"The Captain" and His Giant Model at the Panama-Pacific Exposition

THIS photograph shows "The Captain," a trained horse, on the great amusement section, the Zone, at the Panama-Pacific International Exposition, San Francisco, and a giant model of the horse used to attract the attention of passersby on the thoroughfare. "The Captain" is able to add, subtract and multiply up to six figures. He is also able to spell simple words.

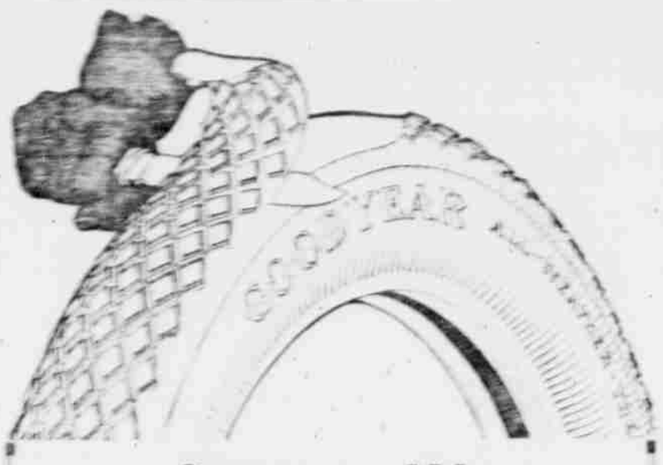
Railway Reopens.

BUENOS AIRES, May 5.—The Trans-Andean railway, which had been closed to traffic since April 19, reopened today. A landslide caused the blockade.



Suppose We Pared These Tires

Suppose our All-Weather tread—only quintuplicate—were pared to the thickness of the usual tread. What would it endure last this year? Or its usual fortnight?

Suppose we pared—as some do—our rim cutting gap. Or made the tubes one layer. Suppose we omitted our exclusive features.

Our No-Rim-Cut feature—
Our "On-Air" cure—
Our rubber rivets—
Our 126-piano-wire base.

All cords do one thing. All of them are manly. Our "On-Air" cure alone costs us $450,000 yearly to save needless blowouts. But could Goodyear Fortified Tires retain our place if we did not give those extras?

Our Tube Tires have been strengthened 25 per cent on the average.

Our fabric has been strengthened.

Yet on February 1st we made our third big price reduction in two years, bringing the total to 48 per cent. Now you are getting at Goodyear Fortified Tires the best value ever known in tire making.

It is due to yourself that you use these tires. Our army of satisfied users is by far the largest army in Tiredom. Any dealer will supply you.

"Carry it home" will fail here as elsewhere.

They insult even their own customers by saying all people are dead-wrong—probably judging others by themselves.

Their business policy is **piratical**; their "dope" is **deceptive**, and their "buy for cash" claims **false and hypocritical**.

This store is succeeding on the theory that **most people are honest** and are willing to pay for service.
