SEATS FOR OPERA ARE GOING FAST

Those in Charge Say They Will Be Disposed of Within Two Weeks.

The sale of seats for the engagement of "Carmen" and "Il Trovatore" by the Ellis Opera company here on the nights of October 26 and 27 will be opened up within the next fortnight and the box office manager, Mr. R. C., is the committee of those who are handling the ticket sale. At present more than $15,000 worth of reserva- [illegible] have been sold and the number is being increased daily.

At present, so far as Tulsa is concerned, the sale is dragging slightly. Persons who have not purchased their reservations seem to be contenting themselves with the idea that there is plenty of time to do so and are resting on their oars. No so with persons living in territory contiguous to Tulsa. Every mail brings in checks and money orders from neighboring towns. The week's sale shows that the "out-of-town buyers" have outstripped local ones.

The anticipation in the sale has been increased considerably this week by the announcement that Cimarron has already reached America and has begun preparations for the wonderful tour. Announcement that the singers themselves, including Geraldine Farrar and Louise Homer, have turned their attention to the tour has also enhanced the interest.

Thompson Placed on Board.

Special to The World.

OKLAHOMA CITY, Sept. 28.—The state election board today selected E. L. Blair of Miami to be secretary of the Ottawa county election board and Floyd Thompson of Broken Bow as Republican member of the McCurtain county board. Secretary Joe Morris, who has been absent from the city several months on account of poor health, sat with the board today, having arrived home this morning.

TRADER'S DOPE

OLD TRADER was NOT PLAYING when he PAID a BIG BONUS to get a ROOM on EAST FIRST STREET.

We have a CARLOAD of the BEST MICHIGAN CONCORD GRAPES SETTING at OUR DOOR we have a CAR of APPLES, a car CABBAGE and a car of POTATOES all in the Frisco yards, waiting to be SET. LOOK for LOWER PRICES.

Pig Liver, Pig Feet, FAT BACKS and JAW MEAT. JUST NAME YOUR PRICE and TAKE 'EM, FOR OLD TRADER will MEET and CUT PRICES on EAST FIRST STREET.

BEST PIG LIVER 5 CENTS per POUND in CHUNKS. COME GET 'EM and SLICE 'EM YOURSELVES. If OUR boys SLICE 'EM we will CHARGE you 7 cents. We charge for LABOR, for LABOR COSTS us MONEY.

NINE of the BABY BEEVES BOUGHT at the FAIR, to ENCOURAGE the BABY BOYS that HAD the NERVE to GROW such FINE CATTLE, they are NOW COOLING OUT at the INDEPENDENT PACKING PLANT.

They will COMMENCE GOING OVER OUR BLOCKS MONDAY, OCTOBER 2ND. We did not buy those CATTLE to make money but to ENCOURAGE the BOYS that there is a PREMIUM on the BEST and to never be SATISFIED with anything LESS. Teach them to STRIVE to EXCEL.

OLD TRADER SAYS EVERYBODY must EAT some of THOSE BABY BEEVES. If you do not LIKE OUR PRICES or if you do not have the MONEY, OLD TRADER says "GIVE 'EM a MESS."

REMEMBER MONEY back if not pleased.

WORK OUT DETAILS OF FALL CAMPAIGN

Leaders in Y. W. C. A. Building Movement Hold Final Conference Here.

A meeting of the board of directors and advisory committee of the Young Women's Christian association was held yesterday morning for the purpose of planning details of the campaign to be opened next month for an association home.

Friday, November 17, was decided upon as the definite date for beginning the solicit of funds, which will continue over ten days, with $150,000 as the goal. Robert M. Moody of the Exchange National bank was named as treasurer of the fund.

Following a suggestion made some time ago, Mrs. James A. Chapman of the building committee and Miss Florence Hanson, association secretary, will next week visit Wichita, Kan., which recently completed an up-to-date building. The visit is for the purpose of gathering ideas which may be found advisable for use in erection of Tulsa's prospective association home.

