 128 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 128 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 129 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 129 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 130 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 130 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 131 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 131 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 132 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 132 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 133 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 133 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 134 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 134 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 135 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 135 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 136 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 136 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 137 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 137 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 138 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 138 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 139 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 139 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 140 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 140 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 141 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 141 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 142 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 142 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 143 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 143 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 144 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 144 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 145 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 145 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 146 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 146 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 147 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 147 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Gaskins No. 148 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.

Work has begun on the Tomlinson No. 148 in the same section. This well is being drilled with a cable tool rig and will be a producer of oil and gas.
