ARKANSAS WILL BUILD TO ROAD

Failure to Land Jefferson Highway Does Not Discourage Enthusiasts.

FORT SMITH, Ark., Nov. 19.—Undaunted by the reverse they suffered at the Jefferson Highway association's convention at New Orleans this week when the Oklahoma route was selected in preference to the Arkansas route, Arkansas members of the association today called a convention to meet at Winslow on December 1 for the purpose of devising plans to build a loop to the Jefferson highway through the scenic Ozarks of this state. The Arkansas route as proposed to the New Orleans convention carried the highway through the Ozark mountains through the entire western part of Arkansas. The Arkansas members now propose to build this road and attach it to the Jefferson highway as a loop, the main connections to be made at some point in Oklahoma and again somewhere in Texas.

It is further proposed to build intersecting connections between these main connections so that in the event travelers desire to cross to the highway or loop they may do so without being forced to go to the chief connecting points. The fact that the loop will furnish a different class of scenery is expected to increase the popularity of the highway.

The construction of the loop north of Fort Smith should be an easy matter owing to the numerous good road projects under way in that vicinity. It is believed these roads can be easily connected to furnish one-half of the entire proposed loop.

BURNS MOTION TO BE HEARD MONDAY

Judge Conn Linn May Not Be Qualified to Decide the Issue.

Judge Conn Linn yesterday postponed the hearing of a motion filed by attorneys for Foster N. Burns, deposed chief of police, to quash the accusation brought against him by the special grand jury until next Monday morning at 9 o'clock. Attorney Pat Malloy appeared before the court yesterday morning but the docket of the district court is in such shape at present that Judge Linn found it impossible to hear the evidence this week.

Burns alleges that the whole investigation being made by the grand jury is unlawful and that the members of the jury itself were unlawfully appointed.

May Disqualify Linn.

One of the chief arguments made by Burns' attorneys is that T. E. Smiley, one of the three members appointed by Judge Linn last August to compose the jury commission, was found guilty of an attempt to defraud the United States government in 1898. If this is true it is probable that Judge Linn may not hear the motion. There is a statute that anyone who has ever been convicted of conspiracy against the government cannot serve on a jury commission and it is not improbable that Judge Linn, having made the appointment, may disqualify himself.

Smiley's friends contend that when he was pardoned his rights as an American citizen were restored and that he is entirely free from an stigma of the charge now and qualified to act as a jury commissioner.

Burns alleges that Smiley caused some half hundred names of men hostile to him to be placed on top of the rest in the box from which were drawn the names of those to compose the grand jury.

Should the selection of the veniremen be proved unlawful the panel will, in all probability, be dismissed.

PROMINENT ADA GIRL KILLS SELF

Special to The World.

ADA, Okla., Nov. 19.—Miss Katie Couch, one of Ada's best known young ladies, ended her own life here this morning by drinking carbolic acid. She left nothing that would give a clue as to the cause of her action. She bought the acid from a drug store about an hour before taking it, saying that she wanted it for a disinfectant. She was reared here, and the town was shocked to learn of her death at her own hands.

WHITE STAR MARKET

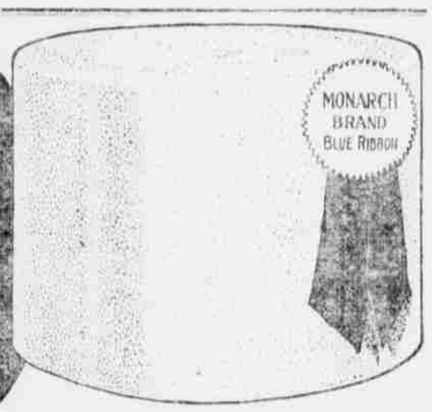
Phone 2517. 110 North Main.

A 1000 LB. Cheese



10,400 lbs. of Pure, Rich Milk Used in Making This Cheese—

The largest cheese ever exhibited in Tulsa—a soft, smooth, rich, full cream cheese, having all the appetizing flavor, delicate richness and creamy consistency that comes with right making and right curing.

It requires ten pounds of pure, rich milk to make one pound of good cheese—and Monarch cheese is the finest produced in America. It is made from the milk of prize dairy cows, on a thousand model farms, where the meadows grow green and sweet and the milk is always rich and fine.

A cow will give an average of twenty pounds of milk per day. On that basis, this Monarch Blue Ribbon giant contains the milk given by 520 cows in one day.

Remember, "the larger the cheese the finer the flavor." We are now booking orders for this tremendous big cheese which will be cut Tuesday, November 23 and delivered to our trade for Thanksgiving day.