Members of the two committees are most optimistic as to the outcome of the proposed campaign and feel confident that the required amount of money will be received within the ten days set aside for that purpose.

KATY IMPROVES TRACKS IN CITY

Lays New Line to Improve Switching Facilities Here; Erect Modern Scales.

Plans were drawn up on Wednesday afternoon by officials of the M., K. & T. railway for the improvement and extensions on the tracks of the railway through the city. New tracks are to be laid through the yards so that there will be more switching facilities than are at present available.

The final decision was reached after the arrival of R. W. Hockaday, industrial agent for the M., K. & T., who arrived yesterday from St. Louis, where he had a long conference with the other officials. C. H. Evans, traveling industrial agent, will have actual charge of the improvements.

The surveying is now being started and W. W. Springer arrived Wednesday with a force of thirty men who will begin working on a new set of scales which are to be placed in front of the new depot. It is expected that they will be in readiness by the end of next week. With the same men he intends to build an automobile dock for the handling of automobile freight.

In the Oil Fields

CONTINUED FROM PAGE EIGHT

NEW COMBINATION IS BEING FLOATED

Another combination of producing and refining companies is now being financed in New York, it being the North American Oil & Refining corporation. The combination takes in the North American Refining company at Peneta with a capacity of one thousand barrels a day, the Rosedale refinery at Rosedale, Kan., with a capacity of eight hundred barrels a day, the North Pool, Channell and Cimatron Oil companies, with about two hundred barrels a day production in the river bed in North Cushing, and the Parker Process company, controlling a special refining process. Thomas Nevin & Son, 115 Broadway, New York, are underwriting a $1,000,000 bond issue for the company.

AT BLACKWELL.

Symboleer Oil & Gas Co. is drilling at 2,850 feet in the test on the Peckham ranch, 27-27-1 west.

Kay & Kiowa Oil & Gas Co. has about all of the tools but the bull wheel in the test on the Tyler farm, northeast quarter of 26-28-1 west, and was trying to get some way to get fishing tools down in the hole. They started with an underreamer and got in bad trying to get each tool out. This test was at 2,200 feet.

Southwestern Oil company is moving in a rig at the location on the Mechoff farm, northeast quarter of 28-28-1 east. The same company has completed a rig at the south half of the northeast quarter of 26-28-1 east.

The Mid-Co Petroleum company is running fishing tools to try to pick up the string lost at 3,460 feet in the test on the Hampton farm, southeast quarter of 1-28-1 west.

Same company had the tools moved away from the test on the Larrabee farm, southeast quarter of 24-28-1 west, and does not intend to do any work until there is some change in the market conditions. The test was left out in the top of the Blackwell sand at 3,380 feet.

Sinclair Oil & Gas Co. is shut down at 870 feet in the test on the Moody farm, southeast quarter of 26-28-1 east, because of no water.

Gypsy Oil company will get started soon again with the rotary outfit on the Wather farm, northwest quarter of 1-28-1 east. The drill pipe was being put in preparatory to getting started.

Kay & Kiowa Oil & Gas Co. is underreaming in the test on the Avery farm, west half of the northwest quarter 32-29-1 east, at 2,100 feet.

Blackwell Oil & Gas Co. is trying to jar the pipe loose in the No. 4 on the Wolf farm, southeast quarter of 6-28-1 east, that was stuck at 1,900 feet. The rotary outfit is being used here until the pipe sticks, and then cable equipment was strung up to get the pipe loose.

AT ENID.

Special to The World.

ENID, Okla., Sept. 28.—It has been definitely decided that a new well will be drilled on a large acreage that lies west of Enid. The name of the party who will drill the well has not been given out but the leases on the acreage are already secured and one party has signed the contract. This is the second well to be placed on acreage west of this city, the being on the Henry Herbst farm three miles northeast of Lahoma.

Superintendent Hannis of the Sinclair Oil corporation, who has charge of the field of operation, is in Enid arranging for the drilling in of the Hoy test 18 miles east of this city.

Steps are being undertaken to start the new test on the Fred Boepple farm which adjoins the town of Covington on the north. Actual drilling at this test will a to be in progress within thirty days.

The eight-inch casing at the Hoover test is being pulled up in order to make adjustments at the bottom of the well before further drilling is undertaken. When the casing was lifted a few feet, gas was admitted into the hole and the oil was blown out of the well a distance of thirty feet into the air.

There are no new developments in the test well which is located south of Hayward.

The Southwestern Petroleum company and R. Hochstetter have secured an oil lease upon forty acres of land near the Hoover well at the rate of $40,000 a quarter section or $160,000 for an entire section. The price, $10,000, was paid to ClarissaIvely for the northwest quarter of the northwest quarter of 24-22-2.

AT BOYNTON.

Risl and others No. 3 on the Manual farm in the southeast of the northeast of the southwest of 21-14-16 got the sand at 1,548 feet and six feet in is doing about 200 barrels of oil and a lot of gas.

The test of Frank Tack and others in 24-14-16 which has been shut down for a long time for water is starting up again.

The Sperry Oil & Gas Co. No. 9 in 14-14-16 is good for 50 barrels.

AT MORRISON.

The test of the Cosden Oil & Gas Co. in 27-23-3 is drilling at 3,250 feet.

The Fortuna Oil company test on the Altaffer farm in 5-22-3 is drilling at 2,750 feet.

The same company will probably skid the rig in its test in 33-23-3, where they have had a bad fishing job at 1,800 feet.

Swearinger and Testerman are fishing at 1,785 feet in their test in 20-23-3.

BOOCH SAND DISTRICT.

The Big Six Oil company No. 2 on the Marlin and Buford fee in 13-14-14 is good for 15 barrels.

Rebo and others No. 1 on the Eli Cobb farm in 6-14-15 is making 30 barrels.

Enokl, Bellis and others No. 6 on the Seth Atwood farm in 28-14-14 is a five-barrel well.

The Gypsy Oil company No. 5 on the Ben Adams farm in 12-14-14 is good for 10 barrels.

AT AUGUSTA, KAN.

Woods and others test on the Bisagno farm in 20-27-4 is dry and plugged.

Gilliland and others No. 5 on the Loomis farm in 21-27-4 is good for 200 barrels. No. 3 for 150 and No. 4 for 2,000 barrels.

The Prairie Oil & Gas Co. No. 2 on the Bell farm in 28-27-4 is dry and abandoned.

The Freed Oil & Gas Co. No. 2 on the Guest farm in 28-27-4 is making 3,000 barrels.

AT EL DORADO, KAN.

The test of Foster and others on the Cook farm in 4-26-5 got the top of the sand at 2,522 feet with a good showing of oil and was drilling in yesterday.

The Empire No. 3 on the Stokes farm in 31-25-5 looks good for 300 barrels.

PRAIRIE DRILLING IN.

The Prairie Oil & Gas Co. is drilling in a half dozen wells on its Scully farm in 9-27-4, which have been shut down on top of the sand for some time. This is a pretty good indication that the Prairie will soon be running all the oil it can out of the Augusta field.

SOUTH OF STONE BLUFF.

The Navajo Petroluem company has a rig up for its test in 30-16-15.

DRILLING BY ELECTRICITY.

A very interesting experiment is now being conducted at El Dorado, Kan., which it is claimed has already proved a success. It is the drilling of a deep well by electric power, as differentiated from steam. It is the well of the Hickory Oil & Gas Co. on the edge of the town of El Dorado. The machinery was instaleld by the Kansas Gas & Electric Co. and is being watched very closely. It is claimed that the cost of operating the electric power is only $4 a day, which is a big saving over the old method. The driller claims it is a success already.

The same company has installed several electric pumping outfits at El Dorado and they say they are easily proving their worth. Some of the companies using them are the Gypsy, Derby, Cassoday, Gilliland, Big Six and others. The power is furnished from a high-power line from Wichita. The only other electrically operated lease in the mid-continent field is the Cosden-Hill lease at Cushing.
